

Presbytery of Glengarry Recent Meeting

The Glengarry Presbytery of the United Church met in St. Paul's Church, Cornwall, on the 18th inst. with a good attendance of both Ministerial and lay members. Two sessions were required to dispose of the lengthy docket of business which consisted mainly of the reports of Standing Committees.

Rev. N. M. Rattee as a member of the Conference Settlement Committee gave a brief report of a meeting of that Committee held recently. After a brief discussion a Special Committee was appointed consisting of Rev. N. M. Rattee, Rev. W. A. Monteith, Rev. F. J. Vowles, Capt. J. A. B. McLennan and J. W. Kennedy to consider very carefully the question of the settlement of Ministers and report at the next meeting of the Presbytery.

The Treasurer, Rev. D. M. Macleod, reported that all the congregations of the Presbytery had paid the amounts due for the Conference and Presbytery fund and that there was a balance of \$161.93 after all financial obligations for the year had been met.

The Treasurer was authorized to pay from the Campbell Bequest fund the sum of \$50.00 each to Kenneth G. McMillan and Malcolm C. McKee, students at the United Theological College, Montreal, studying for the Ministry.

The members of the Presbytery felt deeply the loss sustained by the death of Rev. Dr. J. G. Melvor who passed away suddenly on Jan. 6th, and who was a diligent student, a faithful pastor and greatly beloved by his people. The Presbytery agreed to insert in the records a Minute prepared by Rev. D. M. Macleod and send a letter of sympathy to the family of the deceased.

The Home Mission report was presented by Rev. D. M. Macleod and the Presbytery agreed upon the grants to be applied for the aid-receiving Churches and the Cornwall Island Mission. Rev. Dr. J. U. Tanner the Conference Superintendent of Missions, was present and addressed the Presbytery dealing with the Home Mission situation in the Conference and more particularly in Glengarry Presbytery.

A committee was appointed to make a survey of the Presbytery with a view to effecting a rearrangement of certain fields and so reducing Home Mission grants and also lightening the burdens of some churches which are now barely self-supporting.

In presenting the report for the Missionary and Maintenance Fund Committee, Rev. James Faulds referred to the generous response of the Churches in the Presbytery and spoke of some things which are necessary if the greatest possible success would be achieved. In the absence of Rev. F. W. K. Harris, the report of the Religious Education Committee was presented by Rev. John MacKay of Avonmore, who referred to the Boys' Conference to be held in Avonmore, March 28-30, and urged that delegates be sent from all Sunday Schools.

In presenting the Statistical Report for 1929, Rev. Dr. Gavan gave the number of pastoral charges as 21; preaching appointments as 35; families 1819, church members 4097. There are 33 Sunday Schools with 2381 enrolled; 37 Young People's Societies with 921 members. Total contributions for Missionary purposes \$16,000.00.

Rev. H. D. Whitmore, convener of the Committee for Evangelism, and Social Service presented a carefully prepared report. The recommendations, especially those dealing with the temperance situation, led to considerable discussion. The feeling seemed to be unanimous that the increase in the production and sale of intoxicating beverages and the larger number of permits issued yearly, is sufficient proof that the Liquor Control Act is not promoting the highest welfare of the people of the Province. Pledge signing, the scientific study of the effects of alcohol on the human body and the distribution of literature of the right kind were urged as methods to be followed by all churches.

The Laymen's Association of Glengarry Presbytery assembled at the noon hour and considered some practical suggestions for future meetings. J. W. Kennedy of Maxville, is President, and R. J. Fursy, Secretary of the Laymen's Association.

Rev. N. McLaren, of Moose Creek, gave report of the pension fund indicating advantages to the minister from this source.

Mrs. McRoberts, of St. Paul's United Church, Cornwall, tendered the greetings of Glengarry Presbyterial to the members of Presbytery in an address with interesting information Mrs. McRoberts mentioned that 26 women's missionary societies in Glen-

STAYS VANISHED

Nothing has so far been found which will lead to the discovery of General Kouliouff, leader of the Russian exiles in Europe, who mysteriously vanished on January 26 in Paris. It is feared that he has been kidnapped by Soviet agents.

Report Surplus of \$193,990,258

In the consolidated revenue fund, a surplus of \$193,990,258 is shown for the fiscal year ending March 31 in the report of Georges Gauthier, auditor-general, as tabled in the House of Commons by Hon. C. A. Dunning, finance minister, Tuesday. The ordinary revenue totalled \$460,940,727 or an increase of \$31,093,176, while expenditure totalled \$356,950,468, or an increase of \$19,500,000 approximately.

Included in the special revenue items is that of German reparation payments of \$4,025,163, a decrease of \$2,760,312 from the year previous.

The auditor-general reported that there had not been any overruns of his decisions by the treasury board since the last session.

The statement of governor-general's warrants totalled \$808,700, of which \$296,261 was expended. To protect timber, owing to the unusual number of forest fires in the Western Provinces, a warrant was issued on September 11 for the expenditure of \$200,000, all of which was spent, and on Oct. 17 for fighting fires in Canadian National Parks a warrant was given for \$15,000, of which \$10,506 was spent.

A warrant of \$25,000 was given for arbitration expenses of the I'm Alone case, of which only \$2,575 has been spent to date.

A warrant of \$20,000 was issued for expenses of conducting investigations under the Combines Investigation Act, with \$9,454 being spent.

Only on February 20 last a warrant was issued for \$300,000 for the relief of pensioners.

United Church Services

A preparatory service will be held in the United Church, Alexandria, this (Friday) evening at 8 o'clock.

The quarterly Communion Service will be held on March 2nd, at 11 a.m.

The next meeting of the Woman's Missionary Society will be held at the home of Mrs. J. D. McIntosh on Friday, March 7th, at 2.30 p.m. This will be the annual meeting for prayer in connection with "The World Day of Prayer" and all the ladies of the congregation are urged to be present.

Glengarry Deputation Wait on Deputy Minister

Messrs. Robert McCormick, 3rd Kenyon, John D. McKee, Apple Hill, Angus McGillis, ex-M.P.P., Angus J. McLeod, Ian, Williamstown, Dougal Cameron and A. McIntyre, Charlottetown, were in Ottawa on Tuesday and waited on the Deputy Minister of Agriculture in reference to postponing the T. B. test in the townships of Kenyon and Charlottetown until the Fall. The decision is being withheld owing to the illness of Hon. W. R. Motherwell, Minister of Agriculture.

Glengarry Presbyterial contributed more than \$11,000 during the past year, and the conference total is more than \$91,000. Systematic and proportionate giving, distribution of missionary literature and a temperance secretary for each society were emphasized as desirable. Mrs. Harkness of Cornwall, referred to the fact that all the societies were endeavoring to reach the allocation.

Rev. Mr. Harris being absent, owing to illness, Rev. Mr. Whitmore presided. The matter of deciding the date, and place of next meeting was left with the Chairman and Secretary.

Miss Eunice E. Simpson Weds James Gordon MacGregor

A ceremony of unusual interest was held in the United Church Alexandria, Saturday, February 22, when Eunice Evelyn Simpson, daughter of Mr. and Mrs. W. J. Simpson, and James Gordon MacGregor, son of Mrs. Jessie MacGregor, of Rosedale, Toronto, were united in marriage.

The church was beautifully decorated by friends of the bride with evergreens and Spring flowers. To the strains of Lohengrin's "Bridal March," rendered by Mr. K. Hope, the bride entered the church on the arm of her father. She looked very lovely in a princess gown of egg shell flat crepe back satin with a cap of rose point lace and tulle veil wearing a diamond and platinum brooch, the gift of the bridegroom, and carrying a bouquet of freesia and lilies-of-the-valley. The bride's sister, Miss Emily Simpson, who was her only attendant, wore a gown of green flat crepe with straw hat and slippers of corresponding shade. Her bouquet of Spring flowers was most attractive.

The ceremony was performed by Rev. D. M. Macleod. During the signing of the register "My World" was sung by Miss Anna Mitchell, of Kingston.

The groom was attended by his brother, Mr. George MacGregor of Toronto, and the ushers were, Mr. Leslie Simpson, of Toronto, brother of the bride, and Mr. Ron. Carkner, of Ottawa.

After the ceremony a reception was held at the home of the bride's parents.

The guests were received by the bride and bridegroom, Mrs. Simpson wearing a black crepe main gown with rose beige trimming and corsage of violets, and Mrs. MacGregor in a gown of black satin with a corsage of violets.

After the reception, the couple left for Washington preparatory to a Mediterranean tour. The bride's traveling costume was a charming ensemble of brown velvet gown, brown and beige ribbon turban and brown broadtail coat.

Among the out-of-town guests were Mrs. MacGregor and Mr. George MacGregor of Toronto; Mr. William MacGregor of Ottawa; Mrs. J. O. Simpson of Malone, N.Y.; Mr. Fred Leslie and Mr. and Mrs. W. Talbot Payton of Montreal; Mr. Robert Simpson of Cornwall; Mr. and Mrs. R. W. Urquhart and daughter; Miss G. Gallaher, Miss M. Creed, Miss A. Piggett, Miss K. Shand, Mrs. Hunter, Miss E. Thompson, Miss L. Miller, Miss H. Giles, Miss H. Carkner and Miss E. Barnstead, all of Ottawa.

Marriage

O'SHEA-McANALLY
St. Joseph's Cathedral, Edmonton was the setting of a pretty wedding on Tuesday when Miss Stella McAnally, daughter of Mr. and Mrs. P. I. McAnally became the bride of Mr. Ambrose O'Shea of Berwyn, (a son of Mr. and Mrs. Joseph O'Shea, of Apple Hill). Rev. Father Nelligan performed the ceremony and read the nuptial mass. Miss Mary Waukel played the wedding music and Miss Helen Loughlin was soloist during the offertory.

The bride was lovely in a satin ensemble in tones of beige and white with touches of lace and small felt applique hat. Her bouquet was a shower of opelia roses and valley lilies. Miss Cecilia McAnally, who was her sister's bridesmaid chose a smart frock of iris brown with velvet hat and carried an arm bouquet of mauve and yellow tulips.

Mr. Leonard McNamara was best man. Following the ceremony a wedding breakfast was served at the residence of Mrs. Alexander Mays. Mrs. Leo Trimble and Mrs. Stephen F. O'Brien of Berwyn, poured coffee and Mrs. Angela McAnally, Miss Margaret McNamara and Miss Georgina La Belle were assisting. The table centered with the wedding cake was done in pink and white and spring flowers were used about the rooms.

Mr. and Mrs. O'Shea left on the noon train for a honeymoon trip to the Pacific coast, and will be at home early in March at Berwyn.

Reception of New Members

The Children of Mary Sodality of St. Finnan's Parish will hold their annual reception of new members at the evening service in the Cathedral, on Sunday next, March 2nd. It is anticipated that the membership on that solemn occasion will be considerably augmented.

CANADA'S FIRST WOMAN SENATOR

Senator the Hon. Caroline McKay Wilson, wife of Norman Wilson of Ottawa. Senator Wilson is the mother of eight children and is the first woman senator to be appointed in Canada or the British Empire.

Soil and Crop Train To Visit Glengarry in March

The soil and crop train, under the direction of the Ontario Department of Agriculture, with the co-operation of the two railways, the C.N.R. and C.P.R., will visit Glengarry points for four days during the month of March: Lancaster on the 11th, Glen Robertson, on the 12th; Greenfield, on the 13th and Moose Creek, Friday, 14th March. In each instance the train will be open to the public from 9 a.m. to 5 p.m.

The soil car includes exhibits on drainage, tillage, fertility, crop rotation and power. Methods of hitching four and five horse teams will be shown.

In the crop car weed specimens will be exhibited, also suitable screens for fanning mills. Approved varieties of grains and other crops will be included.

In the lecture car at 2 o'clock in the afternoon, addresses will be delivered on chemical fertilizers, drainage and other soil problems; on weed control, good seed, crop rotation and other phases of crop production. The methods of increasing farm profits will be discussed at every stop.

It is to be hoped that by the attendance of those primarily interested, by inspection of the numerous exhibits of grain and other crops and attention at the afternoon lecture, farmers of Glengarry will show their appreciation of the efforts being put forth by the Ontario Department of Agriculture and Canada's two great railways, to bring to our very doors such advanced methods of farming. Young and old should pin the date in their hat and allow no other engagement to prevent their presence.

Presbyterian Minister Awarded a Degree

Rev. John Lennox, at one time minister of Indian Lands Presbyterian Church, has been awarded his B.D. Magna Cum Laude from the Dallas Theological Seminary. The way Mr. Lennox made the grade was by resorting to an old time practise in his early student days in getting up to pursue his studies at 4 a.m.

Appointed District Agent

Recently Mr. Isaac Hope, the well known dealer in Automobiles, Trucks, etc., received the appointment of district agent of the Willy Knight cars and trucks, the district including the town of Cornwall, the town of Alexandria and sections in Glengarry not already represented. The company is to be congratulated upon securing the services of Mr. Hope who they will find maturing in his efforts at all times to bring before the buying public the merits of their cars and trucks.

Euchre and Dance

The members of the C.W.L. held a very successful euchre and dance in Alexander Hall, on Tuesday evening, 25th inst., the proceeds going towards their charity fund. The prize winners for the euchre were Mrs. D. O'Brien and Mr. G. P. McLaughlin. Following the serving of refreshments, a large number of young people enjoyed the musical numbers.

Raised to The Dignity Of The Priesthood

In the Chapel of St. Francis Xavier Seminary, Scarboro, Ont., on Monday, February 24th, at nine o'clock, Rev. A. J. MacDonald, a native of Alexandria, was raised to the dignity of the priesthood by Right Rev. Alexander MacDonald, of Toronto. Present at the solemn and impressive ceremony were Rev. C. F. Gauthier, of Greenfield and Rev. R. J. MacDonald, of St. Columban's, Cornwall.

On the following morning, the newly ordained priest celebrated his First Mass, in St. Michael's Church, Montreal, at 8.30 o'clock, being assisted by Rev. C. F. Gauthier, upwards of fifty relatives and intimate friends being in attendance. In the sanctuary were Rev. Luke Callaghan, P.P., Dr. Melville Dawson, Rev. Wm. Byrd and Rev. John Britt.

Father MacDonald is the second son of the late A. R. MacDonald and Mrs. MacDonald, now of Montreal, formerly of Alexandria, where he was born and received his primary education.

As was already announced Father MacDonald will celebrate his First High Mass in St. Catherine's Church, Greenfield, on Sunday morning, March 2nd, and after a short holiday will take up his duties at the St. Francis Xavier China Mission Seminary, Scarborough.

C. G. I. T. Concert

Attracts a Good House

A play in four acts entitled "The Taming of Horrors" was staged in MacLaren Hall on Wednesday evening of this week by members of the Canadian Girls in Training and was well received by an audience that practically filled the hall. The cast was a large one and included several well known amateurs that possess more than ordinary histrionic ability.

The play taught a wholesome lesson and opportunity was given those present of securing an insight into the aims and objects of the C.G.I.T. and its importance as a girls' organization in the moulding of character.

Between acts vocal and instrumental numbers and recitations added to the charm of the evening.

A word of commendation is due for the excellent stage setting, especially the campfire scene, "A Night in Camp", which was more than realistic and effective.

Dr. H. L. Cheney, towards the close of the evening, thanked those who attended and made well deserved complimentary references to the work of that organization, by its leader, Mrs. J. T. Smith through whose indefatigable efforts the C.G.I.T. has become a very live organization.

St. Patrick's Day

The annual entertainment in honor of St. Patrick's Day, the patron saint of Ireland, under the auspices of Glengarry Council K. of C. of this year as heretofore, will be a highly attractive and well worthy of patronage. The young players will present the four act drama, "Kathleen Mavourneen", a happy selection for the occasion, and between acts numbers befitting the day will be given. The dates decided upon are Monday and Tuesday, March 17 and 18th, the place, Alexander Hall, Alexandria, price of admission 47 cents, box, no higher.

C. W. L.

The monthly meeting of the C.W.L. will be held in the K. of C. hall, on Friday evening, March 7th. A full attendance of members is requested.

MUST ADD EXCHANGE TO CHEQUES

Customers and subscribers, from out-of-town points, when paying accounts or renewing subscriptions, by cheque, to The Glengarry News, are requested to add fifteen cents to the amount to cover exchange. Unless exchange is added same will be deducted from the amount remitted and credit given on account of subscription for net amount only. In other words, subscribers will be credited with the amount of cheque received for subscription minus exchange. Postal notes, orders and express money orders are at par. Make cheques also par at Alexandria.

WANTS EDUCATIONAL CONFERENCE

Hon. Joshua Hinchliffe, Minister of Education in the British Columbia Cabinet, who is endeavoring to promote an interprovincial conference to discuss the many educational problems in the Dominion of Canada.

Silver Wedding Anniversary Of Mr. and Mrs. D. J. Campbell

On Friday evening February 21st, upwards of sixty friends and relatives, drove to the hospitable home of Mr. and Mrs. D. J. Campbell, Greenfield, to join with them in celebrating the 25th anniversary of their marriage. Mr. and Mrs. Campbell who were taken completely by surprise welcomed the guests in true Highland style to the accompaniment of the merry strains of the Scottish pipes, in the capable hands of Piper Sandy Munro of Apple Hill.

The evening was most pleasantly spent by one and all in cards, dancing, instrumental music on the piano, violin and victrola and vocal selections by Messrs. A. D. Munro, Apple Hill and Angus A. McDowell, Greenfield—not the least enjoyable being the old time Gaelic songs rendered by the latter who knows how to sing them in true Celtic manner.

About midnight a sumptuous lunch was served to which ample justice was done after which the appended address was read by Mr. D. J. McPherson and presentation made of a number of silver gifts, including twenty-five dollars in silver quarters from Rev. R. A. MacDonald, Cornwall, cousin of the bride.

THE ADDRESS

To Mr. and Mrs. D. J. Campbell,
We, your friends and neighbors, have assembled to-night to join with you in celebrating the 25th anniversary of your marriage. In all the years during which you have lived among us, we have always found you sincere friends and neighbors, ever willing to give of your time and talent to assist any good cause, and to lend a helping hand at all times. We rejoice that you have been spared to spend so many happy years together, surrounded by your little family and it is our earnest wish that you will be spared many more years of happiness and usefulness. As a slight token of our esteem and friendship we ask you to accept these gifts with the wish that we shall all be with you on your Golden Wedding Day.

Your sincere friends and well wishers.

Mr. McPherson then, in a few suitable words, congratulated Mr. and Mrs. Campbell on their happy and prosperous matrimonial voyage on the sea of life, notwithstanding many storms and vicissitudes by the way and hoped they would yet be spared to spend many more such years of happiness and usefulness.

Mr. Campbell, on behalf of Mrs. Campbell and himself thanked all for their kindness and generosity and expressed the hope that they in turn should have many opportunities of helping their friends celebrate similar events.

The chairman then called upon a number of the guests for brief speeches after which all joined in singing "For They Are Jolly Good Fellows". More music and dancing followed for a short time then all joined with Mr. and Mrs. Campbell and family in singing Auld Lang Syne and Homo Sweet Home. The visitors then departed for their homes fully realizing that one and all had enjoyed a brave night in the Highlands.

Coming Engagement

The Ladies Aid of St. Columba Church, Kirk Hill, are planning to hold a St. Patrick's Supper and Concert, in the School Room of St. Columba Church, on St. Patrick's Day, Monday, March 17th. Watch for particulars in next issue.

Glengarry Farmers' Mutual Fire Insurance Company

On Saturday, 22nd inst., the annual meeting of The Glengarry Farmers Mutual Fire Insurance Company was held in Alexander Hall. Mr. D. A. Ross, ex-M.L.A., president, was in the chair, and associated with him was Mr. V. G. Chisholm, secretary-treasurer. The attendance of members fell short of what reasonably might have been expected when one took into consideration the importance of the meeting, and the ideal weather prevailing.

Among others present we noticed Messrs. D. J. McPherson, Angus Kennedy, Peter Chisholm, D. H. Dewar, Mal. McKee, John Murphy, John McCulloch, W. W. Dean, C. Dadey, D. A. McDowell, Geo. R. MacDonald, Wm. Irvine, D. D. Macdonell, A. N. McDowell, J. W. MacLeod, John A. McDonald, Ed. J. MacDonald, S. A. Kennedy.

In his opening remarks the chairman said that among other matters that had engaged the attention of the directors during the past year were the ever increasing losses they were called upon to cover and which would be food for consideration for members generally as something decisive had to be done. Further deep consideration would be given the subject by the incoming Board of Directors with a view of arriving at a favorable conclusion.

The auditors' report presented by Mr. Angus Kennedy, showed that the Company began the year 1929, with a cash balance of \$27,374.78 and during the year collected \$33,408.58 as payments on policies; township of Lochiel debentures \$2360.36; interest from bank, Victory Bonds and township of Lochiel, \$1135.77; received from Prescott Mutual for losses \$3110.00 making total receipts of \$67,339.69.

Working expenses were commission \$2171.55; losses \$37,250.76; adjusting losses \$512.90; rebates \$356.37; salaries \$1354.70; printing, postage and stationery \$278.84; travelling expenses \$131.25; taxes, Provincial and Federal \$492.04; premium on re-insurance \$3702.69; Sundries \$190.50; legal expenses \$422.55, balance at credit, Dec. 31st, 1929, \$20,475.63.

The assets are cash in bank less outstanding cheques, \$20,267.48. In hand office, \$208.35, Victory Bonds \$5000.00, Township of Lochiel Debentures, \$4541.31; Re-insurance loss \$1000.00, residue of premium notes \$215,862.87. Total \$246,879.81.

The insurance in force is \$10,136,100.00.

The open meeting was presided over by Mr. D.J. McPherson. The retiring directors Messrs. W. J. McGregor and Wm. Irvine, were on motion, re-elected as were the auditors Messrs. J. A. McDowell and Angus Kennedy.

Opening of Parliament Gorgeous Spectacle

(By R. J. Deachman)

The Day of Days usually presages a storm—not so this year. On the Opening Day of Parliament, the stern sway of winter gave place to the gentler rule of spring, the sun shone, the snows melted, the hills of the Gathian whirled back to the city that sometime spring was coming—sometime, but not yet! The Members assembled with all the friskiness of convicts out on reprieve. There will be an election but when? Will this be the last Session before—before the day of judgment?

That is the great question—a burning question on the minds and hearts of all M.P.'s. Truth to tell, duty calls them, but memory whispers they may not always answer to the call of the Opening of Parliament—an election has its casualty list—the Members live forever in the shadow of the end.

THE OPENING

The scene at the Opening is familiar. Everyone is anxious to see it once. There is a stately formality about the whole procedure. It is a picture which lingers readily on the retina of the eye. Once seen you can easily recall the course of events.

An impish devil bids me wonder how the scene would look if everything was reversed. Suppose we lived in a land where the seeds of the apples grew on the outside, where the big end of the pear was at the stem, where grapes grew in the ground and potatoes in the air, where baseballs were square instead of round and everything conceivable was reversed; then we might have an Opening of Parliament with Mr. King leading the Progressive, Robert Gardiner and Agnes McPhail in charge of the "Tory" hosts, Richard Bennett a swashbuckling soldier of fortune in tation at the head of the Labour Party, Mr. Heaps as Prime Minister and

(Continued on page 8)

Of Interest to Farmers

PROPOSED DAIRY REFORMS IN ONTARIO

The following important decisions were reached at the second annual meeting of the Ontario Federated Dairy Associations, held in the Parliament Buildings, Toronto, Ont., Feb. 13, 1930. Those in attendance were representatives from the Dairymen's Associations of Eastern and Western Ontario, dairy cattle breeders' associations, Creamerymen's and Cheese-makers' Associations, Milk Producers' Associations, milk distributors and others. Mr. Frank Hens, of London, Ont., presided, with G. H. Barr, Toronto, as secretary.

The government will be asked to increase the period of 10 days to 30 days during which milk and cream rejected by one factory, on account of its quality, cannot be purchased by another factory. This action was recommended by the Central Ontario Cheese-makers' Association.

It was decided not to recommend that hereafter cheese-makers, before being allowed to take charge of a factory, shall have had three years' experience in a cheese factory and a pass dairy school course, until the Cheese-makers' Association of Eastern Ontario, representing over half of the cheese-makers of the province, has made its recommendations.

The association reaffirmed its stand in favor of the compulsory pasteurization of milk and cream, including cream used in the manufacture of creamery butter.

A change in the basis of payment for cream, according to grade, was favored, it being understood that the recommendation would be further considered by the Creamerymen's Association. At present the premium paid for special cream over first grade is one cent. It was advocated that the premium should be made 2 cts. The present premium paid for first grade cream over second grade is 3 cts. It was recommended that the premium should be increased to 4 cts.

It was shown that considerable quantities of milk advertised as Jersey, Guernsey, Holstein and Ayrshire milk, is diluted so seriously as to represent, in some cases, a public fraud. It was decided to recommend that "no person shall be allowed to use the name of any breed of cattle on any label, bottle, package, or vessel containing milk, or any vehicle delivering milk, unless such milk is actually produced from a pure-bred cow, or cows, or a percentage not exceeding 10% of representative grade cows of the breed mentioned."

The Ontario Milk Producers' Association favored the enactment of such legislation as will make compulsory the payment for all fluid milk and sweet cream sold to distributors in cities, towns, and villages in Ontario on butterfat basis, such legislation not to come into effect until the Department is in a position to provide the necessary inspection of the test to safeguard the interests of producers. This recommendation was endorsed.

The Ontario Milk Producers' Association advocated the compulsory pasteurization of all milk and cream sold for human consumption in cities, towns, and incorporated villages in Ontario, with a population of 1,000 or over, exclusive of certified milk. The resolution was favored, except that the last part was deleted and made to read "in such municipalities in the Province of Ontario as may be ordered by the Minister of Agriculture on recommendation of the Minister of Health."

SEASONABLE COST OF MILK PRODUCTION

The Dominion Experimental Farm at Nappan, Nova Scotia, has been keeping records on the feed cost of milk production for each week since 1924. In this way it has been possible to obtain data on the cost at different seasons of the year and under different feeding conditions. The feasibility of winter dairying is a problem for each individual farmer to solve, as it is governed by many factors, too numerous to be dealt with in a short article such as this.

Data collected at this Farm show that the profit over feed cost at the present time is greater during the pasture season than it was a few years ago. This is due chiefly to the stabilizing of prices of butter and butterfat. For example, in 1924 the spread between summer and winter prices received by this Farm for butterfat was 12 cents, while the average yearly price was 37.4 cents. In 1929 the spread was 6 cents and the average price received was 42.75 cents. The spread has, therefore, been reduced by half and the price increased by 5.35 cents per pound in six years.

The six-year average feed costs per 100 pounds of milk as recorded from the Guernsey herd for the different seasons of the year are as follows:—Stabling period, (November to May inclusive), \$1.84; pasture period, (June to October inclusive), \$1.30. The average per cent fat was 5.3, making the cost per pound butterfat 34.7 cents and 24.5 cents for each period respectively. The average returns per pound for the stabling period were 41.4 cents and for the pasture period 38.3 cents, leaving a profit over feed cost of 6.7 cents and 13.8 cents respectively.

In 1929 the cost for the stabling period was \$1.87 per 100 pounds of milk and 36 cents per pound butterfat. The returns were 43.7 cents per pound butterfat, leaving a profit of 7.7 cents. During the pasture period, the cost of milk was 37 cents and of butterfat 18.7 cents. The price received was 41.4 cents, leaving a profit over feed cost of 22.7 cents.

This indicates the value of good pasturage in reducing the feed cost of milk production and enabling the dairyman to realize a profit over and above his labour, overhead and feed charges. The three factors that will have the greatest influence in reducing the feed cost of milk production to a minimum are:

First: The development of high producing herds, which is possible only through the use of purebred sires from high producing ancestry.

Second: A pasture improvement program, properly conducted, that will ensure a plentiful supply of succulent feed throughout the entire pasture period, the opportune period for cheap production due

to low cost of feeds.

Third: The production of a greater amount of suitable home grown roughages and grains in Eastern Canada to reduce the feed account and lower the cost of milk production during the winter months.—S. A. Hilton.

SWEDE TURNIPS AS A CASH CROP

Yes, we use a lot of turnips on our dining cars and in our big hotels, and I am very fond of them myself, but this is a regulation to me," said Mr. Young, of the Canadian National Railways, while visiting one of the O.A.C. laboratories with President Christie a few days ago, and he sampled some of the freshly cooked turnips for himself.

"Indeed I thought I knew turnips but I certainly did not know that the delicious kind we serve on our dining car and hotel tables are of the same class as those commonly fed to cattle; and I did not know there were so many different varieties of turnips, nor that there was such a distinct difference in flavor and texture as you are discovering here."

Then in response to President Christie's request, the crops investigator in charge proceeded to give Mr. Young some facts about varieties of Swede turnips, and about the field tests that come before the cooking tests each season, and about the wide difference between different varieties in regard to yield, outward appearance, and inward quality including texture, color, flavor, etc.

"In general," he said, "the globe-shaped varieties are preferable to those of others shapes, but we have a good many varieties of globe-shaped turnips with considerable difference in yield, smoothness, color and table quality. Gradually, as our investigations continue we are narrowing down to just two or three varieties which we can recommend most highly to farmers who are growing turnips as a cash crop. Two of the very best are Canadian Gem and Perfect Model. Both of these produce nice, smooth, globeshaped roots with purple color above the ground and creamy color underneath. Both have rather narrow necks which leave only a small cut surface when the tops are taken off. Indeed, the two varieties are so much alike in outward appearance that we could scarcely distinguish between them, but in a five-year test, the Perfect Model gave an average yield of about two tons per acre more than the Canadian Gem, as well as having somewhat superior table quality. Quite a lot of varieties have been under field test for a number of years, but table quality tests have been made only during the past four years.

"Our general conclusion is that we in Ontario must do about the same in regard to varieties of turnips as we are doing in varieties of potatoes that is, we must limit ourselves to a very few varieties, and these must be of the same general type in order that we may furnish large quantities of uniform roots to the buyers. A smooth, round purple-top turnip of medium size and crisp tender quality is what the cash market calls for, but of course large yield per acre is also important from the farmer's viewpoint."

TO DESTROY LICE ON CATTLE

LICE on cattle may be destroyed by almost any kind of oil or grease that does not irritate the skin of the animal, or by spraying the cattle and stalls.

The presence of lice is usually first indicated by the animals licking themselves. The long winter coat of hair makes an ideal condition for the development of lice, which may become very annoying to cattle that are closely housed in winter.

The long hair and licking, however, may be the result of a damp, poorly ventilated barn. A careful examination of the neck close to the head and about the ears, and of the escutcheon and about the tail will reveal the lice, if any are present.

Any of the following oils and combinations will prove satisfactory in the control of lice on cattle: one-half pint of kerosene oil thoroughly mixed with one pound of lard or cottonseed oil; crude oil alone; linseed oil alone; low-grade neutral mineral oil. These oils should be applied with a stiff brush or cloth and rubbed well into the hair.

Sprays applied to both cattle and stalls and repeated in 10 days are even more satisfactory than oils. Spraying should be done on warm days. Oils blister in hot sunshine. Dips or emulsions of oil and soap in water may be used.

There are three species of lice commonly found on cattle. They are the short nosed blue louse, the long nosed blue louse and the red louse. The blue species are sucking insects and may do considerable damage to the animals if permitted to become numerous. The red louse is not a sucking insect and probably lives mostly on waste material from the skin and hair. However, it may become very annoying.

COMBATTING FIRES

A Western Ontario farmer in commenting on the number of barn fires caused by lanterns upsetting or exploding, suggests a remedy which sounds practicable. The base of the lantern is stuffed with cotton batting until completely filled. A small hollow is then made with the finger to allow the wick to fit in it. The lantern is then filled to fit in it. The lantern is then filled with oil and the surplus fluid drained off. The wick will take the oil from the saturated batting as needed and this method undoubtedly precludes any possibility of the troublesome fluid spilling.

RADIO ANNOUNCEMENT

Three-year-old Nancy's father had installed a new radio. Nancy listened with rapt attention to everything: music, speeches, and station announcements.

That night she knelt to say her "Now I lay me." At the end she paused a moment, and then said: "Tomorrow night at this time there will be another prayer." —Moose Jaw Times.

DEEP SEA SALVAGE

Operations on the Open Sea Always Extremely Difficult, Says Writer.

The attempt to locate the wreck of the P. & O. liner Egypt, now once more suspended, has been an object lesson in the extreme difficulty of such operations on the open sea, says an article in the London Times.

The Genoese divers who undertook this tremendous task were accustomed to working in the Mediterranean, within sight of land, in sheltered and tideless waters, unhampered by abnormally strong currents.

The divers had proved that their new diving apparatus solved the problem of lowering human beings to great depths in the sea, where they could spend hours at a time without evil physical effects. "Compression disease" or "bends"—the bugbear of the old-fashioned diver in his rubber suit—was for them a thing of the past.

If the depth of water in which the Egypt sank had been the only difficulty, they might have counted on rapid and easy success, such as attended their first efforts outside the Mediterranean (but near land) on the wreck of the Elizabethville last year. But they had no experience of the extremely difficult conditions which prevail off Ushant; and it was only to be expected that their first season there would be spent in the painful acquisition of this experience.

In tackling the Egypt, the Italian divers attacked their adversary, the sea, at the strongest point of its defences. No more difficult task could have been found for them. They chose it deliberately, with the desire to test their methods against the most formidable obstacles. In the first week of June, 1929, two little ships boldly put out from Brest, and, defying the powers of the stormiest ocean in the world, on the fringes of its most dangerous piece of coast, began to probe the depths of the Atlantic in the confident hope of dragging forth one of its secrets.

The Atlantic for a time suffered their impudence; then it slowly gathered its forces and, by the pressure of unrelenting tides, by every trick of changing weather, sudden squall, fog, and blinding rain, thwarted the adventurers again and again.

The finding of the wreck of the Egypt is an operation possibly more difficult than the salvage of her hull. Once the wreck is found, work is based on known data, and mechanical remedies can be devised for mechanical difficulties. But the search is based on data, all of which are more or less uncertain and inaccurate.

Electrical gear exists (and was tried in a hastily constructed form this summer) which will indicate with fair certainty the neighborhood of the wreck, but the only way to make certain of its position is to establish mechanical contact with it. For this the drag is used. Dragging is simple and effective on a smooth bottom, though in great depths and strong currents only a fraction of the drag is really effective. The charts of the sea bed off Ushant indicated smooth sand and shells; in practice, points of rock, some standing 10 to 15 yards high, were found.

These points would be missed in sounding with the lead; but if the reader will imagine two airships trying to drag a slack cable on the ground between them, not across a level, alldrome, but across Central London, he will realize without too much exaggeration what the Rostro and Artiglio had to contend with.

To get the diver down to a given point it was necessary to moor the ship to three or four buoys, placing her as it were upstream and holding her there. Even then her position would not be correct for long. To place or move four buoys with three anchors took half a day. Even if only one buoy were to be placed, and the ship allowed to swing to it, the current created a "time factor" which had to be reckoned with.

When the diver Franceschi made his remarkable descent of an hour and a half to a depth of something like 70 fathoms, in the attempt to identify a supposed wreck, he was swept round in a semi-circle for 300 yards. He saw nothing but rocks, but he may have passed close to the Egypt without knowing it, as he could only see for eight or ten yards. If the diver misses the wreck by a dozen yards he may never see it, and it is exceedingly difficult to place him within fifty yards of a given spot.

Whether the Egypt, once found can be made to give up her treasure nobody can say. There has, of course, never been any question of raising the ship herself, or any substantial part of her; the single task of entering her strong-room will be quite enough. But the possibilities of the deep-water diving gear have moved at least one expert, who was in charge of the salvage operations on the Laurentic, to reverse his earlier opinion and declare that work which he previously believed impossible can now be undertaken with a prospect of success.

Progress In Africa.

In Uganda there is everywhere a demand for education, even among raw tribes, and this facilitates the starting of out-schools, and the believers are zealous to read. In many places the natives will build a school, collect the teacher's wage, and send into the Mission Station begging for a teacher. This brings with it a great opportunity. In the Congo, the value of reading has yet to be appreciated, and the desire to be taught to read is looked upon by the ordinary native as an art for little boys to acquire, and the spread of the Gospel is hindered. The work in all stations will be strengthened by the completion of Mr. Norman Grubb's translation of the New Testament.

Spoon Capacity.

A teaspoon holds one-third as much as a tablespoon, which holds 48 drops.

HORSES IN FRANCE.

It Is Estimated That There Are Approximately 3,200,000.

The automobile is not replacing the horse in France, an official survey reveals. The total number of horses in France this year is estimated to be nearly the same as in 1913, when the automobile was not a serious menace to horsemanship.

The Government survey shows that in 1913 there were approximately 3,200,000 horses in France. During the war millions of them were killed in action while many were eaten for food.

The years following the war looked dark and it seemed for some time that the fields of France would no longer see any horses. It was thought only the rich could afford a horse as a riding mount while the few left over would be sought by the museums.

But the farmers of France have staged a great comeback. They refused to introduce tractors and instead started breeding new herds of horses. As a result France is now well furnished with horsemanship. It is also stated the quality is much better, and that more horses are butchered at an earlier age because the public demands more tender meat. Horse flesh still remains a popular meat in France and special butcher shops proudly bear great metal horses' heads over their doors.

That France intends to continue increasing the number of her horses is evident from last year's export and import figures. France imported 17,000 horses and exported only 7,372.

GOOD SWIMMERS.

Squirrels Are Quite at Home In the Water.

One does not think of squirrels as swimmers, yet they are quite at home in the water and have been known to swim quite considerable distances at one time and another. Of course, there is hardly an animal in existence that cannot swim if it is thrown into the water and left to its own devices, but there are plenty of animals that would not enter the water of their own accord. The squirrel is not one of these. If its destination lies across water—in he goes!

As a matter of fact squirrels have often been seen swimming across large rivers. Spectators who have seen these gallant little swimmers say that they start off with their busy tails held clear of the water, but by the time they have gone half way across their tails are dragging in the water, giving the squirrels the appearance of rats. The strange part about it is that they seem to have a peculiar sense of direction. If taken in a boat they know exactly when the boat swerves from the required direction, and have been known to promptly jump overboard and finish their journey by swimming.

Of course, the squirrel really belongs to the rat family, so perhaps its swimming capabilities are not so strange after all, for rats are well known as good swimmers, preferring to live near water than away from it.

WOMAN SUFFRAGE IN JAPAN.

Organization Started Five Years Ago Now Has 1,000 Members.

The Woman's Suffrage League of Japan observed the fifth anniversary of its founding recently. Its original membership was less than 100, but has now grown to more than 1,000. The organization is entering a period of more rapid growth than has been experienced at any time in the past due to the increased public support.

The league was formed by a group of women who had the assistance of politicians encouraged by the movement which resulted in the passing of the universal manhood suffrage law in Japan in 1925. At first, women of the middle and upper classes would not associate themselves with the league, but this early prejudice shows signs of giving away before the increasing propaganda in favor of votes for women.

They expect that within five or six years the woman's suffrage movement in Japan will have become quite as active as was that of manhood suffrage in the years immediately preceding its granting.

Acquire Ancient Altar.

A Romanesque altar throne of pink marble, recovered from centuries of oblivion, has been given to the Pennsylvania Museum of Art at Philadelphia. It was found in a mound of debris behind the apse of the church at St. Genis des Fontaines, France. Francis H. Taylor, the curator of medieval art at the museum, said the throne served as the seat of the abbot of the monastery or was reserved for the special visits of the Bishop of Urgel and Vichy, in whose diocese the abbey was then situated. The style of the throne goes back far beyond medieval days to the Roman Empire. Episcopal or bishops' thrones to-day are derived from this source, the most ancient example being the one in St. Peter's in Rome.

Modern Blackboards.

Blackboards of translucent ground glass lighted from behind are proposed as a substitute for the usual black surface familiar to every school child. The old type of blackboard is difficult to illuminate so that all the room can see, but the ground glass, electrically lighted from the rear, allows everything chalked upon it to be seen from all parts of the room, even when a combination of daylight and artificial illumination is being used.

Can Travel by Train 7,000 Miles.

It is possible to travel by train right across Europe and Asia, from Calais to Vladivostok, a distance of 7,000 miles.

Seals' Eyesight.

Out of the water, seals have poor eyesight, a fact which aids greatly the work of the sealskin gatherers.

Attracting People To Glengarry Stores

Have you ever watched some of our Glengarry citizens go riding away to do their shopping? Have you ever watched them come riding back, loaded up with supplies? Have you ever, while you watched, wondered why they passed up your stores right here in Glengarry.

Yes, we've watched. And we've wondered and we've felt badly about the fact that these good people of Glengarry chose to shop outside of Glengarry.

It isn't that you merchants of Glengarry don't offer shopping means just as good as those of the stores in the nearby bigger towns. No, that's not all the reason. Your merchandise is just as good. Your service, too, is every bit as good. Maybe better.

One reason is that the nearby towns do a better job of attracting some of Glengarry citizens to their stores.

Your job, then, you merchants of Glengarry is to do some attracting of your own.

Puzzled wondering won't do it. Neither will mere talk. But advertising will. Not only your own advertising. But the advertising of the manufacturers whose goods you sell, as well.

Your immediate job, as you can well see, is to get into your local, home newspaper the advertising aid of the manufacturers whose goods are on your shelves. And you can help get this aid easily enough.

After all, merchandise can be sold only in ratio to the amount of selling effort expended. Advertising is selling effort. It performs most of the functions of selling.

One of these days, maybe today, you'll be visited by the salesman of the manufacturers whose goods you stock. Whenever they come, interest them in Glengarry. Interest them so that they stay interested. Interest them so they'll want to interest their sales managers.

Once you've injected this interest into the salesmen, it will spread. And spreading it will prove extremely helpful in bringing into your local, home newspaper the advertising support of the manufacturers whose interest it is that you sell more of their goods.

Once you've got this advertising support, you'll have a decided advantage in attracting people to Glengarry stores.

You need the advertising aid of the manufacturers whose goods you stock—urge the salesmen to recommend your local home newspaper.

Of Interest to Women

TAKES HONOR QUIETLY

(Isabel Armstrong written for the Canadian Press)

With the recent appointment of Mrs. Norman F. Wilson, of Ottawa, a question of Dominion-wide interest, "who will be the first woman senator in Canada?" has been settled. The Upper Chamber now has a pioneer woman member as well as the House of Commons.

Shunning publicity, Mrs. Wilson spent very quietly in her own home at 192 Daly avenue the day following the conferring of the signal honor by the Government.

Born into a political atmosphere and associated all her life with public affairs, she is well adapted by training for the position which has sought her. While she took no part in the suffrage for women movement when the vote did come she applied herself earnestly and conscientiously to the discharge of the duties of citizenship and quickly was singled out for leadership.

Busy with other interests, she did not identify herself with the campaign for the recognition of Canadian women as "persons" entitled to seats in the Senate. Nevertheless she is the first to enjoy the fruits and responsibilities of these efforts and those who know her best are assured she will devote herself faithfully and with marked ability to solving the problems which confront her in her new office.

Mrs. Wilson has a husband and rather heavy family responsibilities. Mr. Wilson is a former member of the House of Commons for Russell county. There are eight children, ranging in ages from a charming debutante daughter of last season, Miss Olive, to a four-year-old tot, little Anne Margaret. Between are three girls and three boys, Janet, Cairine, and Norma, and Angus, Robert and Ralph.

The new woman senator looks amazingly young to be the mother of a family starting to be grown up—old enough for senatorial honors, but still on the sunny side of forty.

Above the average height, she has dark hair and very deep blue eyes, one of her striking features. Fine figure and carriage and ease of movement bespeak good health and plenty of exercise, and she is always dressed fittingly and with distinction from the tip of her well-chosen shoes to the top of her becoming hat.

The question of dress raises the point, "what will she wear for the opening of Parliament on Thursday?" The rule for ladies on the floor of the Senate and in the dress gallery is evening dress. But the senators themselves appear in business togs, some in regulation morning clothes, but more in less formal attire. With her appointment to the Senate, Mrs. Wilson becomes a part of the business of the Senate, even on the festive opening day. What she will wear will be eminently correct. It will make history and precedent, and the chances are strong that it will be in harmony with the attire of her honorable fellow members of the Senate.

As has been widely stated in the press in the past few days, Mrs. Wilson is the daughter of the late Hon. Senator Robert MacKay, of Montreal, who was a devout Liberal of the Gladstone and Laurier schools. The little daughter who was to grow up to be Canada's—and the Empire's—first woman senator was an apt pupil. From her father also she inherited a marked aptitude for business, which manifests itself not only in the administration of her own household but in wider affairs. Had she been otherwise placed in life and not married so young, she would have been entirely capable of carving out for herself a very successful business career.

SPEAKS FRENCH WELL

With education in schools, she has enjoyed the advantages of wide travel. She speaks French fluently, a marked asset for an English-speaking member of the Parliament of Canada in either upper or lower House.

She is also a pleasing public speaker, especially happy in such gracious association as extending a welcome or moving a vote of thanks. She will bring into the Senate of Canada the feminine and hostess touch.

It is an interesting coincidence that her appointment came on the fifteenth of February, eight years and a day from the date she founded the Ottawa Women's Liberal Association. Previous to that she was associated with the Eastern Ontario Liberal Association, for a time in the role of joint president. Later she took an active part in launching the National Federation of Liberal Women of Canada and is the honorary president as well as Chairman of the administration committee.

She is a member of St. Andrew's Presbyterian Church and associated with its activities. A past president of the Ottawa Women's Canadian Club, she has also been interested in a practical way in the Young Women's Christian Association and various other organizations. With her husband she follows with keen interest hockey and other sports. Considering the social demands made upon her, every minute must be organized with highest efficiency.

HOW TO HANDLE YOUR CLOCK

With proper care the life of the ordinary clock can be extended indefinitely. It is not generally realized that the position of the clock is an important consideration. If it stands on a mantle piece, table or other base, care must be taken that the support be firm and free from vibration. In many modern city houses vibrations can be attributed to the passing of trains, by heavy traffic or by machinery in the basements of buildings. There is often a certain position on the walls which is especially subject to such vibrations. In selecting a position for a valuable clock, it will be well to consult one's jeweller to insure the best results.

When a clock is set up it should be as free as possible from any disturbance. In the regular cleaning of the room, care should be taken not to disturb the clock by knocking it or jarring it in any way. A careless housemaid may move the clock, so that that it will be thrown slightly out of balance, with unfortunate results to its time-

keeping qualities. A clock should be wound slowly at regular intervals. In inserting the key to wind it care should be taken not to jar the clock or move it however slightly from its accustomed position. It is a good plan to have all the clocks in one's home examined at regular intervals by a competent clock maker, who will clean them when necessary and anticipate a possible breakage. Most clock owners allow their timepieces to run along for years without the slightest attention, until they actually break down from wear and tear. With proper attention a good, modern clock should last for years, and become a valued and dependable heirloom.

KEEPING SANDWICHES FRESH AND DAINTY

Countless hostesses, who have trumped their partner's ace as a result of worrying about making sandwiches for their guests, will welcome a new development that promises to solve many a sandwich problem and improve many a bridge score.

A scientifically devised moist air compartment for the electric refrigerator now makes it possible for the hostess to prepare her sandwiches early in the day, at her convenience. No longer is it necessary for her to lose out on a number of bridge hands while she stages a frenzied, last-minute, sandwich-making act before the guests are served.

Sandwiches, made ten or even fifteen hours or more before the party and then stored in the moist air compartment, or hydrator, remain as fresh and dainty as when prepared. The moisture-laden cold makes this possible.

Not only does the compartment hold forth special promise to the hostess as a highly valuable ally in her job of entertaining, but it bids fair to accomplish a highly useful task every other day of the week. It is capable of rehumidifying or freshening vegetables or of maintaining their original degree of freshness over indefinite periods of time.

Exhaustive tests conducted by home economics authorities have demonstrated that the hydrator, if located properly within the electric refrigerator, will restore even vegetables that have a decidedly wilted appearance to a surprising degree of freshness and crispness within a short period of time.

VEGETABLE COOKERY

(By BETTY BARCLAY)

There are three tips to remember when cooking vegetables. First, use as little water as possible. Second, do not cook too long. Third, take advantage of the fact that a little sugar, usually added while the vegetable is cooking, helps to bring out the full, natural flavor. Here are two recipes. Try them and see how the dishes please:

Baked Carrot Loaf

Scrap carrots, and boil until tender. Hash and to a pulp the pulp add two well-beaten eggs, a half teaspoon of salt, a quarter teaspoon of pepper, one tablespoon of sugar and a quarter cup of cream. Pour into a well-buttered mold. Stand this in a pan of hot water, and bake in a moderate oven until firm. Turn out on a hot platter and surround with peas, or serve with a white sauce.

Carrot and Pea Delight

Boil two cups of cubed carrots until tender. Combine with one cup of cooked peas. Make a sauce of three tablespoons flour, three tablespoons butter or fat, one and a half cup-milk, two teaspoons sugar, one-half teaspoon salt, and a dash of pepper. Add the cooked carrots and peas, reheat and serve very hot.

Jellied Cabbage Relish

One package lemon flavored gelatin, 1 cup boiling water, 3-4 cup cold water, 1-4 cup vinegar, 1 teaspoon salt, 1-4 teaspoon mustard, 1-4 teaspoon white pepper, 2 cups cabbage, finely shredded, 1 green pepper, chopped, 1 pimento, chopped.

Dissolve gelatin in boiling water. Add cold water, vinegar and seasonings. Chill. When slightly thickened, fold in vegetables, mixing lightly. Turn into individual molds, filling them half full. Chill until firm. Unmold. Serve as garnish or relish with meat. Makes 12 half molds.

Coffee Dessert With Caramel Sauce

One package coffee junket, 1 pint milk, 1-4 cup boiling water, 3 tablespoons sugar. Prepare coffee junket according to directions on package. Put sugar in iron frying pan, and stir constantly over fire until melted to a syrup of light brown color. Add water, and boil six minutes: cool before serving over ice cold junket.

Hollywood Salad (Individual Service)

Peel an orange, removing all white skin. Cut into 1-4-inch slices. Cover a plate with shredded lettuce and lay on 2 slices of orange. Cover this with 2 banana quarters which have previously been covered with lemon juice and rolled in finely ground nuts. Top with another slice of orange and garnish with mayonnaise and a maraschino Cherry.

Kiddies Delight

Three cups milk, 3 eggs, 4 tablespoons sugar, 1 teaspoon vanilla, 1-4 teaspoon salt, few grains nutmeg, Few grains cinnamon. Beat the eggs until very light. Add the sugar, salt, vanilla and spices; then the milk. Stir till the sugar is dissolved, then beat well. Serve cold.

BANANA WHIP

Prepare a lemon gelatine as directed, substituting two tablespoons of lemon juice for the same amount of water. Set aside to become cold. When starting to set, cut up into it one and one-half peeled bananas. Take egg-beater and beat until very light, then fold in one cup stiffly beaten cream. Put in icebox for a few hours; serve in sherbet glasses topped with whipped cream and coconut.

Health Service

of the
Canadian Medical Association

EARLY DISCOVERY MEANS EARLY RECOVERY

In the year 1798, Jenner announced his discovery that smallpox could be prevented by vaccination. Since that time, due to progress in our knowledge concerning the causes of disease and their manner of spread, other diseases have been added to the group which may be definitely prevented. That these diseases still occur is therefore not due to any lack of knowledge of the means for their prevention, but rather to a failure to use and apply this information.

There exist, unfortunately, many diseases which we do not know how to prevent, or which we are only able to control partially. The possibilities of prevention in this group are limited or do not exist, because we do not know how to proceed to avoid the occurrence of these diseases. The time will come when the veil of mystery which now shrouds them will be pierced by the bright light of science, so, in the meantime, they should be dealt with when they do occur by the best means at our disposal. In practically all cases, this implies proper treatment at the earliest possible moment. It is in the earliest stages of disease that medical science has the most to offer. At that time there is the best chance for cure. At that time, too, there is the greatest opportunity for the prevention of further damage or of the possibility of allowing the condition to become chronic.

A great deal has been done to control tuberculosis. This disease now takes as its toll only one-half of the number of lives sacrificed to it twenty-five years ago. Its ravages ebb and will be further reduced. If those who do contract the disease come under proper treatment in the earliest stages, there is every chance for their cure. Delay in securing treatment minimizes the chance for a complete recovery. Cancer, which takes an increasing number of lives each year, can be successfully treated in its earliest stages, when it is a local disease. Delay causes a generalized disease which cannot be cured. Diphtheria is a disease which can be prevented; if it does occur, it can be cured, providing treatment is given on the first day of the disease. Every serious case of heart disease had its beginning, and had the patient been treated in the earliest stages and instructed as to how to live, a long, useful life could usually have been secured.

In order to obtain early adequate treatment, the condition must be discovered and brought under treatment. Early signs or symptoms should not be considered lightly, but regarded as a kindly warning that attention is required.

Question concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.

SEA ELEPHANTS.

Rare Giant Seals Captured In Crates on Guadalupe.

Saved from the extinction which threatens their dwindling herd, four elephant seals, the only ones of their kind in captivity, were carried to the San Diego, Cal., Zoological Garden recently from the Mexican island of Guadalupe, 250 miles to the south. These are the northern elephant seals, known as "sea elephants." About 300 of them on Guadalupe Island are all that remain of the thousands that once flourished along the Pacific coast from San Francisco to the equator.

The United States Coast Guard, the San Diego Zoological Society, and the San Diego Natural History Museum combined in this expedition to save for posterity a breeding stock of the huge mammals, writes H. H. Dunn in Popular Science Monthly. Two bulls, one weighing 5,000 pounds and the other 3,000, with two cows of about 1,200 pounds each, were caught by the expedition. A larger bull was captured, but was lost in the surf when the bottom came out of the cage in which it was being transported to the ship. The weight of "the one that got away" was estimated at more than 7,000 pounds.

The Coast Guard tug Koka, one of two boats which took the expedition to Guadalupe Island, carried five large crates, built of heavy timber and covered with strong steel netting. These were knocked down so that they could be assembled quickly around the seals and floated ashore. It was found, however, that when a crate was assembled around an animal, it was difficult to place the bottom under the heavy beast. Thereafter, the crates were set up and the huge mammals decoyed or driven into them. Then metal tanks were attached to the sides and the crates were floated, elephant seals and all, out to the Coast Guard tug, each being guided by a longboat propelled by coast guardsmen. At shipside the tanks were removed and the crates were lifted by crane to the after deck.

Aboard ship sea water was pumped on the animals in continuous streams until the tug arrived in San Diego. There they were swung on to trucks which whisked them from the water front to a large pool in the zoo.

On Guadalupe Island the elephant seals were found to be extremely belligerent. The approach of a man was the signal for immediate opening of mouths, snarling and snapping. The animals, however, are so heavy and slow of movement on land that they were easily avoided. When it came to getting one of them into the crates, the quickest method was to slap the animal on the trunk with the hand or hat, when it would follow its tormentor slowly but persistently to the cage.

For All
KIDNEY DISORDERS take

The Advantage of "Purity"

Since Purity is a strong, rich flour with great expanding qualities, use 1 tablespoon less per cup if your cake recipe calls for ordinary pastry or soft wheat flour. If milk is called for, use half milk and half water (lukewarm) when using Purity Flour and your cakes will stay moist longer.

Every Bell Telephone is a Long Distance Station

Quicker Service—and cheaper than ever before

Long distance telephone service is constantly improving. Seventy per cent of long distance connections are now completed while the calling party holds the line.

In 1927 it took an average of 5.8 minutes to complete connection. In 1929 the average was 3.5 minutes per call and many calls, of course, are put through on the instant.

And with this greater speed there have been two reductions in long distance rates within the last year. Every Bell telephone is a long distance station today, making speech possible across the province or the world—more quickly—and at lower rates—than ever before.

ADVERTISEMENTS TELL YOU WHERE TO BUY, WHAT, WHEN AND HOW. READ THEM

OUTLINES HUGE CANADIAN PROGRAMME

In a vast programme of work from East to West of Canada, the Canadian Pacific Railway will expend more than \$50,000,000 in new equipment, new branch line construction and improvement to existing roadbed and equipment during 1930, according to announcement recently made by E. W. Beatty, chairman and president of the road.

Every phase of the company's activities will be covered, the president emphasised, and this great development will stimulate Canadian industry and provide employment for thousands of Canadian workmen.

Equipment either new or improved will be to an amount of \$14,500,000; improvement and extension of telegraph facilities will run to about \$3,000,000; Canadian Pacific hotels will benefit to the amount of \$3,500,000; the West will be given additional rail facilities to the amount of \$19,000,000; similar work in eastern Canada will total around \$7,500,000; and these expenditures will be in addition to the usual expenditures incurred every year totalling around \$9,250,000. This \$50,000,000 does not include large amounts for ocean steamships now building, nor for the work of the Colonization and Immigration Department of the railway which during 1930 will run close to the million dollar mark.

This impressive programme of growth and development is based on the conviction "that Canada will continue its steady and unhurried progress during the present year," held by the directors of the Canadian Pacific Railway.

COUNTY NEWS

MAXVILLE

Mrs. W. A. MacEwen had with her over the week end, her mother, Mrs. J. A. MacLeod, of Ottawa.

Miss Pearl Fraser, Mille Roches, spent the week end with her parents Mr. and Mrs. D. W. Fraser, Spring Street.

Alex. Duperron of the Bell Telephone Co., now operating at Chesterville spent several days at his home here during the week.

Her many friends will sympathize with Miss Gracie Rowe who is suffering from a severe attack of pneumonia.

According to notice received the dates for the Chautauqua in Maxville are given as May 3, 5, 6 and 7.

Miss Blanche Duperron, Montreal, is holidaying with her parents, Mr. and Mrs. D. Duperron, King George Hotel. William Davidson of Montreal, was in town over the week end visiting his sister, Mrs. G. W. Empey and Mr. Empey.

Miss Florence McKinnon, B.A., of the Carleton Place High School staff, was a Sunday guest with Maxville friends.

Misses Gladys McEwen and Isahoi McMillan spent Saturday in Ottawa.

While in town for a few hours on Tuesday, Mr. A. L. Smith, K. C. of Toronto, received a very cordial welcome from his old friends.

Extraordinary offerings in A bonds are being made by T. W. Munro. This is one of the results of the recent panic in the stock market. See his adv. this week.

At a recent meeting of the local branch of the W.C.T.U., Mrs. (Dr) McEwen was chosen president, Mrs. W. S. MacLean, treasurer and Miss Meta MacKerchar, secretary.

Miss Isahelle Dingwall, Ottawa, is spending a short holiday at her home here. Miss Morton also of that city spent the week end in town with her.

His many friends will be glad to know that Peter Stewart who was so seriously ill is once more able to be about. He expects to return to his duties shortly.

There was a large attendance at the moving picture demonstration given in the Orange Hall, on Friday, by the International Harvester Co., under the auspices of A. J. Fillion, local representative. It dwelt particularly with tractor operation.

Owing to the continued mild weather the hockey game that was to have been played here on Wednesday evening between Alexandria and the local team, was postponed.

Maxville citizens extend a cordial welcome to Mr. and Mrs. Jos. Armstrong who have arrived to take up residence in town. Mr. Armstrong having been recently appointed C.N.R. Agent at this point.

D. Duperron was in Ottawa on Sunday visiting his son, Master Willie who is a patient in the Civic Hospital, as the result of an accident he received some days ago while playing hockey. It necessitated an operation.

Quite a number from town attended the funeral of the late Arch. McDougald, (Banker) which took place from his residence, 4th Row, on Tuesday. Interment was in Maxville cemetery.

As a boniface, Donald of the King George is in a class by himself. Up to the minute is his motto. His latest improvement is the installation of a handsome globe light on the Car Street side of his caravansary—which is the best between Montreal and Ottawa.

Sudden illness prevented Rev. M. Saunders of the Baptist Church carrying out his preaching appointments on Sunday, when his people and the United Church congregation were to hold union services. In his absence Mrs. F. W. K. Harris spoke both morning and evening. Mr. Saunders many friends will be pleased to know that he is convalescing.

The Bijou road house in the north end is earning for itself a most unsavory reputation, not only on account of the multiplicity of its hangers on but also because the variety of activities is only exceeded by their moral depravity. Provincial authorities should take it in hand and clean up this cesspool.

The Mothers' Allowance Board for Glengarry met on Thursday, 20th inst., in the Orange Hall, here. The condition of the different beneficiaries was discussed and the report sent to the commission. The next meeting will be held the first week in April.

The Tennis Club fete advertised for March 6th has been postponed until the evening of the 13th.

Mrs. Silas Dousett, Cornwall, spent Tuesday evening in town. She received a very warm welcome.

During the week the local branch of the Banque Canadienne Nationale, underwent its annual inspection which was highly satisfactory.

DUNCAN COLEMAN

At his residence here, on Wednesday evening, our oldest citizen passed away, in the person of Duncan Coleman who had been ailing for some time. A more extended notice will appear next week.

SCOUT NEWS

The weekly scout meeting of the First Maxville Troop was held in the High School on Tuesday, February 25th. The Scoutmaster being absent the meeting was conducted by Assistant Scoutmaster Hugh Christie. The three Patrol Leaders attended the meeting and the three patrols were well represented. The absence of the Scoutmaster prevented many of the Scouts from passing their Second Class test.

During the meeting the Scouts indulged in the playing of a Scouting game, after which flag signalling was practised. The Scouts have almost finished their canvassing and they are very grateful for the hearty response given to them.

A.C.C. Corresponding Secretary.

W.M.S. MEETING

The regular meetings of the Women's Missionary Society of the United Church continue to grow in interest and attendance. The next meeting will be held Wednesday, March 5th, at 2 p.m., when Mrs. J. W. Weegar and Mrs. A. A. McEwen will deal with the subject of "New Aspirations." The superintendents of the different Mission Fields will give the latest news from the Missions.

Friday, 7th March, the International Day of Prayer will be observed when all the ladies of the community are asked to unite for prayer. This year is of special interest as a Korean girl, Miss Helen Kuis, has prepared the special programme. On Jan. 9th, 1920, the Dominion-wide Interdenominational Day of Prayer was instituted in Canada. The same was held in the United States under the Federated Women's Board of Foreign Missions. This has become world wide. Last year, on Feb. 15th, twenty-nine countries observed this special day for prayer using the same programme. Let us not forget this day, March 7th, at 2 p.m.

ST. ELMO

On Monday next the topic of discussion at "The Hall" will be "Township Schools." The discussion will be opened by Dr. Morrow in favor of said change and the objections to it will be opened by Robt MacKay. There will be free discussion and there should be a general attendance.

BRODIE

Mr. Leslie McKinnon spent the week end with Mr. Clarence McMillan, Lochiel.

Mr. Anthony Hines paid Vankleek Hill a business call on Saturday.

Mr. Wm. Rayson of Montreal is spending a few days with friends here.

The springlike weather has brought tobogganing to a close on all the local slides. Many of the young people express a desire for more cold weather with snow.

The death of Mr. Simon Sabourin, one of the younger citizens of Brodie, following an operation for appendicitis was very surprising and saddening to everybody. We extend to his parents and family our sincere sympathy in their bereavement.

TOLMIE'S CORNERS

Mr. Rupert of Finch, was a caller here on Monday.

Mr. Charles Blair motored through here on Monday en route to Moose Creek.

Dr. E. Pallette, Cornwall, made a number of calls in the vicinity on Friday.

Mr. A. B. Lonie spent Sunday at Mr. Boyd Johnson's.

Miss Chrissie McIntyre, Cornwall, recently spent several days with her parents, Mr. and Mrs. D. J. McIntyre.

Mr. J. D. McRae, Maxville, paid a few calls in this vicinity the middle of the week.

A number from here attended the Women's Institute meeting held on Saturday at Moose Creek. A large crowd was present and it proved profitable and entertaining.

MCDONALD'S GROVE

Miss Inez Benton spent the week end at her parental home.

Mr. Donald McLennan, Ottawa, was a guest over the week end with his parents, Mr. and Mrs. F. J. McLennan.

Mrs. H. Urquhart had as her guest on Saturday, Mrs. W. Morrison, Maxville.

Mr. Moses Renwick, Fournier, paid Grove friends a visit the latter part of the week.

After spending several days with Mrs. Ronald Campbell, Maxville, Miss Etta Cameron has returned home.

Mr. William Sutherland, Maxville Public School staff, motored to the Grove on Saturday and spent the week end with his uncle, Mr. Ronald Benton.

Mrs. Neil A. McLean entertained a number of young girls on Saturday afternoon in honor of the birthday of her daughter, Jean.

Mr. and Mrs. Dan McMillan were in Berwick on Saturday attending the funeral of her grandmother, the late Mrs. Baker.

APPLE HILL

Mr. and Mrs. John McCallum spent Sunday with Mr. and Mrs. Archie B. McDonald, Greenfield.

Mrs. P. R. Munro is spending a few days with friends in Cornwall.

Miss Mildred Wantzstoff of Ottawa is visiting her aunts, Mrs. Florence Laflamme and Mrs. Albert Artibee.

Mr. Donald McLennan and his daughter Miss Gertrude McLennan of Grants Corners spent Wednesday with Mrs. Alex. Fraser.

Mr. Lloyd Clingen recently spent a few days in Avonmore.

Miss Gladys Coulthart of Berwick spent the week end with Mrs. A. D. Munro.

Miss Eva Otto of Ottawa is the guest of her sister, Mrs. A. D. Clingen.

Mrs. Flora Parison of Cornwall, is spending a few days with Mrs. H. A. Legault.

Mr. Howard Coleman paid Montreal a business trip this week.

Mrs. D. H. McDonald is spending a few days with friends in Cornwall.

Mrs. D. J. McDermid and son, Mr. John McDermid, Glen Roy, were in town on Wednesday.

Messrs. W. E. McDermid and John Coleman were visitors to Maxville on Tuesday.

Mr. John D. McRae paid Ottawa a business trip on Tuesday.

Mr. John L. Graut is spending a few days in Montreal.

MACK'S CORNERS

Mrs. Harriet Campbell, Avonmore, spent a few days with her cousin, Mr. J. D. McLennan.

Miss Nora Cameron arrived home from Montreal last week.

Mrs. Neil A. McLeod and Miss Tena Cameron spent last Friday evening guests of Mrs. D. D. McKinnon, Dalkeith.

Mr. Rod. McDonald, St. Raphaels and his brother, Mr. Jas. McDonald, Redvers, Sask., were guests of Mr. and Mrs. R. A. McDougall last week.

We are glad to know that Mr. Neil McIntosh is doing nicely after his recent illness.

Mr. and Mrs. W. McMeekin, Brodie, were guests of Mr. J. N. McIntosh last week.

Mr. Jas. R. McKinnon, Vankleek Hill, spent Friday with friends here.

Miss May Campbell, Montreal, spent Friday with Miss Nora Cameron.

Mr. Angus McDonald, of St. Telephore, Que. visited Mr. R. A. McDougall, on Thursday.

GLEN SANDFIELD

Cow testing and stable cleaning is the order of the day.

Mr. George King, Montreal, spent Monday the guest of Mrs. Frank Bacon.

Mrs. Christena Cameron is this week visiting relatives in Montreal.

Rev. L. M. Somerville attended Presbytery Meeting in Cornwall recently.

Miss Mary MacKenzie returned home on Friday after spending a pleasant holiday with Montreal and Williams-town friends.

Mr. Gatien Bellefeuille is once again in our midst having spent several weeks in Kingston Dairy School.

Mrs. Neil McMillan was a week end guest of Vankleek Hill friends.

We extend sympathy to Mr. and Mrs. Sabourin, of Brodie, in the sudden death of their son, Simon which occurred in Montreal.

Mr. J. Johnson, Glen Robertson, is the guest of his daughter, Mrs. D. B. Macdonald.

CURRY HILL

Don't forget the Euchre in Bainsville, Monday evening, March 3rd, in aid of St. Lawrence Chapel.

Miss Marie Pigeon of Montreal, visited her parents over the week end.

Mrs. Wm. McGregor was the guest of Mrs. Colin McPherson, Bainsville, for a portion of last week.

Mr. Duncan Ross was a week end visitor of his sister, residing in Morrisburg.

Mrs. Lawrence Sullivan, after spending the past week with her sister in Montreal, has returned home.

The many friends of little Joseph Legros are glad to learn that he is home and doing nicely after having undergone an operation for appendicitis in the Hotel Dieu Hospital, Cornwall.

LOCHIEL

Mrs. W. J. McKinnon is visiting friends in Montreal this week.

In the passing away on Sunday evening of Miss Elizabeth (Betsy) McDonnell, this community loses its oldest and most venerable resident, she being in her 101st year. Her aged sister and other relatives have the sincere sympathy of their numerous friends. A more extended notice will appear in next issue.

Report of Police Dept.
Town of Alexandria

His Worship Mayor Laurin, Chairman Police Committee, Members Town Council, Town of Alexandria.

I have the honour to submit here with Annual Report hearing upon the duties performed by the Police Dept. during the year ending Dec. 31st, 1929.

I am pleased to report that our Town has been free from any serious classes of crime.

Police work has graduated from the bit and miss methods of a few years ago and today may be ranked as a profession.

The aid offered by science has been eagerly received by law enforcement officials so that the modern policeman has had to become trained in many different lines which were unheard of in the past. Criminals have also utilized scientific developments in their unceasing warfare against society and it is not now a case of outguessing them, the law officer must outstudy them.

The enactments and enforcement of law are therefore necessary to the well being and advancement of any community.

The man therefore who belittles the value of a police force or interferes with its propositions is either deliberately endangering the welfare of the community for his own personal gain or satisfaction or he is so mentally unfit to know what is for the good of the community that he ought to be placed where he cannot be a menace to himself and others.

It is not the sole aim of the police officials to apprehend criminals after they commit their crimes, the chief object is to prevent crime as far as is humanly possible.

Police business is one that requires efficiency, co-operation, and loyalty and real study.

A Police Force can only operate real efficiently though when every member is willing to submerge his own petty personal ends and work for the good of the entire department. The man who develops esprit de corps will find that it aids him personally. Co-operation is the keynote of successful policing co-operation and loyalty.

Co-operation between the Police forces of the various districts is a necessity in the warfare carried on by society against the criminals and I am happy to say that I have been given wonderful co-operation from the forces of the districts east and west.

I trust that the work performed by the department throughout the year will meet with your approval.

Thanking you one and all for the support and co-operation extended throughout the year.

I have the honour to be Gentlemen Your obedient servant,

M. CH. SEGER,
Chief Constable.

Alexandria, Ont., Jan. 10th, 1930

Man Dies Playing Bagpipes

As death kept upon Pipe Major George S. McLennan, of Aberdeen, Scotland, claimed to be the champion piper of the world, he played his own lament on the bagpipes. Feeling him self, as he said, "slippin' awa" he asked his elder son to play on the pipes. The boy did so, and the aged man then asked him to fill the pipes with wind and give them to him. With shaking hands the dying man fingered out the notes of the last lament. Death was fast approaching, and the notes became slower and slower, until they died away as the pipe major fell back on his pillow. At nine McLennan won a special medal for his playing in his first competition at Paisley. The following year he appeared before Queen Victoria, the first piper to appear before royalty since 1626, when Patrick Mor MacCrimmon played before Charles I. McLennan won more than 2,000 prizes in bagpipe competitions.

A New Series of Articles

—BY—

R. J. DEACHMAN.

Is the present government good or bad?

Have its policies been fruitful of progress or heedless of national needs?

What of the future? Have you watched declining wheat prices despite the strong statistical position? Are we headed for an all round lower price level with all the economic changes involved? What effect will this have upon Canadian conditions?

What about the financial crash in the United States? Will this carry a reflex movement into Canada?

How does our recent economic progress compare with other countries? Are we building on a firm foundation? Which road should we take in the conditions of today?

These questions will be discussed at an early date in a special series of articles written for this publication by R. J. Deachman of Ottawa.

These articles will help you in forming a reasonable conclusion as to present conditions and future prospects. Our readers will find them vitally interesting, thoroughly reliable and informative.

The man who foresees the future is the man who will be prepared to meet it. This series of articles will give you a clearer vision.

The series begins early in March. Look forward to them with anticipation. They will well repay your careful attention.

COUNTY NEWS

MARTINTOWN

Mrs. D. G. Keir is spending a couple of weeks with her daughters in Montreal.

Miss Lizzie Sandilands, Williams town, was a week end guest of Miss Kate Grant.

We regret that Mr. Ernest Ross, 7th Con., is a patient in the Cornwall General Hospital, and hope for his speedy recovery.

Friends of Mr. A. F. McIntosh will be sorry to learn that he is a patient in the Royal Victoria Hospital, Montreal and will hope that his recovery may be speedy.

The literary meeting of the Young People's Society will be held Friday evening, March 7th, when a debate, "Resolved that poverty rather than riches tends to develop character," will be presented. Every one is welcome to attend.

The funeral of the late Miss Annie Bouscours who passed away on Wednesday morning, after having been confined to her bed, for the past seven years, took place on Friday morning, from her late residence to St. Mary's Church and cemetery, Williamstown. We extend sympathy to the bereaved relatives.

The monthly meeting of the Women's Institute was held at the home of Mrs. James Largroix, on Thursday afternoon, with a good attendance. After the usual opening exercises, and the transaction of several items of business, roll call was responded to by recipes for hot supper dishes and many good suggestions were received. Mrs. T. R. Craig gave a paper on "How to avoid accidents and give first aid." Community singing was enjoyed until lunch was served by the hostess who was assisted by Mrs. James McDonald and Mrs. McMartin.

WILLIAMSTOWN

Mrs. Jos. Daoust and Miss E. McLeod left on Friday evening to visit relatives in Montreal. The latter returned on Monday.

We regret to hear that Mrs. A. Govan is indisposed. Her many friends hope for her speedy recovery.

His many friends are glad to see Capt. J. A. B. McLennan around again after his recent illness.

The W.M.S. Auxiliary of the Presbyterian Church will be held in the vestry on Friday afternoon, March 7th at 2 p.m. All the ladies are cordially invited to attend.

Mr. Donald McDougall, Glen Brook, who was ill with a severe cold is now convalescent.

We are glad to report that Miss Luella Dunlop who was ill for some time, suffering from a sore throat, is very much better.

Mrs. Donald McCrimmon and her daughter, Mrs. C. A. Cattaneach entertained at bridge and tea on Tuesday evening in honor of the former's niece, Miss McKenzie of Glen Sandfield. Cards were played at five tables. The prize winners were Miss Govan and Miss Grant. Dainty refreshments were

served by the hostesses assisted by Miss McKenzie and Mrs. Traves of Lancaster. All spent a very enjoyable evening.

We are sorry to hear that Dr. Tupper Macdonald has been confined to the house for some days suffering from a severe cold.

The Williamstown Branch of the Women's Institute were hostesses at a very enjoyable social evening on Thursday, 20th inst. Cards, music and dancing were the chief features of the evening. Cards were played at ten tables. There was a tie for the gentleman's prize, between Mr. Turner and Mr. Daoust. They played off and the latter won. The ladies prize was won by Miss Sandilands. Those who kindly furnished the music were Mr. W. J. C. Barrett, on the violin, Miss Gladys Munro and Miss Jennie McDonald, on the piano. Every one enjoyed the dancing. Refreshments were served by the members and a very sociable and pleasant time was closed by singing "Auld Lang Syne" and the "National Anthem."

The following is from a Butte Montana, paper:—At the annual meeting at the Silver Bow Club last night of the Montana section of the American Mining and Metallurgical Engineers, J. D. McKenzie of Helena, manager of the East Helena plant of the American Smelting and Refining company, was elected chairman. Other officers chosen were: M. H. Gidel, of Butte, vice chairman; Alex. M. McDonald, of Butte, re-elected secretary-treasurer; A. E. Wiggins of Great Falls, and Theodore Simons of Butte, members of the executive committee. Dr. F. A. Thomson, president of the Montana School of Mines, was elected delegate to the annual meeting of the society to be held in New York on Feb. 17th. F. A. Linforth, the retiring chairman, presided at the meeting which concluded with a luncheon in the dining room. The address of the evening was made by Dr. Curtis L. Wilson of the Montana School of Mines. His subject was "Research Study of Hard and Soft States of Metals." W. G. B. Barrett, a visitor in Butte and a geologist of wide experience, spoke on work and living conditions as he found them in field work in India.

Mr. Barrett referred to above is a son of Mrs. B. Barrett of this place.

LANCASTER

ALEXANDER J. McNAUGHTON
The death of Alexander J. McNaughton, eldest son of the late Wm. McNaughton of the 4th concession, Charlottetown, Glengarry Co., occurred in San Francisco, Calif., on Feb. 2nd, 1930, at the age of 69 years.

Mr. McNaughton received his education at the 4th concession school and at Williamstown High School and at an early age left for Chippewa Falls, Wis., and later on went to Chicago. For the past thirty-five years he has resided in San Francisco with the exception of about two years spent in Dawson City, Y. T., going there in '98. He visited his home a number of times the last visit being in 1908.

The surviving members of the family are: Mrs. J. D. McLennan of Cornwall, Mr. R. Proctor left for Toronto on Monday.

Messrs. Roddie and James McDonald were in Dalkeith on Friday.

Miss Mary B. McDonald, is visiting her father, Mr. Finlay S. McDonald.

Miss Katherine McDougall spent the week end at Glen Nevis the guest of Mr. and Mrs. Dargall McDougall.

MRS. ARCHIE C. McDONALD
We regret to announce the death at the Hotel Dieu Hospital, Cornwall on Wednesday, the 19th February of Mary McDougall, wife of the late Archie (Captain) McDonald, 33-6th Lancaster, who predeceased her three years ago. The late Mrs. McDonald who had attained the age of 80 years, with her husband moved to St. Raphaels some ten years ago. She was the eldest daughter of the late Alex. J. McDougall, 37-5th Lancaster and leaves to mourn her loss three brothers, James, Markstay, Ont.; Dan A., Vancouver, B. C. and Finlay S., of this place.

The large and representative attendance at the funeral, on Friday to St. Raphaels Church and cemetery, was evidence of the high esteem held for the deceased by a wide circle of friends. Rev. D. A. Campbell, P.P., sang the Requiem Mass.

Messrs. Angus S. McDonald, D. A. McRae, John P. McDonald, J. B. Andre, Angus A. J. McDougall, and Douglas A. McDonald were pallbearers.

Mass offerings were received from Mr. and Mrs. T. S. Montgomery, Mr. and Mrs. John Alex. McDougall, Mrs. Alex. J. McDougall and family; Mr. and Mrs. Angus McDonald, Margaret McDonald, Flora S. McDonald, Mary B. McDonald, Mr. and Mrs. Alex. F. McDonald, Detroit, Mr. and Mrs. Archie B. McDonald and family.

wall, Mrs. D. McDermid, Stratford, Mrs. S. W. Christie, Martintown, James D. McNaughton, Windsor, J. Allan F. McNaughton, Toronto, and Dr. W. B. McNaughton, Arnprior.

Two former Glengarry schoolmates, John McArthur and Duncan McArthur, both of Oakland, Calif., brothers of Mrs. R. G. Scott, King's Road, and Jas. McArthur, Williamstown, were present at the funeral in San Francisco.

GLEN NORMAN

Mrs. Donald A. McDonald and son Joseph McDonald, of North Lancaster spent Wednesday of last week with Mrs. J. H. McKinnon and family.

Mr. Chas. McDougall spent a few days recently with friends in the 5th Lancaster and at St. Raphaels.

Mr. and Mrs. Leo Bonné, of Montreal, are at present guests of her parents Mr. and Mrs. S. Decosse.

Miss Bessie McKinnon visited her aunt, Mrs. J. D. McRae, St. Raphaels, on Thursday last.

der and said, "Sandy run home now." Some of these fathers gave me a kindly smile as I ate my bread and perhaps played with the young puppy, teasing him with my bare feet. Sometimes I asked father and mother about our creeds, but I did not get as satisfactory an answer as I would have liked. I suppose they thought that I could not understand about creeds and I wondered why people put so much emphasis on creeds; but as I grew older I found that many a man had changed his creed, even the Apostle Paul had to scrap his creed and as a boy I believed that love will replace most of our creeds for there has been a lot of discord on account of creeds. There is many a man quarrelling over creeds when he should be practising love. So I say teach love to God and love to our fellow men, to the boys and girls and the creeds will take care of themselves and, when a boy I believe I should have had more respect for my neighbors' religion for we all believe in the same God.

Obituaries

MR. WILLIAM L. SHAW

At Detroit, Mich., on Saturday, Feb. 22nd, 1930, following a protracted illness, the death occurred of William L. Shaw, son of Mr. John R. Shaw and his wife, Annie Kerr, aged 26 years. The late Mr. Shaw was a native of Alexandria, removing with his parents to Ottawa and eight years ago went to Detroit. While at the Capital he attended the Collegiate Institute and when he fell ill was in his final year at the Detroit Law School. He also worked part time with the Detroit and Cleveland Navigation Company and was held in the highest regard by all who knew him.

In addition to his parents, he is survived by three brothers, Peter, of Detroit; Stuart, of Ottawa, Bernard, a student at the China Mission College, Toronto, and two sisters, Ruby Shaw of Detroit, and Mrs. J. C. Mercer, of Piquette, Sask.

The remains arrived here Tuesday afternoon, accompanied by his father and two brothers, Peter and Stuart, and conveyed to the residence of his aunt, Mrs. John McLeister, St. Paul Street, from where the funeral was held the following morning at 9 o'clock to St. Finnan's Cathedral and cemetery, the Rev. E. J. Macdonald officiating at the Requiem Mass.

The pallbearers were Messrs. James Kerr, Dr. D. D. McIntosh, A. McArthur, Alex. Kerr, A. McMillan and Stuart McCormick.

The numerous floral and spiritual offerings were evidence of the regard and esteem entertained for the deceased.

Among those present at the funeral was Rev. sister M. of St. Monica, of Crysler, aunt of the deceased.

MISS ANNIE E. MACDONALD
Passing away quietly at her home in Montreal, Saturday after a lingering illness of more than a year's duration, Miss Annie E. MacDonald, formerly of Cornwall was buried here Tuesday morning following the arrival of the C.N.R. 11.25 train from Montreal. The funeral service had been held previously from her late residence, 465 Mount Pleasant avenue Westmount, to St. Leo's Church. Pallbearers here were Frank Lally, J. E. Tallon, J. C. Broderick, John O'Callaghan and D. G. McDonald.

Miss MacDonald was born at St. Andrew's West 82 years ago, a daughter of the late Alexander E. MacDonald, during his lifetime registrar of the High Court of Justice and registrar of the Surrogate Court for the United Counties of Stormont, Dundas and Glengarry.

Miss MacDonald received her early education at the rural school in St. Andrews and later at Cornwall Grammar School. Many years ago she was a teacher in the Cornwall Public School together with her sister, and will be remembered throughout the city by former pupils and friends. She resided here until 1912 when, with her sister, Miss Catherine MacDonald, she moved to Montreal, where she had lived since. She was a sister of the late Major-General Sir Donald A. MacDonald of Ottawa and of the late A. F. MacDonald of the head office staff of the Bank of Montreal.

Surviving are one brother, Dr. Rodrick MacDonald of Winnipeg; one sister, Miss Catherine MacDonald of Montreal; a niece, Mrs. Panet, wife of Lieutenant-Colonel Panet of Ottawa; and by one nephew, C. McD. Lynch of the accounting staff of the Canadian National Railways of Toronto. A grand-nephew, Captain de Lotbiniere Panet of the regular forces R.C.H.A., Kingston, also survives. J. M. McDonald is the nearest surviving relative in Cornwall.

The remains were accompanied to Cornwall by Charles McD. Lynch of Toronto and Claude Morrison of Montreal—Cornwall Freeholder.

OF NATURAL GRACEFULNESS

J. W. HAWKER, Architect

THERE is a suggestion of friendliness of a huge forest in the smoothly planned boards of this home. Design, use of beautiful natural materials and innumerable choices of color schemes make this residence a place to be proud of. The man who strives to build a home of comfort and satisfaction would, no doubt, find the realization of his dreams in such a house as this.

Probably one of the most important features of this home is the spaciousness of the living room with sun room adjoining. As today the living room is the most important room in home life, generosity in size is a great asset. Upon further examination of ground floor plan, it will be noticed that the coat closet is located in the vestibule and a handy wash room is placed near the rear of the hall. The kitchen is planned for the convenience of the housewife and though the breakfast nook takes up one corner of this room, the pantry makes up both in size and efficiency.

On the second floor, a small hall serves the three bedrooms and bathrooms. In this hall is a laundry chute, which runs down to the basement. The main bedroom is favored with a dressing room and linen closet on one side and an extra closet on the other. Clothes closets are also provided for the other two bedrooms.

Outline Specifications
Size of House: 28'0" x 34'0"
Suitable Lot: 60' frontage.

Walls: Siding.
Roof: Wood shingles.
Built-in Features: Cupboards, breakfast nook and laundry chute.
Cubic Contents: 21,000 cu. ft.
Approximate Cost: \$6,500.
Readers desiring further information regarding a house of this design should communicate with Home Building Information Service 345 Adelaide Street, West, Toronto, Ontario. When writing please tell us what particulars are desired and mention design number 218. Copyright, 1930.

HERE'S HOW TO HAVE FINEST JOB OF WOOD SIDING ON RESIDENCE

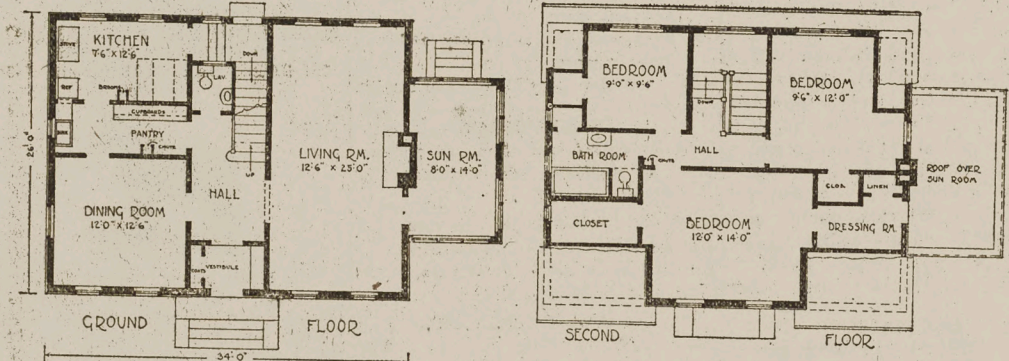

Pointers on Permanence
What about wood siding? Boards nailed along the walls. Some warp and split, some show where the nails have been driven—long streaks of rust. Some show open joints where ends come together and many are curled at the corners. Old time Colonial buildings rarely show these defects. Why?

What do you get when you get a good job? Thick boards. Lots of material there, especially if they are wide. Redwood, cedar, and white pine are the best material. Other woods do well for narrow boards. But if they are 10 inches wide or more they should be at least 3-4 inch thick, whatever kind of wood, make sure of that. Free from knots, free from pitch streaks, free from mechanical or natural defects that paint will not cover. If you are going to oil them, then no defects. If you intend to turn the rough side out, then smooth sawing does not count.

There are a good many ways to finish the corners. One is to cover them with metal. That's the hurry up job. Another is to use a corner board. That's the cheap carpenter job. Still another is to make a mitre cut, a careful, accurate close fitting joint, by sawing the boards to the angle, filling the ends with linseed oil and white lead. It can be made perfectly tight. But it takes a carpenter, not a wood butcher. See how many houses have open corners. None of them need be that way.

One thing more, Paint. Paint is principally linseed oil. If it were not for that we would not have the paint. If it were not for the oil the paints we have would not adhere to the wood. But it will not adhere when the wood is wet. So paint when the wood is dry. That means before even dew collects on it. Paint these siding boards as they are put in place.

That's a siding job for you. Not a temporary thing. It won't crack, it won't warp, will not open at the joints. That's a two hundred-year job such as the colonial builders knew. The temporary jobs you see around you are put up by men who do not know these things—Copyright 1930. The Architects' Small House Service Bureau.

RHEUMATISM?

T-R-C's give safe, speedy relief from Pain and Stiffness

Listen to Mr. H. C. Benedict, Theford, Ont.: "In the morning I would not be able to move one arm unless I lifted it with the other. It would feel as though it were going to break. Thirty Years' Public Service

Le Canada: "It is now just turned thirty years since the Hon. L. A. Taschereau was first elected member of the Quebec Legislature for Montmorency. In all this time his constituents have retained their confidence in him, and at every election when there has been a contest Mr. Taschereau has been re-elected by a large majority. Seven years after he was first returned to the Legislative Assembly, that is to say, in 1907, Sir Lomer Gouin, then Prime Minister, called Mr. Taschereau into the Cabinet and named him Minister of Public Works. He continued to hold that portfolio until 1919, when he was appointed Attorney-General, and in due course he succeeded Sir Lomer Gouin as Prime Minister of the province. Mr. Taschereau's whole career has been one of devotion to the interests of his province, and on the occasion that marks the thirtieth anniversary of the opening of that public career, his many friends were happy to offer him their hearty congratulations, accompanied by sincere wishes that he had still a long course of public service to run."

Does Your Horse Wheeze or Roar?

Thick, swollen glands cause thick wind or choke-down and make a horse wheeze or roar. Chief Seger's Report Alexandria Fire Brigade

To His Worship Mayor Laurin, Chairman Fire Committee, Members Town Council, Town of Alexandria.

Gentlemen:—
I have the honour to submit herewith Annual Report hearing upon the duties performed by the Fire Brigade during the year ending November 15th, 1929.

You will see from the report that stove-pipe and chimney fires are in the majority and that our fire losses for the Town are increased 25% over the previous year.

Fire losses, are in fact a tax on every man, woman and child. This is one case where the tax payers entirely by their own efforts, can reduce the rate and I hope we shall succeed.

It is an unescapable fact that if this country is to materially reduce its annual fire loss, it must impress upon its citizens the necessity for guarding against fire and of providing adequate means for combating it promptly when it does appear so as to reduce its damage to a minimum. Selfishness is a deep-rooted trait of human nature. We all have it to some extent. This is shown by the way crowds will gather to watch a burning building, in the same spirit that they would watch a programme of aeroplane stunting. They see in the fire—not the loss of somebody's home with all its prized possessions.

This, then, is the problem to bring home to every man, woman and child. The fact that fires which do not involve their property are not just exciting spectacles to them, but are real calamities which are a drain on their pocketbooks. When this has been done, fire losses are bound to drop, for if the people of this country can be made to look at every fire as a waste of their personal earnings, they will no more countenance waste of their money by fire than they would any other flagrant waste of their money. When this thought has been driven home to all the people, a new era in fire prevention will be inaugurated.

Protection against fire presents a parallel. Its economic worth is contingent upon its ability to completely fill the requirements of existence hazards. Equipments and apparatus that is inadequate in size, type or number, or in poor condition, does not constitute real protection. It may even be a danger, for it creates a false sense of security. When called upon, it may be found wanting—with the result that lives and property are needlessly sacrificed.

To give complete protection, equipment must be adequate in number and correct in type as regards the hazard, and accessibly located. The same holds true as regards the apparatus which guards our town. It must be capable of extinguishing not only the average fire but also the larger fire, which reaps such heavy toll. Those of us who have the responsibility for the protection of production against the depredations of fire must not be influenced simply because equipment or apparatus is cheap. We must base our decision upon the prime consideration—complete and correct protection against fire.

Hoping that the work performed by the Brigade throughout the year will meet with your approval,

I have the honour, Gentlemen to be Your obedient servant,

M. CH. SEGER,
Acting Chief A.F.B.
Alexandria, Ont., January 10th, 1930.

REPORT OF FIRE BRIGADE TOWN OF ALEXANDRIA

During the year there were received and responded to by the Fire Brigade 27 calls—7 calls rung in on the fire bell—11 calls sent in by telephone—9 still alarms.

Actual fires 6, Chimney fires 9, Overheated stovepipes 10, Grass fires 2, Total 27.

Causes as far as could be learned after investigation:—

Defective chimneys 6, Dirty chimneys 1, Clogged chimneys 2, Dirty stovepipes 6, Clogged stovepipes 4, Defec-

They Were Certainly A Great Benefit To Me

SAYS ONTARIO LADY OF DODD'S KIDNEY PILLS

Mrs. H. Gordon Suffered With Pains in Her Back
Cohourg, Ont. Feb. 27.—(Special).
"After taking several doses of Dodd's Kidney Pills, I began to feel the pains in my back diminish," writes Mrs. H. Gordon, who resides on University Ave. "After continuing with the Pills for some weeks, the pains ceased. They were certainly a great benefit to me."

Mrs. Gordon's statement is brief but to the point. Ninety per cent. of the ills from which women suffer come from weak or diseased Kidneys. They are the organs that strain all the impurities out of the blood. If they fail in their work, the impurities remain in the blood and are deposited all over the body.

Dodd's Kidney Pills have restored sound health to thousands of troubled women and men. Give them a trial at once. They can be obtained from Druggists everywhere, or The Dodds Medicine Co., Ltd., Toronto 2, Ontario.

tive wiring 1, Ignition from overheated pipes 1, Ignition from spilling bottle of gasoline 1, Matches thrown in grass 2, Explosions in engine 2, Outside call 1, Total 27.

In 3 responses Fire Extinguishers were used to put out the fires.

In 3 responses 1650' feet of hose was laid and used to put out the fires and in each instance the water pressure was found very good and satisfactory.

In 15 responses fires were found out upon arrival.

In 6 responses sand and salt was used to put fires out.

Nine notices were sent out with respect to dangerous chimneys and ordered put in repair in compliance with the Fire Marshall Act.

Ten practices were put in by the Fire Brigade.

Fire Brigade was called upon for assistance in the Township of Lochiel, during the year.

SUMMARY

Building losses during year .. \$	2500.00
Insurance carried upon same ..	10500.00

Nesting Place of World is Family

A family was characterized as the nesting place of the world by Rt. Hon. Sir George E. Foster, who addressed the Lions Club of Ottawa at its weekly luncheon in the Chateau recently. The speaker implored members not to lose sight of the fact that family life should be kept in the country. It was not doomed, and if it was, civilization would meet a similar fate.

"A family is the nesting place of the world, moulding influence and character, without which civilization cannot endure," said Sir George. "Never forget you have come out of a home that has made you what you are or what you ought to be."

Sir George took his listeners down through the past, and spoke on the great scientific developments that have taken place within fifty years.

"Have you ever stopped to think of the differences that have shown themselves in our country and others in fifty years?" he asked. "And have you ever stopped to think of what has been conferred as an added power to the human being in that space of time?"

"In my time the human voice had a circumscribed scope. The human voice today is so reinforced that it can reach to Melbourne, London, Cape Town and practically any part of the wide world. I can sit down and say I want so and so in Cape Town and in a very brief space of time find myself talking to a friend in that far-distant land."

"The human eye also is so reinforced that it can see as far as the voice can reach. Television is a great scientific triumph and a wonderful thing for humanity."

Sir George spoke also of the extension of the travel area. There was no excuse, he said, for any young man or woman not to have a very extended world. The world was to them just what they chose to make it. Young men and women of today could become citizens of all Canada by taking advantage of the many facilities science had developed for hearing and seeing.

The speaker praised the club for the work it was doing, saying it existed for social service, which was the great watchword of today.

"Bridget, it always seems to me that the unkindest mistresses get the best cooks."
"Ah, ma'am, go on wid your blarney."—Answers.

New Spring Merchandise

Arriving at

SIMON'S

We are this week receiving our new Spring Importations of Newest High Grade Clothing, Shoes, Dry Goods, etc.

We have been appointed district agents for the celebrated Dr. McCann Archstay Footwear for ladies. This wonderful arch support shoe comes in every style and leather. We have received sample pairs this week. This shoe retails in the city stores at from \$15.00 to \$22.00; our prices here will be from \$5.00 to \$7.00.

We are exclusive agents for the world's best boot for men—the "Invictus Shoe" and there is no other make of footwear that embraces such style and value that this shoe does.

We are exclusive agents here for the "Betty Brown Dress" and the "Elite Ladies' Ready-to-wear." We are just now receiving new spring creations—no two styles alike—no two colors alike.

Our men's and boys' clothing will arrive very shortly, but we now have our new spring samples of made-to-measure clothing, at prices from \$25.00 to \$100.00, in such makes as "Leishmans—the world's best," House of Hobberlin, with their absolute guarantee; Cornell Tailored Clothes and Wm. Lane Barker's special cloths. We have over a thousand samples to choose from.

This store can fit you out from head to foot, with the finest toggery in the world, right at your door. See what you are getting with satisfaction in every respect—and we save you money. No need to buy in the cities or send to mail order catalogue firms. They don't or won't help build up your town or community or help when there is help needed.

Come in and look over some of our specialties.

ISAAC SIMON

ALEXANDRIA, ONT.

P.S.—We take in exchange at all times new laid eggs, fresh butter, live poultry, and allow highest market prices.—I. S.

A Botched Job

Is usually one done in a hurry, by a cut-rate printer, who was not able to submit a proof to the buyer of the printing. The price at which the job was done necessitated quick work and the minimum of attention to detail.

Result!

The customer uses the printed matter much against his will, and possibly to his detriment so far as his customers are concerned, all because the printing was done by a printer at a distance, and that the job was not checked before printing.

Insist On Proofs

Your home printer will always gladly submit proofs of all work so that it may be carefully checked for errors, and altered for appearance if deemed advisable, while any desired additions or deductions may be freely made. This results in a satisfactory job of printing, and pleases all concerned. See that all your printing bears the imprint of your local printer—

The Glengarry News

GUNMAN'S BLUFF

Edgar Wallace

Copyright by EDGAR WALLACE

SYNOPSIS

Margaret Leferre's brother, Rex, has been found dead with a note addressed to his sister stating that he has been ruined by investments recommended by Luke Maddison, wealthy banker, to whom Margaret is engaged. Danty Morell, a rather shady character, informs Maddison that Rex had cashed a check for 18,000 pounds bearing Luke's signature. Detective Bird, known as "The Sparrow," calls on Maddison, who refuses to take any action although his signature was forged to the check. Maddison does not know of the dead man's accusation of him, Margaret does not know that her brother was a forger. Her love for Maddison turns to hate but she decides to keep her promise to marry him. She is desperately poor and Maddison makes over his entire fortune to her, everything he possesses. In the background of these events is the figure, still shadowy, of Gunner Haynes, a famous American crook, who had encountered Maddison and Margaret, apparently by chance, the evening before Rex's death.

NOW GO ON WITH THE STORY

She stood there, her hands gripped, her breath coming quickly and more quickly, and heard him override the protests which came from the other end of the wire. Presently he hung up the phone and turned to her, a smile of triumph on his flushed face.

"You are Maddison's!" he said grandly. "Lock, stock, and barrel, darling—I am what old Bird calls a child of the poor."

Even she could not realize that he was speaking prophetically.

"Do you want to see a man named Lewing?" Stiles asked Maddison.

"Sit down, will you?"

Not taking his eyes from Luke's face, the visitor stretched out a hand and drew a chair to him.

"Well?"

The visitor sat down.

"Gunner's got three moon for bein' a suspected," he said in a low, hoarse voice. "The Sparrow spoke up for him, but the hawk handed out the three moon. The Gunner's appealin' to the sessions."

Luke nodded.

"He has got three months hard labor and is appealing? I hope he gets off. Did he send you to me?"

Lewing Nodded slowly. He had the appearance of a man who was lying and expected to be found out at any moment.

"Yes. A few quid would do him a hit of good. He wants a mouthpiece. The Sparrow says he'll get off—an' the Sparrow knows."

"Who is the Sparrow?"

A slow smile dawned on Mr. Lewing's face.

"He's a husy—a detective. Bird by name."

Luke nodded. He remembered Mr. Sparrow, whose activities were apparently not wholly confined to inquests.

"I was inside myself—for breakin' an' enterin'," confided Lewing, "but they couldn't prove nothin' so I got out. But me an' the Gunner's like brothers. He was in the next cell to me at Brixton an' he told me to pop up an' have a talk with you—a few quid would help him."

Luke was puzzled. His acquaintance with the redoubtable gunman who called himself Haynes was a slight one, but it had struck him, during their brief interview in the Carlton, that the Gunner had the manners and

Leaving for Paris that night—the Mearies, or was it the Bristol? There was some confusion in her mind about these details; anyway, they did not matter if she kept her courage. The two o'clock wedding had been an inspiration. She went back to her house—Luke was coming to dinner; they were to leave immediately after to catch the night boat from Southampton.

Luke's voice was tremulous. They were alone in her pretty little drawing room, and he was sitting by her side, his arm around her. She was very still and unyielding, but he thought that he understood this.

Luke was bubbling over with excitement—he was like a boy who had received a new and wonderful present.

"I say, did you see that queer-looking man standing on the pavement as we came out? Afellow named Lewing—a thief of some kind. I wonder if he came to pick pockets? I'll bet he did; touched his hat to me as I came out."

She was not listening and, after he had gone, could remember nothing that he had said except something about Rex. It was indecent of him to mention the boy. Danty rang her up, but she would not see or receive him. She must go through no without help. Luke was coming at seven. At six she called him on the telephone, and had one panicky moment when she feared that he had already left his flat and could not be found. Then she heard his voice.

"Darling, isn't it odd? I can't believe it—I still think of myself as a crusty old bachelor."

"Luke, I want you to do something for me." She found her voice at last. "No—no, don't interrupt. It's a big thing. I don't want to go away to-night, not for a day or two. I want to be alone, not to see you. My nerves are in a terrible state; I think I am on the verge of a breakdown."

As she went on, he listened with a growing sense of alarm and dismay. And yet he was not thinking of himself.

"I've been a selfish brute. Of course, darling, I quite understand. The conversation did not occupy five minutes of time; he could hardly realize what was happening, to what he was agreeing, before he was sitting at his writing table staring blankly at the telegraph forms by which he was to cancel so many pleasant arrangements.

Danty, waiting at Waterloo Station with a full view of the barrier, watched the mail-boat passengers filter through to the platform. He saw the harrier close and the red tail lights of the train disappear into the darkness, and went home humming a little song, for Mr. and Mrs. Luke Madison were not among the passengers.

Luke did not even trouble to see Margaret at once. Before lunch he remembered and telephoned.

"I want to see you, darling," he began.

"Why?" It was difficult to disguise the suspicion she felt.

"I want you to sign a little document," he said gaily.

So that was it! Danty had warned her. Only she had never dreamed that she would be asked to renounce her marriage portion so soon.

"Wife! It's wonderful—unbelievable!"

"A document?"

"I want you to transfer some money to me," he said. "It is the merest formality—I've discovered that I have rather less than I need."

She thought quickly.

"Very well, come to the house at three o'clock."

He forgot that the bank closed at three-thirty and agreed. After all, it did not greatly matter if the check was returned. It was merely a transference from his personal account to the bank's.

He was, true to his methods, five minutes late, when he was shown into

Folks Past 40 Should Read This

If you are troubled with a burning sensation, bladder weakness, frequent daily annoyance, getting up at night, dull pains in back, lower abdomen and down through groins—you should try the amazing value of Dr. Southworth's "Uratahs" at once and see what a wonderful difference they make! If this grand old formula of a well known physician brings you the swift and satisfying comfort it has brought to dozens of others, you surely will be thankful and very well pleased. If it does not satisfy, the druggist that supplied you with "Uratahs" is authorized to return your money on the first box purchased. This gives you a full 10 days' test of "Uratahs" without risk of cost unless pleased with results. If you would know the joys of peaceful, restful sleep and a normal, healthy bladder, start this test today. Any good druggist can supply you.

her little sitting room. The first thing that struck him was that she was dressed. He had pictured her resting in her negligee—in bed, even. She was not as pale as she had been. It was when he went to take her in his arms that he had his first shock.

"Don't kiss me—please!"

It was not a request; it was a peremptory command.

"Why—what is wrong, darling?" She shook her head impatiently.

"Please tell me what you want."

Her tone turned him cold. It was hard, almost antagonistic. He could hardly believe the evidence of his senses.

Stammering like a schoolboy, he told her in disjointed sentences of the situation which had arisen, and she listened and did not speak until he stopped.

"Ninety-seven thousand pounds," she said. "A tenth of that would have saved Rex."

He could only stare at her unconprehendingly.

"It was rather dreadful to see a man make a god of money, Luke, and to know that for its sake he is willing to sacrifice even a young life."

To him her voice sounded like the clang of a bell; to herself it hardly seemed that it was she who was speaking.

"And to accuse this poor dead boy of forgery—to add that infamy to the other."

"I—you are speaking of me?" he said in a whisper.

She nodded.

"Of you. I knew that you were coming to get your money back—that is why I did not go with you to France. I wanted it to happen here. Here, where I have friends and can meet you on even terms."

A pause, and then:

"Luke, I am giving you no money. You gave it to me—it is mine. Not a penny can you have—not a penny!"

She wished he would speak during the silence that followed. She wished he would rave, curse her, do all the things that were consistent with her picture of him. But he did nothing. He was not even looking at her, but was studying the pattern of the carpet. Presently he jerked up his head.

"Good-bye," he said, and turned on his heel.

She heard the door close on him, and then there came to her a realization that made her brain reel. She loved him.

Why he gravitated to the Emhankment he could never tell; it seemed a natural objective. He had no thought of suicide, no intention of finding that gross way to forgetfulness. Walking slowly by the parapet, he came to a halt before Scotland Yard and eyed that Gothic building incuriously. That big detective was there, the Sparrow—the Sparrow, who righted so many wrongs, could hardly disentangle the problem which deadened the mind of Luke Maddison. The "children of the poor!" He smiled mirthlessly. He was one of the children of the poor, the natural charge of that big man.

To protect the children of the poor and punish the wrongdoer. Who had done wrong? Margaret? He tried hard to apportion all blame to her, to hate her. He shook his head and walked slowly back toward Blackfriars.

Trail Ride To Great Ice-Fields Planned

Jasper, Alta., February 25th. Plans for one of the greatest trail riding expeditions in the Canadian Rockies, which will take members of the Jasper Squadron of the Trail Riders of the Canadian Rockies from Jasper Park Lodge to the great Columbia Ice-fields, one of the most striking glacial areas of the Rockies have been announced by officers of the Squadron here. The ride will take members of the squadron into some of the most magnificent scenic territory in the Northern Rockies and the Columbia Ice-fields, which will be their goal, is the largest body of ice found in the Rocky Mountain area. The ride, which will commence August 4th from Jasper Park Lodge, will bring together a large party of outdoor enthusiasts, some of whom have ridden or hiked over thousands of miles of charted trails in the Rocky Mountains area. Jasper National Park will be a favored area at this time, for the annual camp of the Alpine Club of Canada is being held, from July 28th to August 16th in the Maligne Lake area, where Alpinists will attempt climbs on some of the striking peaks which surround the largest glacial lake in the Canadian Rockies.

The schedule of the Trail Ride expedition follows: First Day: Leave Jasper Park Lodge for Medicine Lake, stopping to see the Maligne Canyon on the way and making camp at the south-east corner of Medicine Lake.

Second Day: Leave Medicine Lake, arrive early afternoon at Maligne Lake. During the afternoon and evening take the trip by motor boat to the upper end of Maligne Lake.

Third Day: Leave Maligne Lake, travelling along the upper Maligne River

to Camp in Maligne Lake.

Fourth Day: Leave Maligne Pass, passing down Poline Creek and up the Pokoktan River to camp at the waterfalls camp ground.

Fifth Day: Leave Waterfalls camp and cross the Pokoktan pass by Brazeau Lake to camp on the main Brazeau River.

Sixth Day: Leave the Brazeau camp and cross the Nigel Pass to Camp Parker at the eastern edge of the Columbian Ice-fields.

Seventh Day: Visit Columbia Ice-fields and hold Pow-wow.

Eighth Day: Move to camp near Wilcox Pass and climb to obtain a view of the north-eastern part of the icefield, including Mounts Columbia, Alberta and surrounding peaks.

Ninth Day: Cross Wilcox Pass and down Tangle Creek to camp on the Sunwapta River.

Tenth Day: Leave Tangle Creek Camp and down Sunwapta River to camp at the lower end of Sunwapta flats.

Eleventh Day: Proceed down Sunwapta river to camp at Sunwapta Falls.

Twelfth Day: Leave Sunwapta Falls camp and follow Athabaska River to Camp at Athabaska Falls.

Thirteenth Day: Leave Athabaska Falls camp and across the river on Canyon Bridge, proceed downstream to Jasper.

Stomach Trouble

"No more stomach trouble. Can eat anything," writes Mrs. E. White. Thousands say indigestion, heartburn, gas vanish like magic with "Fruit-a-dives." Constipation, sick headaches, end over night. Nerves, heart quiet, sound sleep at once. Rheumatism flies away. Complexion clears quick. Get "Fruit-a-dives" from druggist today.

Here and There

(482)

The bull sale at Kamloops this year is scheduled for March 19 and 20. The show is becoming an important event in western livestock records. A big list of Alberta entries has been received.

The Maritime Livestock Marketing Board have extended their purchasing plan so that now farmers' clubs and associations may purchase feeds at a considerably lower price than formerly. Several carloads of feed have already been ordered.

The directors of the Canadian Pacific Railway have decided to apply to Parliament for an amendment to the company's charter permitting it to change the par value of shares of its ordinary stock from \$100 to \$25 per share with the exchange of one share of the old stock for four shares of the new. This action has been dictated by a desire to place the company's shares within the reach of investors of moderate means and thus increase the number of its shareholders, particularly in Canada.

Miss Doris Parkes, of Vancouver, becomes "Her Majesty" of the 1931 Banff annual winter sports carnival, following her election as Queen at the recently concluded gathering at the famous mountain resort. She won against rivals from Calgary and Australia and was crowned amid colorful pageantry in the closing hours of the carnival.

"Not how much land settlement work, but how good," was enunciated as the policy of the Canada Colonization Association by W. M. Neal, general manager of western lines, Canadian Pacific Railway, at the annual dinner of officials of the organization held at Calgary recently. Mr. Neal said that during the past five years the association had settled 2270 families on 844,268 acres at a purchase price in excess of \$88,000,000.

The largest terminal grain elevator at any port on the seven seas has recently been put into operation at Vancouver by the Alberta Wheat Pool. It has a capacity of 5,150,000 bushels and is known as Vancouver Pool Terminal No. 1. During the crop year ended July 31, 1929, Vancouver shipped 96,138,218 bushels of grain as compared with 79,714,512 and 34,415,653 in the two previous years.

More than \$50,000,000 will be expended on new equipment, new branch line construction and improvement to existing equipment and roadbed by the Canadian Pacific Railway during 1930, according to an announcement made recently by E. W. Beatty, chairman and president of the company. Of this huge sum, \$14,000,000 will be expended in new equipment and conversion and improvement of existing equipment; \$3,000,000 in telegraphs; Canadian Pacific hotels from coast to coast will benefit by \$3,500,000; rail facilities in the west will account for \$10,000,000 and \$7,500,000 will go on expenditures for eastern Canada lines. The fifty millions will include \$9,250,000 for maintenance during 1930, but does not include large expenditures on ocean steamships, now in hand, and on immigration work.

PAY OF ITALIAN TEACHERS.

Government Recently Raised Their Salaries.

Italy has recently raised the salaries of her school teachers, but the increased pay is still inadequate to meet their requirements. School teachers are very modestly paid, says the Rome correspondence of the Christian Science Monitor. An unmarried school teacher in Italy gets a little more than \$300 a year for the first five years of service; married teachers receive an additional \$50 a year. Salaries are raised at quinquennial periods, until they reach the maximum of \$650. In the larger cities, teachers receive a higher pay, but the large majority of Italian teachers receive the salaries quoted above.

On the other hand, Italian school teachers enjoy many reductions on the state railways, on street cars, theatres and cinemas, and in many cases also on house rent; but on the whole the elementary school teaching profession is not made very attractive. This explains why the bulk of Italy's elementary teaching is conducted by women.

War on the Desert.

A tree-belt planted in Uganda to check encroachment of desert sand promises to be successful, according to Mr. R. St. Barthe Baker, assistant conservator of forests in that country. In an address at the Imperial Institute, London, England, lately, he dwelt upon the urgency of the need to preserve the world's timber supplies. In a very few years, Mr. Baker said, there would be a serious shortage of soft wood. The trees of Africa, he claimed, were particularly important, as they provided soap, rubber, and many other necessities.

Over a Hundred Years Old.

A 100-year-old apple tree, remarkable for its symmetry, and which last season produced twenty-two barrels of Calkin Pippin apples, attracts much attention in the orchard of Downey Morton at Lakeville, King's county, Nova Scotia. Mr. Morton picked apples from this same tree fifty years ago, at which time it was a full grown tree. It is well over a hundred years old, he says.

Dolls in United States.

The doll population of the United States is growing enormously. Toy manufacturers in that country are now making about \$15,000,000 worth of dolls, doll parts and doll clothes annually. Department of Commerce figures show.

Students from Abroad.

According to latest available statistics, there are more than 13,000 students from abroad in preparatory schools, high schools and colleges in the United States.

With a shudder, she felt the ring slip upon her finger.

"Lewing? Who is he?"

From Mr. Stiles' expression of disapproval he gathered that Lewing was not of any great account.

"Show him in."

The man who followed Stiles into the room was tall and spare of build. His deep-set eyes had in them a furtiveness that was almost animal. He glanced quickly around the room, and it almost seemed to Luke that he was pricing every article within view against the night when he might enter and take away such movables as would show him a profit.

"Mornin', sir."

He held his head downwards and sideways, looking up from under his heavy and untidy eyebrows.

"Like to speak to you private, sir," he said in his husky voice.

Luke glanced at the manager and signalled him to leave the room. Mr. Stiles left with the greatest reluctance.

Catarrhal Deafness and Head Noises

TELLS SAFE, SIMPLE WAY TO TREAT AND RELIEVE AT HOME

If you have catarrh, catarrhal deafness or head noises caused by catarrh, or if phlegm drops in your throat and has caused catarrh of the stomach or bowels you will be glad to know that these distressing symptoms may be entirely overcome in many instances by the following treatment which you can easily prepare in your own home at little cost. Secure from your druggist 1 ounce of Parmitin (Double strength). Take this home and add to it 1-4 pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day. An improvement is sometimes noted after the first day's treatment. Breathing should become easy, while the distressing head noises, headaches, dullness, cloudy thinking, etc., should gradually disappear under the tonic action of the treatment. Loss of smell, taste, defective hearing and mucus dropping in the back of the throat are other symptoms which suggest the presence of catarrh and which may often be overcome by this efficacious treatment. It is said that nearly ninety percent. of all ear troubles are caused by catarrh and there must, therefore, be many people whose hearing may be restored by this simple, harmless, home treatment.

certainly the vocabulary of a gentleman, and that this mean sneak-thief who was looking at him stealthily from the other side of the table was hardly the type of man in whom the Gunner would confide his commissions.

Luke felt in his pocket and took out a few pound notes.

"I suppose you know Mr. Bird very well?" he asked as he counted the money.

The man grinned.

"The Sparrow? I should say so! He's always goin' on about the children of the poor—but he's always laggin' 'em! He pretends there's a lot of poor people who are sufferin' because of the likes of—" he was about to say "me" but changed his mind—"of fellows who go on the crook. That's silly. If you can't do work you've got to do something; you can't starve. The last time the Sparrow started talkin' to me about it I says: 'Look here, Mr. Bird, why don't you go after the children of the rich an' make 'em pay their whack to these children of the poor?' He couldn't answer me. He was dumfounded. I'm always beatin' 'em people in arguments."

He seemed rather proud of this accomplishment; was not without his vanities, even if he had to lie about his triumphs.

"Here is ten pounds. Give that to your friend. I can't help him much more. I'd like to know what happens to him, and he can write to me here."

"At two o'clock Margaret Laffer stepped from her car at the door of the Marylebone registrar's office, and Luke, waiting in the room of that official, turned to greet the palest bride that had ever entered those commonplace portals.

She spoke not at all, only answered the questions that were put to her. With a shudder she felt the ring slip upon her finger.

It was all over so quickly that she could not believe that the first act of her vengeance was played. Somebody put a pen in her hand, and a squat forger showed her the place where she must sign her name. For a long time she held the pen, and when she wrote it wavered in her fingers and the scrawled signature looked like nothing she had ever seen.

SOCIAL & PERSONAL

Mrs. C. Meneilly spent Monday in Ottawa.

Mr. Elie Chenier spent Sunday in Glen Robertson.

Mr. John R. MacRae was in Ottawa over the week end.

Mr. Jack Weir of Detroit, spent a few days in town.

Mr. E. H. Stimson paid the Capital a visit on Wednesday.

Judge Costello of Cornwall, was in town Sunday and Monday.

Miss Huxtable spent the early part of the week in Montreal.

Mr. Gerald Lalonde, of Ottawa, was home over the week end.

Mrs. Geo. Bougie left on Monday to visit relatives in Montreal.

Mrs. A. L. Raymond spent the week end in with Montreal friends.

Mr. C. Racine of the C.N.R. staff, was in Montreal, on Tuesday.

Mayor J. A. Laurin spent the latter part of last week in Montreal.

Miss Alice Cuerrier visited Montreal friends over the week end.

Mr. Rannio Weir, Cornwall, was in town the early part of the week.

Mr. S. O'Connor, Glen Robertson, did business in town on Saturday.

Miss K. Macdonald is in Ottawa, the guest of Miss Ruth Connors.

Mrs. O. Luckhardt and Mrs. Arch. Lothian were in Montreal, on Monday.

Mrs. F. C. MacRae left on Saturday to spend some days with friends in Toronto.

Miss Peggy Tobin spent Tuesday in Ottawa the guest of Miss Florence Dixon.

Miss Nora MacRae visited her parents, Mr. and Mrs. Andrew MacRae, on Sunday.

Miss C. M. Weir, Ottawa, visited her brother, Mr. Allan Weir, over the week end.

Mr. O. Luckhardt, Manager Royal Bank, paid Cornwall a business visit on Friday.

The Misses Bertha and Edith Macdonald, were with Ottawa friends for the week end.

Mr. and Mrs. S. Filion, Bishop St., were guests of relatives at Greenfield, for the week end.

Miss Sadie McDonald, Montreal, visited relatives in the 3rd Lochiel, over the week end.

Miss Lena McDougall is spending the week in Montreal, the guest of her sister, Mrs. Armstrong.

Sir Percy Sherwood of Ottawa, spent Sunday evening in town, visiting Mr. J. A. Macdonell, K. C.

Messrs. R. Plimsoil, Montreal and L. Mallon, Ottawa, were week end guests at the Bishop's House.

Miss Irene McKinnon, Cornwall, visited her parents, Mr. and Mrs. J. D. McKinnon, 4th Kenyon, for the week end.

Miss Christena MacLeod, Ottawa, was with her parents, Mr. and Mrs. W. D. MacLeod, Bonnie Brier, for the week end.

Mr. and Mrs. K. J. MacCuaig, Peveril, were Sunday guests of his sisters, Mrs. McCuaig and Miss McCuaig, St. George Street.

While en route to North Lancaster for the week end, Mr. Arch. J. Macdonald, M.P., was here for a few hours on Saturday.

Miss Teresa Barbara spent a day or two in Montreal this week, prior to leaving, Thursday evening for Kirkland Lake, Ont.

Mrs. J. G. Beriault of East Templeton spent Sunday and Monday the guest of her mother Mrs. Joseph Cuerrier Dominion Street.

Mr. Peter McNaughton who had been visiting Glengarry relatives for the past two months left for Saskatoon, Sask., Tuesday morning.

Mr. H. Peel returned to town on Saturday after spending a few days with Mr. T. Dewhurst, Lachute, Que., and with friends in Montreal.

Mrs. Katie Donahue, of Windsor, Vt., and Mr. Jack Stewart of Plenty, Sask., were guests last week of Mr. and Mrs. Vincent McDonald, Elgin St.

Mrs. R. W. Cameron, Fassifern, accompanied her daughter Jean to Montreal, on Monday, where she will undergo treatment in the Royal Victoria Hospital.

Mr. Ronald Macdonald of the staff of the Bank of Montreal, Montreal, spent the week end with his parents, Colonel and Mrs. A. G. F. Macdonald, Garry Fen.

At the opening of Parliament last week, Mrs. Archibald J. Macdonald, wife of the member for Glengarry, wore a princess gown of black crepe satin and net.

For the MacGregor-Simpson wedding on Saturday, out of town visitors were guests of the following Alexandrians: Mrs. Jessie MacGregor, of Toronto, with Mrs. D. M. Macleod, The Manse; Messrs. Geo. MacGregor, Toronto and Wm. MacGregor, Ottawa, with Mrs. E. H. Stimson; Mr. F. A. Leslie, Montreal and Miss Giles, Ottawa, with Mrs. J. D. McIntosh; Mrs. J. O. Simpson, Malone, N.Y., Mr. and Mrs. Robert Urquhart and Miss Helen Urquhart, Ottawa, with Mrs. H. L. Cheney; Mr. Ronald and Miss Hazel Carkner, Ottawa and Mr. R. Simpson, Cornwall; with Mrs. D. A. MacMaster, Kenyon Street, and Miss Anna Mitchell, Kingston, Ont., with Mrs. J. A. MacRae.

Mr. Arch. J. Macdonald, M.P. and Mrs. Macdonald are residing at 216 Metcalfe Street, Ottawa, during the Session.

Mr. and Mrs. Rodolphe Danis had as their guests for Sunday Messrs. Alcide Poirier and Roger Achim, Montreal, also her sister Miss Alice Poirier who is spending the week here.

Miss Chris. MacLeod of Montreal, left Saturday last for Winnipeg, Man., to visit her sister, Mrs. J. W. McLachlan and Mr. McLachlan.

Mr. A. L. Smith, Toronto, paid his mother, Mrs. James Smith, Main Street south, a short visit on Tuesday.

Miss Mildred Reeve entertained a number of friends at a tea party on Wednesday afternoon.

Mrs. Archambault of Montreal, spent Tuesday the guest of Mrs. Cholette.

Her many Alexandria friends will be glad to know that Miss Dora Shepherd, daughter of Mr. G. W. Shepherd, who has been a patient in St. John's Hospital, Toronto, for some weeks, is daily showing improvement.

Mr. Donald A. O'Connor after an extended visit to his parents, Mr. and Mrs. John O'Connor, 2nd Kenyon, returned to Coronation, Alta., the early part of the week.

Dr. A. L. Macdonald, Fort Smith, N.W.T., in remitting his renewal for his old home paper, sends kindly remembrances to his Glengarry friends.

Mr. and Mrs. O. Dufresne visited relatives in Montreal on Sunday.

Mrs. Goulet and little daughter, of Dalkeith was in town on Saturday.

Mr. Wm. Periard visited relatives in Valleyfield on Sunday.

Mr. Henry Duggan was in Montreal on Tuesday attending Rev. A. J. Macdonald's First Mass, celebrated in St. Michael's Church.

Bell Telephone Reports Big Gain

The fiftieth annual report of the Bell Telephone Company reached shareholders last week. It contains some interesting material on telephone development in Ontario and Quebec. There were 227,828 telephones connected in 1929 and 180,617 disconnected making a net gain of telephones in service of 47,211 as compared with 45,862 in 1928. More than 67 per cent. of all telephones are in homes.

There are 833 other telephone systems in Ontario and Quebec whose lines connect with the Bell System for interchange of communication and these companies serve 140,038 additional telephones. Gross revenue showed an increase of \$3,725,299 during the year just closed and expenses also increased by \$3,191,953. The increase of \$1,375,507 in long distance revenue reflects the growing use of the service by both the business and social community.

Gross additions to the company's plant in 1929 involved an outlay of \$30,529,000 exceeding the previous year by \$8,000,000. Continued installation of dial telephones in Toronto, Montreal, Quebec and Hamilton has resulted in 50 per cent. of the service in these cities being on the dial basis. A substantial proportion of the gross outlay in 1929 was for extensions and improvement of the long distance system to which some 14,000 miles of talking circuits were added during the year.

The number of troubles per telephone was reduced 12 per cent. through continued improvement in maintenance work. A telephone is now installed on the average in 2.2 days and 59 per cent. of installations are made at a definite, appointed hour as arranged

with the subscriber.

During the year 2,300 employees successfully passed their first aid examinations and of the total male staff of 7,500, 63 per cent. are now qualified, first aiders. A Bell first aid team of the Toronto staff recently won the Wallace Nesbitt trophy, representing the champion for Canada in industrial first aid competitions. Twelve thousand and nine employees are at present subscribing for stock in the company, having undertaken to purchase 46,277 shares on the payroll deduction plan.

Opening of Parliament Gorgeous Spectacle

(Continued from page one)

Mr. Guthrie, Deputy Leader of the Government. For Mr. Guthrie, the Grey Knight of Wellington, I have a profound admiration. I have heard him make such excellent speeches on both sides of the politics that I have a feeling he could never be wrong.

BACK TO REALITY

But these things never happen. We live in the Land of As-you-Are and not in the Land of Might-have-been. So Parliament meets to transact business. There is much to be done. In a sense we have reached the end of an epoch. Hard times may not be at the back door and the wolf may be a long distance away, but his howls can be faintly heard, even from Wall Street. The United States, our next door neighbour has felt the pinch of the change. We are beginning to talk unemployment. You can bet your last cent that the subject will be discussed in the House.

The ex-soldiers want more pensions. I hope they get them. The civil servants need more salaries, at least some of them do. There will be more discussion of the movement of liquor to the States. William Irvine will tell of the evils of partisan Government and how he would cure it and the Hon. C. H. Cahan will give an oration on our National Status, the evils of our adverse balance of trade and many other things and Miss McPhail true to a sense of a duty, will protest against too much money spent on guns, brass hats, parades, uniforms, and boy scouts.

THE BUDGET

We may be certain of the above—they are as sure as March storms but the Budget will be the real tit-bit of the Session.

The Conservative press has written that budget a score of times. There is, according to these prints, to be an upward movement of the tariff. Mr. Dunning is to raise the tariff against the United States because we buy much there, and lower it against Great Britain, because Great Britain sells us little.

It is to be a happy change in which the protectionist gains much, the consumers are not thought of and to which the Conservative reply will be wild shouts of "I told you so," "They have accepted our policy," "It is too bad they didn't do it sooner" and all the other literature of approbation accompanied with genuine and sincere condemnation.

There is no doubt about the attempt of the sirens to lure the new Minister of Finance upon the rocks. These sirens aforesaid are not all in one particular party, they never are when there is such a change for a Bacchanalian Feast. The new Minister of Finance is not likely to be lifted from his course by any such performance. Is it not recalled of old that Odysseus filled the ears of his sailors with wax and lashed himself to the mast lest he should be diverted from his course by the wicked sirens. Perhaps Mr. Dunning has some such scheme in contemplation—may he have plenty of wax and great stoutness of rope.

OTHER TASKS

There will be the Financial Statement of the year. It will be a good one. Here and there there will be marks in it showing where the Canadian National Railways earnings have declined due to the holdup in the wheat crop. We will also see a dent or two indicating a slight sloping off in trade, bringing with it reduced collections of taxes. These are the ups and downs of business. If progress were always definite and uniform, always in one direction and on the same scale there would be no necessity to chart the course. We would simply start from somewhere and go to some other place.

The interesting thing in all this will be the criticism. Parliament always faces the big, eternal task of making criticism real, of bringing facts to bear upon issues, of making the discussion interesting, constructive, worth while and above all things true; for without truth to guide us in these matters we are a long way from home; the sea is stormy, the chart is gone, the rudder broken and we don't know the way to go home in the dark!

If people always said what they think a lot of us would be dumb.

It is rather silly to throw kisses. It is much better to deliver the goods.

Review of Montreal Live Stock Market

Increased offerings, as compared with the preceding two Mondays, and generally steady prices in all divisions were noted on the Montreal Livestock Market Monday last. The day's total offerings were 3,171 head, as compared with 2,219 head on last Monday and 2,296 head on the preceding Monday. Following is the report for the day, as issued by the Dominion Livestock Branch, Montreal.

Cattle—Receipts, 590. Cattle prices were about steady. Steers sold up to \$10.50 and good cows brought \$8 to \$8.35 with an odd choice cow up to \$9. There was a fair demand for butcher steers and heifers of light weight and a few lots of just medium good average quality weighing around 900 to 950 pounds brought \$.50 to \$10. The bulk of the common to medium cows brought \$6 to \$7.25. Bulls ranged from \$5 for light yearlings to \$8.50 for tops.

Calf receipts were 646. Veal calves were steady to firm. Veals were plain to fair quality and were mostly \$14, with tops up to \$15, and common or pail-fed calves as low as \$11. Grassers were easier at \$6.25 to \$6.50, including odd light yearlings.

Sheep receipts were 78. Lambs were steady at \$10 to \$11 flat and sheep from \$5 to \$7.

Hog receipts were 1,857. Hogs were uneven and sales were slow. Some 800 hogs were sold on grade at \$13.50 to \$13.75 for hogs with \$1 premium per hog on selects and the usual cuts

of 50c., \$1, \$2 and \$3 per hog on butchers, lights, heavies and extra heavies. The balance of the hogs sold for \$13.25 to \$13.75 fed and watered, flat, with odd sales as low as \$13. Feeders brought \$14. Sows were mostly \$12.

If you are not afraid of failure it is very probable you will never have to face it.

HENRY'S SHORTHAND SCHOOL OTTAWA, ONTARIO

No school in Canada offers a better training, or ensures a more successful future. Henry's leads all others, and ranks among employers as "The SCHOOL OF HIGHER EFFICIENCY"—a fact borne out by more than 600 pupils who have, since January, 1913, left other Ottawa schools to come to it. Therefore, it is not surprising that business men, in advertising for stenographers, should specifically say, "Graduates of Henry's School preferred."

For particulars about our course, apply to
D. E. HENBY, Director,
62 Bank St.

Zutoo Tablets Do Three Things

—stop Headache in 20 minutes
—break up a Cold over night

A laugh every minute.
Vocal and instrumental music between acts.
Curtain will rise at 8.15 sharp.
Admission. - - - 47c plus tax
GOD SAVE THE KING

Can You Buy as Much Anywhere For The Money?

Thrift is a most commendable trait. The practice of knowing what one gets for one's money—and getting it.

Can you think of anything that gives you more value for your money than this?

Notice that friends of yours, or friends of your friends are, visiting; have visitors, are ill; have been bereaved; have rebuilt or remodelled their home; bought a new home; are officers in a society; have been blessed with a new baby; that they have had an accident, or been married. In fact, the intimate activities of the community family life are reflected in the pages of your local newspaper 52 weeks every year.

Besides, you read of your council's—town, township or county—activities; of the progress or retrogression of your district, and literally hundreds of other items.

The business people send you each week messages of savings, latest styles, patterns, and weaves in wearables, and tasty, economical food stuffs. You can stay indoors for weeks, and still be better informed of vital community affairs than many who are continually about and trust to hearsay for news, through your local paper.

Do you honestly believe that you get a bigger or better two dollars' worth anywhere? If you agree with us that you do not, will you try to make our task of keeping our subscription list paid up, easier, by watching the label on your NEWS and paying YOURS when it falls due? Thank you. Just to be sure—turn to the first page now and

"Look at the Label"
