

Programme Dominion Conference Of Dairy Farmers

Chateau Laurier, Ottawa

WEDNESDAY, APRIL 19TH, 1933

- 10.00 a.m.—Call to order by Mr. A. H. Mercer, President, Fraser Valley Milk Producers' Association, Vancouver, B.C.
Appointment of Permanent chairman.
Chairman's Remarks.
- 10.30 a.m. Addresses—Hon. H. H. Stevens, Minister of Trade and Commerce. Hon. Robert Weir, Minister of Agriculture.
- 11.00 a.m., Greetings—W. A. Forster, President, National Dairy Council.
Introduction of delegates.
- 2.00 p.m., Subject:—Methods of handling or eliminating surplus production of Creamery Butter so as to prevent reductions in price levels on the home markets.
Recent losses to Canadian producers through surplus production of butter.
Attempts that have been made to control it.
The Patterson scheme in Australia. How it is financed and what it has accomplished.
Is a bonus scheme for butter production along practicable and how might it be worked?
G. W. Tovell, Secretary, Manitoba Cooperative Creameries, Winnipeg. Could a bonus be applied to the export of butter and cheese.
A. H. Mercer, Vancouver, B.C.
Is it practicable for Quebec and Ontario to reduce their production of butter (and increase the production of cheese) sufficiently to eliminate the surplus production of butter—L. A. Zufelt, Superintendent, Kingston Dairy School, Kingston.
Discussion led by H. S. Matjerson, President Glengarry Cheese Factory Patrons' Association, Apple Hill, Ont.
Appointment of committee to consider and report.
- 8.00 p.m.—Subject: Dairy Produce Boards. Their powers, financing and accomplishments.
The New Zealand, Australian and South African Boards.
Should we have such a Board in Canada? If so, how might it be constituted and financed?—H. B. Cowan, Editor-in-Chief, Farm and Dairy, Peterboro, Ont.
Discussion led by John McCaffrey, President, United Dairymen Cooperative Ltd.
Reducing production costs through eliminating of unprofitable cows. What other countries have done.—F. W. Lee, Springfield, Ont.
Discussion led by Henry Rive, Dairy Commissioner, Victoria, B.C.
Appointment of committee to consider and report.

THURSDAY, APRIL 20TH

- 9.30 a.m.—Subject: The Marketing of Whole Milk.
Results achieved so far by the Winnipeg Utilities Commission—Mr. F. O. Sargent, President, Winnipeg District Cooperative Milk Producers' Association, Winnipeg, Man.
The situation in British Columbia.—A. H. Mercer, Vancouver, B.C.
Open discussion led by E. H. Clarke, President, Ontario Whole Milk Producers' Association, Aurora, Ontario.
- 1.30 p.m.—Subject: Should the number of Creameries and cheese factories be decreased in order to reduce manufacturing and milk and cream collecting costs?
What New Zealand has done.—New Zealand Trade Commissioner.
What Australia has done.—Australia Trade Commissioner.
What Saskatchewan has done.—Dairy Commissioner, Percy Rised, Regina, Saskatchewan.
What savings might be effected.—J. R. Love, Manager, Central Alberta Dairy Pool, Alix, Alta.
The recent survey of cheese manufacturing costs in Ontario and Quebec.—R. J. F. Booth, Commissioner, Economics Branch, Department of Agriculture, Ottawa.
Recommendations of Quebec Dairy Commission.—J. F. Desmarais, General Manager, Cooperative Federee De Quebec, Montreal, P.Q.
Discussion led by A. J. Macdonald, Glengarry Cheese Patrons' Association, North Lancaater, Ontario.
Appointment of committee to consider and report this.
- 8.00 p.m. Committee Meetings.

FRIDAY, APRIL 21st.

- 10.00 a.m. Subject: How shall we deal with grocery stores which: Advertise 2nd grade butter, under trade name, as though it were first grade? G. H. Barr, Dairy Commissioner, Toronto, Ont.,
Sell butter at below cost for "leader" purposes? N. A. Larsen, Central Dairy Pool, Alix, Alta.
Sell milk at below cost.—P. D. McArthur, President, Montreal Milk Producers' Association, North Georgetown, Que.,
Discussion led by Hector Cutten, Vice-President, National Dairy Council, Truro, N.S.
Appointment of committee to consider and report.
- 11.00 a.m.—The exchange situation as it effects the exports of dairy products.
How it effects Australia, New Zealand and Denmark.
The Dominion Government's Arrangement to equalize exchange.
F. E. M. Robinson, former President, National Dairy Council, Richmond, Que.
- 1.30 p.m.—Reports of Committee.
Final Resolutions.

Appointed To Fill An Important Chair

R. B. MacLeod, M.A., Ph. D., former honour student of psychology and philosophy at McGill University and winner of a Moysie Travelling Scholarship in '27 when he obtained his Master's degree from McGill, has been appointed an assistant professor in psychology at Swarthmore College, Pa.

Dr. MacLeod, a graduate of the Montreal High School, entered McGill in 1922. He served as an assistant in the department of psychology under Prof. W. D. Tait and after graduation studied for a year in Germany with the aid of a Moysie Travelling Scholarship. Obtaining one of the largest scholarships at Columbia University, he continued his studies there for a year, and for the past two years has been an assistant at Cornell University. He takes up his new position next fall. (Montreal Star, April 6th).

Dr. MacLeod, who was born in Martintown, is a son of the late Rev. J. B. MacLeod and a nephew of Rev. D. M. MacLeod of this town.

Shower For Bride-Elect

Miss Margaret Rowe, R.N., and Mrs. John Rowe were joint hostesses on Saturday evening at a bridge and cup and saucer shower in honor of Miss Loretta MacDonald, R.N., of Wilkinstown, whose marriage to Mr. James Gormley, of Passaic, N. J., takes place the latter part of April. The room was tastefully decorated for the occasion with pink and white streamers and spring flowers.

Shortly after the bride-elect arrived a prettily decorated wagon was drawn into the room by Master Francis Rowe, son of Mrs. John Rowe, laden with very beautiful gifts.

Bridge was played at three tables. These prizes were won by Mrs. Guy Smith and Mrs. J. A. Tallon. At midnight delicious refreshments were served by the hostesses and all joined in wish the bride-elect much happiness.

—The Standard-Freeholder, Cornwall.

Fur animals in captivity, particularly foxes and mink, are subject to a disease similar in many respects to distemper in a dog.

The Stone Rolled Away

(G. Watt Smith)

There are always hindrances placed in the way of life. When the seal of the Roman officer was placed on the tomb of the Lord he considered that he had taken all precaution against the grave of the Crucified being tampered with by any of his foolish friends and sympathisers. But that seal also made a register of the collapse of faith on the part of his followers; the dream was now ended; the sun was set; darkness fell upon them all. The only thing that disappointed love could do was to place some fragrant spices about the dead body to retard the course of natural decomposition.

Yet that stone was rolled away; the seal could not withstand the gentle touch of angel hands and at this Easter time again we can lift up very glad voices because of the victory of the Lord who died a death of shame on the cross.

The centuries seem to be a wide space. Can we secure our faith by looking across them again? In these days when clouds and thick darkness seem to brood over all the earth and the nations are in daily dread of catastrophes the glad news that He has risen seems to smack of unreality. We are such stuff as fears compose.

Suppose we give ourselves heart by letting our minds travel over a period of time quite within our grasp. It would be possible to find two persons who by added years could report at second hand the incidents gathered from their fathers of what this world was one hundred years ago. To give a zest to the song of this season let us gather what they have to say about the world one hundred years ago.

The Reformed parliament sat for the first time then. Nearly a hundred and fifty members of about half a hundred rotten boroughs were given to the new towns and rural areas of Britain. The franchise was restricted but was liberal in comparison with the previous limited property qualification. A new age was beginning, which with all its faults, has written many golden pages into the story of our race. Slavery was abolished at a cost of twenty million sterling pounds, a step taken to put into practice the equality of mankind as sharers of the benefits of the earth as well as of the grace of the common Master. At that date no education grant was made by the mother of parliaments for education. She spent lavishly to blow brains out but had not yet begun to cultivate them in juvenile minds. It was thirty-seven years later that the Foster Education Act was passed and the age of State management of education began. Georgia was still cumbering the throne. Four years had still to run before one of the most wonderful reigns of all history was started with the young Victoria as monarch. Thomas Carlyle was writing his Sartor Resartus a prophet who proclaimed the salvation of men through the acceptance of the Everlasting Yea, laying his sturdy axe to the root of many a rotten tree and challenging men to seek righteousness in life and thought. Charles Dickens was composing his Pickwick Papers and giving delight to the public which he later harrowed to tears through his descriptions of the sorrows of the poor, the cruelties of bombastic officials, the harm and shame of intoxicated nurses. Stephenson's "Rocket" engine, weighing four and a half tons, made its initial trip over the Liverpool and Manchester Railway and won for its builder a prize bat for mankind a new form of locomotion at the staggering rate of thirty miles per hour. The first iron steamer was built and launched on the Clyde, the "Aglia" precursor of the leviathans of the ocean which have bridged the seas and brought mankind into neighbourly relations to each other. James Young Simpson was graduating as a doctor of medicine from Edinburgh and was already far on the way to discover chloroform and begin a new age in the fight for human life. David Livingstone was as yet at Blantyre, giving his mind to the duty of Christian people to let heathen peoples have the blessing of the gospel, planning a service to humanity which has opened a continent and set a standard of Christian duty for all subsequent ages. Canada was still Upper and Lower, but that year saw the appearance of the Fugitive Slave Act the corollary of which was written into the Constitution of the United States although not without bloodshed and the wastage of much valuable property.

Who can be so dead to the quickening story of the past century as to be held in a bondage of pessimistic fear of the future? When the news spread that the Lord had risen there were set free forces of life, making for good

Surprise Party Staged by Winnipeg Glengarrians

The home of Duncan McCuaig, 254 Woodlawn Street, Deer Lodge, Winnipeg, Man., was the scene of a pleasant surprise party recently, arranged by a group of friends in honor of Mr. McCuaig's birthday, when an enjoyable time was spent in music and dancing. During the evening, a presentation was made to the guest of honor, Mrs. M. Savage, daughter of Mr. and Mrs. Kenneth McLeod of Portage la Prairie, Man., read the address, while John Dewar and A. J. Dickson presented Mr. McCuaig with a chair and cushion. The address was as follows.—

Dear Mr. McCuaig:—
Your friends who have gathered here in your home this evening, with the intention of surprising but not dismaying you and your family, on the occasion of your birthday, wish to extend to you their heartiest congratulations and sincere wishes for many more birthdays for you and continued good health in the years to come. In honor of the day, in token of our kindly feeling of friendship for you and as a means of recalling to you memories of this invasion of your home, we ask you to accept this chair and cushion. It is the earnest wish of all assembled here that in it you may spend many happy and comfortable hours.

Those present were, Mr. and Mrs. John Dewar, Mr. and Mrs. H. Dykes, Mr. and Mrs. F. McCuaig, Mr. and Mrs. A. J. Dickson, Mr. and Mrs. Duncan Morrison, Mr. and Mrs. H. Reynolds, Mr. and Mrs. Van Smith, Mr. and Mrs. M. Savage, Mr. and Mrs. W. D. Steele, Mr. and Mrs. Alex. Taylor, Mr. and Mrs. Fred Thompson, Mr. and Mrs. H. Thornton, Mesdames W. R. McLeod, J. R. Irvine, Geo. McDonald, Jessie McCuaig, A. McNabb, Jas. Reynolds, Kliever, Misses May McLeod, Margaret McFadyen, Lottie Bate, R. Ritchfield, Catherine McCuaig, Jean McNabb, Florence McCuaig, Catherine McLennan, Betty Picken, "Bill" McCuaig, A. Christopher, Hilda McMillan, Inez McCuaig, Helen McCallum, Margaret McCuaig, Mary A. McCuaig (Portage la Prairie), Messrs. Jack McDonald, Dan McLeod, Jack Adams, Alex. McDonald, Gordon Tod, Dan Morrison, V. C. Grant, Peter Delaney, Duncan McCuaig, W. Cross, Murdoch J. Campbell of Sault Ste. Marie, Ont.

Holy Week Services

His Excellency the Bishop of Alexandria pontificated at Mass and consecrated the Holy Oils in St. Finnan's Cathedral, yesterday morning, Holy Thursday.

The High Priest was Very Rev. Duncan Macdonald, V. F., Deacons of honor, Revs. A. L. Cameron, Duncan MacPhee; Deacon of the Mass, Rev. R. Rouleau, Subdeacon of the Mass, Rev. J. Wylie; Deacons of the Oils, Revs. A. Goulet, A. Lalonde, C. Bishop; Master of Ceremonies, Rev. Ewan J. Macdonald; Assistant Master of Ceremonies, Rev. R. J. Macdonald; Priest in the sanctuary Rt. Rev. A. McRae, V.G.; Rt. Rev. D. R. Macdonald, D.P.; Revs. M. J. Leahy, R. A. Macdonald, D. D. McMillan, D. A. Campbell, Chas. McRae, J. W. Dulin, J. J. Macdonell, Corbet McRae, A. L. Macdonald, C. P. Gauthier, D. Secours, J. H. Bougie, J. A. Brunelle, G. Cochet.

Good Friday—Mass of preannounced at 8 o'clock. Way of the Cross at 3 o'clock.

Holy Saturday ceremonies start at 7 a.m.

Easter Sunday—Pontifical Mass at 10 a.m.

Concert at Apple Hill

On Friday evening, April 21st, in the Parish Hall, at Apple Hill, Ont., a high class entertainment will be staged by the young people of St. Anthony's Parish. Those who hold tickets for a previous postponed concert are entitled to admission. The general admission to this event is 25c, reserved seats 35c.

which have sometimes appeared as only a trickle; seldom have been a strong current, but they have never turned back. During this time of trial when so many of the cherished joys of existence appear to pass from us let us note the parallel set before us not by what was nineteen hundred years ago only; that seems ephemeral; but at the closer range and we shall sing a cheerful song, fortified by well established faith that in the world there is a Living Lord who is over all.

There have been no cases of sheep scab in Canada for four years.

Mr. Stevens Talks Tariff

By R. J. Deachman

Hon. Harry Stevens, Minister of Trade and Commerce, spoke on the Budget the other day.

The gentleman isn't exactly what he used to be. This is no reflection upon Mr. Harry, Statesmen generally have their good points and their bad. Some shine at one thing and some at another. Mr. Stevens spent quite a long time in opposition. While there he developed a certain type of speech. His strong note was his capacity for expressing moral indignation. At that task he was amazing. It made no difference what the subject was—the drum-fire of denunciation rolled on from exordium to peroration culminating in a tremendous concentration of attack always ending in the note of the faithful parent to the recalcitrant child, a sort of "it-hurts-me-more-than-it-does-you" grand finale.

Mr. Stevens put on Hansard a page or two of figures which ought to have brightened up the smiles on the faces of the gargoyles which adorn the ceiling of the House of Commons. For instance he was demonstrating the increase which had taken place in our imports from the United Kingdom in the ten months ending Jan 31 in comparison with the ten months of the previous year. No one knows just why he put these figures on record. Perhaps it was an attempt to prove that we brought more of some things from Great Britain last year than we did the year before. Of course that always happens. But what is the significance of the particular items he mentions? Just why should the Canadian people want to import 133,587 gallons of castor oil this year and only 74,583 the year before?

Does our importation of castor oil from Great Britain necessarily demonstrate the success of the Bennett administration? No doubt experts could prove the vitamin content of castor oil and the increased importation might mean that there was less sunshine and more gloom in the past year and therefore the necessity for added vitamins.

Then I find that we imported 31,300 pounds more handkerchiefs in the ten months ending January 1933 than in the corresponding period last year. Allowing 16 ounces to the pound and 10,000,000 people in Canada, it seems to work out at one-twenty-fifth ounce more handkerchief per person. What does that mean? Probably increased colds, possibly the fact that the government had made handkerchiefs, imported from other countries, more costly and therefore we had to buy them from Great Britain. But it is a very strange situation which finds a Minister with a flare for the spectacular in defence of his government announcing an increase in importations of castor oil and pocket handkerchiefs!

Nor was the hon. gentleman more happy when he was explaining our increased exports. Here, however, the details stand out with all the spectacular character of a Hollywood movie sign. Think of it ye voters! There was an increase of 151,500% in our exports of castings last year to Great Britain. Lard compounds went up 2,548.8% animal fats 19,823.9%. Alas! lobsters canned, though more important in value than all the others, had to be content with 1.9%. But taking the total—

(Continued on page 6)

Budget Carried In Three Votes

Ottawa, April 11.—By a vote of 107 to 72, a majority of 35 for the Government, the Rhodes Budget was approved by the House of Commons tonight, and the House went into Committee of Ways and Means with the prospect of several amendments being introduced by the Minister of Finance to the fiscal proposals as originally introduced on March 21.

The division bells rang shortly before 11 o'clock as the listless debate dragged to its close. Departing from the usual procedure, the House Leaders did not speak at conclusion of the debate.

The first division occurred on the subamendment of W. T. Lucas, U.F.A. member for Camrose. This was rejected by 171 to 13, solid ranks of Conservatives and Liberals uniting to bury it under an avalanche of adverse votes. They came the vote on the Ralston (Liberal) amendment. This the House declined to accept by a vote of 119 to 63, at least a dozen Progressive, Labor and C.C.F. members voting with the Government and against the Liberals.

When the House divided on the main motion, however, the only member of the third party to line up with the Government was A. M. Carmichael, while all the rest voted with the Liberals.

Province Split into 90 Ridings

(Canadian Press)

Toronto, April 11.—Reduction of 23 seats in the Ontario legislature was definitely announced, late tonight when the report of the select committee which has been studying the representation question was presented to the House. Boundaries of the ridings are contained in a schedule which is now being printed and will not be available until later.

The committee, in effecting the reduction of 22 seats in the present membership of 112, has used as its distribution basis a minimum population of 25,000 for a rural riding and of 50,000 for an urban constituency.

In the redistribution, Toronto will lose two of 15 seats; Ottawa, Hamilton and London will drop one each. In the North, Algoma and Manitoulin have been merged, as are Nipissing and Sargoe Falls.

Brant, the constituency of H. C. Nixon, Progressive leader, will remain as at present, while Brantford seat of Hon. W. G. Martin, minister of public welfare, will also be unchanged. Elgin Lanark, Oxford, Perth and Dufferin will have one seat each. Dufferin is no longer an individual riding.

Mergers have been effected in South West Simcoe, North Ontario, Leeds, Brockville, Lincoln, St. Catharines, Prince Edward and Lennox Frontenac. Three ridings had been made out of the two Hurons and two Bruce. An entirely new combination is that of Norfolk-Haldimand, Northeast Wellington will be known as North Wellington and West Middlesex has been re-named South Middlesex.

The 90 ridings provided are as follows: Addington, Algoma-Manitoulin, Brant, Brantford, Bruce North, Carleton Cochrane North, Cochrane South, Dufferin-Simcoe, Durham, Elgin, Essex North, Essex South, Fort William, Glengarry, Grenville-Dundas, Grey North, Grey South.

Haldimand-Norfolk, Halton, Hamilton East, Hamilton Center, Hastings East, Hastings West, Huron South, Huron-Bruce, Kent East, Kent West, Kenora, Kingston, Lambton East, Lambton West, Lanark, Lincoln-St. Catharines, London.

Middlesex North, Middlesex West, Muskoka-Ontario, Niagara Falls, Nipissing-Sturgeon Falls, Northumberland Ontario South, East Ontario, South Ontario, Oxford, Parry Sound, Peel, Perth, Peterboro, Port Arthur, Prescott, Prince Edward-Lennox.

Rainy River, Renfrew North, Renfrew South, Russell, Sault Ste. Marie, Simcoe Center, Simcoe East, Stormont, Sudbury, Temiskaming, Victoria.

Waterloo North, Waterloo South, Wellington North, Wellington South, Welland, Wentworth South, Wentworth-Hamilton, Windsor East, Windsor West, York North, York South, York East, York West, Toronto (13 seats, a loss of two).

Glengarry—To consist of the county of Glengarry and the Township of Caledonia and that part of East Hawkesbury Township lying south of the original road allowance between Concessions 4 and 5 and the town of Vank-leek Hill.

Prescott—To consist of the Townships of Alfred, Clarence, Cambridge Longueuil, Plantagenet North, Plantagenet South, that part of the Townships of Hawkesbury East and Hawkesbury West lying north of the original road allowance between Concessions 4 and 5, the towns of Hawkesbury and Rockland and the villages of L'Orignal and Casselman.

Easter Postal Arrangements Are Announced

Easter week-end postal arrangements are as follows, according to a statement issued by P. Poirier, postmaster:—

Both on Good Friday and Easter Monday the general delivery wickets will be open only from 9.30 till 10.00 a.m., from 11.00 till 12.00 noon and from 6.00 till 8.00 p.m.

The public lobby will be open to box-holders up till 12.00 noon and from 6.00 till 8.00 p.m.

All correspondence posted up to noon on either holiday will be despatched to destination at the usual hours. There will be no rural courier service on Good Friday but the usual courier service will be performed on Easter Monday.

In the average Canadian home, the most important breeding place of the clothes moth is in the hot air furnace pipes amongst the fluff brushed through the radiators.

Graduation Exercises Of Nurses

The Graduation exercises of the Lachine General Hospital, were held in St. Andrew's Hall, Lachine, at 8.30 p.m., Wednesday, March 22nd, when the following nurses received their diplomas and medals: Miss Ruby MacMillan, Miss Annabel MacIntosh, Miss Isobel Lunt MacMillan, Miss Anne Louise Henry.

The evening's programme was as follows:
Music—Orchestra (Dominion Engineering Werke Ltd.)
March (entrance of nurses) Orchestra.

Introduction—Mr. A. Wilson, President Hospital Board.

Solo—Miss F. Smart.
Address to Nurses—Dr. E. H. Henderson.

Presentation of Diplomas and address—Dr. J. D. Dixon.
Florence Nightingale Pledge.

Music—Orchestra.

Presentation of special prizes—Case of surgical instruments, donated by Ladies Auxiliary for highest marks, presented by Mrs. E. Lytle to Miss Annabel MacIntosh.

\$10.00 Gold Piece, donated by the V.O.N. for general proficiency, presented by Mrs. R. Wilson to Miss Anne Louise Henry.

Solo—Miss F. Smart.

The graduating class presented Miss Brown, Superintendent, with a travelling case, Dr. Brooks presenting same. The interesting proceedings terminated with the singing of The National Anthem.

Decision Given in Old Montreal Case

London, E.C., April 10.—The Canadian Department of National Revenue today partly lost its battle for more than \$122,000 in taxes on the accumulating estate of the late Duncan MacMartin, of Montreal.

Their Lordships of the Judicial Committee of the Privy Council allowed in part the appeal of the estate's executor, John B. Holden, from a ruling of the Supreme Court of Canada. The ruling directed that the judgment of the Supreme Court should be varied so far as it confirms the assessments on the estate and directs payment of costs. Instead it gives directions for remitting the assessments to the Exchequer Court of Canada for adjustment. The respondent—the Canadian Government—must pay two-thirds of the costs.

The battle between the Government and the estate was fought through the highest of the Canadian courts. Duncan MacMartin died in 1914. He left an estate which was allowed to accumulate for the benefit of the widow and two sons and a daughter, the latter residents of the United States at the time the department took action. The tax demanded amounted to \$40 in 1917, but had grown to \$122,000 in 1923, according to the department's claim.

The Exchequer Court decided against the department, taking particular note of the fact the beneficiaries were not residents of Canada, but on appeal the Supreme Court reversed the decision.

Coming Engagements

April 17—Euchre and dance, Highland Society Club Rooms, Alexandria.

April 19—Political Meeting, Alexander Hall, Alexandria.

April 20—Old Time Glengarry Dance, 1550 Guy St., Montreal.

April 21—Social Evening and Card Party, Alexander Hall, Alexandria.

April 26—Euchre, Township Hall, Quigley's Corners.

April 28—First Annual Dance "D" Company 154th S.D. & G. Highlanders, The Armouries, Alexandria.

School Report

S.S.S. No. 8 KENYON

Names in order of merit.
Form I—Ruby Sabourin 75%.
FORM II—Dorothy Sabourin 68%.
Form III Jr.—Peter Boudreau 82.7%, Clarke Da Prato 80%, George Campeau 74.1%, Marie Sabourin, George Sabourin, 57.1%.
Form III Sr.—Sarah Sabourin 66.5%.
Form IV Jr.—Germaine McMillan 83.6%, Eva Cardinal 80.4%, Andie Cameron 72.7%.
IV Sr.—A. D. Cameron 87.3%, William McPherson 80.6%.
INEZ M. McDONALD, Teacher.

Of Interest to Farmers

DIRTY SEED A MENACE

"Dirty seed" is defined by the Dominion Seed Branch as meaning seed that contains noxious weed seeds in such quantity as to pollute the land with weeds that are difficult and costly to eradicate. One of the principal mediums for the distribution of weed seeds in Canada is dirty seed, particularly clover and grass seed, because of the fact that most of the noxious weeds have seeds of about the same size and shape as the seeds of clovers and grasses, and hence are difficult to remove. This reason alone should be sufficiently important with the intelligent farmer to ensure the preference which is due it for inspected seed.

REDUCING DISEASES OF POTATOES

During recent years, experimental results secured by the Division of Botany of the Federal Department of Agriculture, have suggested important limitations of tuber treatment in controlling such prevalent diseases as common scab, black scurf and stem canker, and black leg. This is because the organisms, causing these three diseases, are normal inhabitants of the soil. Therefore, the amount of disease which occurs must depend very largely on the infestation of the soil and environmental conditions, and not on the amount of the organism which may be added by the seed piece. Old soils are apt to carry a greater infestation of these parasites than virgin soil does. Therefore, it would be safer to disinfect tubers when using virgin soils. Of course, seed treatment will effectively dispose of the fungi which are on the surface of the tuber in the case of common scab and black scurf, but it cannot hope to kill the bacteria which cause black leg, because these are within the tuber. With regard to the virus diseases, tuber treatment cannot be effective, because the casual agent persists in the juice of the plant and the tuber. Present evidence suggests that, in the absence of a suitable resistant variety, crop rotation is a desirable method to reduce common scab, black scurf, and, to some extent, black leg. Probably the best method for reducing black leg is to plant tubers that are free from this disease. The only method now available to reduce and control the highly important virus diseases which cause the stock to "run out," is to use seed free from these diseases. The Federal Department of Agriculture, through its inspection system, makes available seed potatoes, certified with regard to disease content.—G. B. Sanford.

ALL-YEAR-ROUND HOG CABIN

With portable cabins the average swine-grower can supply adequate year-round housing at minimum cost. Whether the herd is made up of one or one hundred sows, such a cabin will be useful three hundred and sixty-five days in the year. The right kind of hog cabin must be portable, durable, and cool in summer. Therefore it must be relatively light, built on runners, and provided with hinged sides for the free passage of air. For winter use it must afford adequate shelter with securely fastened sides and hinged sections. In the case of the hog cabin, it has been proved that the cheapest method is the best, therefore the cabin should be built of rough lumber.

The hog does not require an expensive home. Not only that, but best results are actually obtained from the cheaper equipment. Two or three cabins, a box-stall for the farrowing sow, will supply the necessary housing in the case of the farmer who grows a few hogs. More specialized hog raising necessitates the more expensive piggery. Experience has shown that healthy, vigorous litters may be obtained from breeding stock housed outdoors during the winter, and that small, weak litters frequently result where the parents are housed in so-called comfort. Further, rheumatism and crippling are rarely, if ever, found in the "out-door" pig. Breeding stock of all ages will thrive in this semi-outdoor life for it is to be remembered that the cold of winter is less injurious to a young pig than lack of shelter from the intense heat of our Canadian summers. In circular No 78, published by The Dominion Department of Agriculture, full details are given with illustrations, specifications, and list of lumber required to build a hog cabin for all the year round.

CORN

Corn for ensilage is still of considerable importance on a great many farms in Eastern Canada. During the season of 1932, the Division of Forage Plants, Central Experimental Farm, Ottawa, conducted a tests in which careful comparison was made of a number of corn varieties commonly grown for ensilage in Eastern Canada, in addition to several that are not so commonly grown or so well known.

Judged from the standpoint of yield, the varieties ranked in the following order:—

Dents—Wisconsin No. 7, Golden Glow, Leaming and Bailey.

Flints—Compton's Early, Longfellow, and Salzer's North Dakota.

All varieties were cut at the same stage of maturity, the "late dough" stage, and were presumably equal in quality. Wisconsin No. 7 yielded better than any other variety. Compton's Early yielded equally as well as Golden Glow, Leaming and Bailey and since the flints were harvested one week earlier than the dents this variety should be given the preference in districts where the season is somewhat short for using the dent varieties.

The main difference between dent and flint varieties for ensilage purposes (apart from yield) is in the production of suckers; the flints sucker very freely while the dent sucker very little, if at all.

Corn for grain is not of very great importance in Eastern Canada, except in southwestern Ontario, where the standard varieties for grain are those already discussed for ensilage purposes.

In addition to the ensilage test mentioned above, a test was also conducted at Ottawa to de-

termine the best varieties of corn for grain production in districts in Eastern Canada with conditions similar to those prevailing at Ottawa.

The varieties, Quebec No. 28 (a 12-rowed flint) and Twitchell's Pride (an 8-rowed flint) gave the best results in this test, both of them being quite outstanding in both yield and maturity.

Further details of these tests can be had by writing to the Division of Forage Plants, Central Experimental Farm, Ottawa, Ontario.—F. Dimmock.

LESIONS ON THE LAWN

The soothing vista of fresh green lawns in the shade of leafy avenues is the one great asset of beauty that distinguishes Canadian residential districts from the drab suburban disinterest of towns in less enterprising countries. By the same token, this Spring is to be a busy one for the Canadian home beautifier. During the past winter with its comparatively light covering of snow, ice has played havoc with the lawns. Bare patches are gaping here and there.

In this connection, it is interesting to note the restoration methods of leading Canadian horticulturist, famous also for the lawns around his home. First of all, he rakes the bare spots clean, and, if necessary, adds a modicum of good, healthy soil. He sows the seed, rakes it gently into the mould, rolls it, and takes great care to keep the bald places moist, as indeed he does to the whole of the lawn. The slight raking and rolling brings the soil and the seed into intimate contact, thereby ensuring rapid germination. By the time the grass is three or four inches high, it will have sufficient root-hold to withstand the operation of a lawn-mower in common with the rest of the lawn. For the first cutting of the new grass on the erstwhile spots, the machine is set rather high. The blades should be very sharp and and well set to avoid pulling out the young grass. As a rule, however, the lawns of this horticulturist stand the winter well, for the simple reason that in the late fall, October or November, he takes the precaution to spread fertilizer-bone meal or commercial sheep manure—and roll the lawn thoroughly. If necessary, a sprinkling of seed may be opportune, followed by another intensive rolling.

For the renovation of old, worn out lawns, the use of a good fertilizer is imperative, and as regards seed, the usual grass mixture sold by leading seed firms is generally satisfactory. A very good mixture for Canada, however, may be made of Kentucky Blue Grass and White Dutch Clover at the rate of 35 pounds of the former to one pound of the latter. In making a new lawn this is enough to cover half an acre, but for small lawns one ounce of this mixture is sufficient for three and a half square yards.

As a lawn is more or less a permanent factor, everything depends on the initial foundation. To make a fine lawn it is important that the soil is of a good class, enriched with well rotted yard manure. If this is not available there are many effective commercial fertilizers recommended by seedsmen, but a very satisfactory mixture may be made up of nitrate of soda, one half pound; sulphite of potash, one half pound; and the superphosphate and ground bone, one pound of each. This quantity mixed well is sufficient for 100 square feet of surface. In seeding, either for renewing old patches or for making a new lawn, a calm day should be chosen.

CULLING THE FLOCK OF SHEEP

With the lambing season on, or coming on, and with shearing not very far away, the farmer comes in more or less contact with the individual members of his flock, and a little close attention at these times in tagging individuals for culling is well worth while.

Udder troubles are fairly common and show up most prominently following lambing. Udders that give trouble one season in all probability will give more trouble the next, and in most cases these ewes should be tagged for disposal.

Ewes that fail to conceive should also be marked for early disposal unless, due to the large number of failures, the ram is indicated as being at fault.

Certain ewes make much better mothers than others and if notes or records are kept of this it will also assist in selecting individuals for culling. Some ewes are wild and flighty and a continual source of nuisance. The disposal of these may add greatly to the peace of the flock.

At shearing time a close observer will be able to make good selection of various individuals as to breed type and to quality of the wool. While wool prices are low it is all the more important to try and improve the quality and quantity, and a great deal of information in this respect can be gathered at shearing time.

In the shearing flock of Hampshires at the Dominion Experimental Station at Windermere the range in weight of fleeces ran from 8.5 pounds to 15 pounds with the average weight being 10.8 pounds. At prices received in 1932 for the wool there was a difference of approximately 45 cents in value between the high and the low fleece. While feeding has an influence on the quantity and quality of the wool, breeding and selection are undoubtedly the biggest factors, and a great deal may be done by culling ewes with poor fleeces, and by using rams with outstanding qualities in this regard.

At shearing time the quality of the fleece can be most readily observed and selections made accordingly. Black hair and wool are some of the most undesirable features, while length, density, quality and lustre are important considerations.

In times of adversity it is all the more important that farmers by breeding and selection should improve the quality of their product, and this selection is possibly most easily made at lambing and at shearing time. R. G. Newton, Supt. Ex. Station, Windermere, B.C.

Southerners Who Made Homes in South America

Most of the southern sympathizers who moved to South America after the Civil war settled in a few colonies, chief of which were Para, Espirito Santo and Sao Paulo. One of these in the province of Para was situated at the mouth of the Tapajós river. Many of the settlers eventually returned to the United States. There were a few, however, who remained and who were apparently successful. A larger and more prosperous colony of southern exiles was situated 300 miles north of Rio de Janeiro in the province of Espirito Santo. However, the largest number of Confederate settlements were made in Sao Paulo and it is believed that ultimately these settlements were the most prosperous. The colony at Santa Barbara in Sao Paulo was so successful that even in 1927 and probably today there were several traces of its existence. It was known as the Villa Americana, but nearly all persons of North American birth or lineage have moved to cities or purchased plantations in the rural districts.

Nature Responsible for Bestowal of Talents

Every anatomy is defective somewhere. Reasoning by analogy, can we expect perfect intelligence in ourselves or in others? Scorn for the moron seems to imply that we think that the moron, by taking thought, might cease to be one. Let our own deficiencies make us charitable. Do we comprehend the Einstein theory; do we know what the financial columns on the market and business pages mean to a degree that we can make money by them as some do; could we invent anything mechanical? What is the capacity of our mind?

Providence bestows upon us our talents as it bestows upon us our arms, legs and internal organs to be used as we best know how. If we have "that kind of a brain"—among our other "internal organs"—that is the kind of brain we have. Whom does it become to be harsh about the wits of others?—F. H. Collier in the St. Louis Globe-Democrat.

The First Parasol

The Biblical expression, "The shelter which defends from the sun," would almost suffice to demonstrate the oriental origin of the sunshade. But in China, where it is said the parasol was used 2,000 years B. C., there is a legend that fixes the invention with the wife of the carpenter, Loupan.

"Sir," said this incomparable spouse to her husband, "you make with extreme cleverness houses for men, but it is impossible to make them move, whilst the object which I am framing for their private use can be carried to any distance, beyond even 1,000 leagues."

And Loupan, stupefied by his wife's genius, then saw the unfolding of the first parasol.

Far From Madding Crowd

The world's loneliest couple, a shepherd and his wife live in a desolate stone hut a few miles from Newton Stewart, Scotland. Their primitive habitation is located on the hills of Galloway and cut off from the world by impassable moss bogs. The inhabitants of Bargrennan, the nearest village, know the couple are still alive only by the weekly visits of a weather-scarred pony, which ambles into the village and halts at the door of the general store. The storekeeper loads up the primitive pannier on its back and sends it off to the solitary cottage on the hillside with the week's provisions. The pony is the only living thing that can pick its way through the deadly bogs.

Talking It Over in 1880

"If you don't accept him you'll probably be an old maid. You're not getting any younger. Twenty your next birthday. Who wants to marry a girl twenty-two or twenty-three? You can't afford to wait any longer. He's forty years old. You couldn't ask a better age. You'll look his age when you're twenty-five. For the next five years you'll look younger than he does. Five wonderful years. He earns \$30 a week. You could live in luxury. And he has a horse and buggy. I don't know what's the matter with the girls nowadays. In my time a prize like Filbert would never be kept dangling."—Kansas City Star.

Valencia, City of Joy

When the Moors were in Spain centuries ago, they used to call Valencia "the City of Joy," and while there may be other cities in the world which appear to deserve the same title, no one can go to the City of the Cid, even in winter, and not find it true to its name. Here amid white, gold and blue-tiled roofs, green gardens, orange groves, farms hidden in old olive orchards and bridges over quiet waters are scores of vestiges of the Middle Ages and even memorials of the days when, 138 years before the Christian era, Valencia was first founded.

Grin Better Than Growl

The grouch may be a necessary pest, like a flea on a dog, but neither gives any contribution to life other than to make it miserable. Turn up the corners of your mouth for a change and watch your spirits rise in proportion. It is just as easy to grin as it is to growl.—Grin.

Propagation of House Plants

Most house plants, like geraniums, coleus and beliotropes, are propagated from cuttings, commonly called slips. A cutting is a branch or a piece of a branch taken from some part of the plant of recent growth. The length of the cutting depends on the variety of plant that is being propagated. Old branches should never be used for this purpose, because old wood is usually tough. Neither is new growth desirable, as it is apt to become soft before callus is formed. A callus is a hardening of the end of a cutting, and is the first stage in root development. Unless a successful callus forms, root developments never take place.

A cutting in which the wood is neither very brittle nor very tough is the type to root well. Try to make the cut through an eye or node of the branch. Usually cuttings should be made three to four inches long. Always use a sharp knife for this purpose, as a dull knife is apt to cause ragged ends, and these are apt not to root. Never depend upon breaking off a cutting unless it is a branch which can be removed from the parent plant intact, in which case breaking is preferable to cutting. In making a geranium or chrysanthemum cutting it would be an advantage to cut away about three-quarters of each remaining leaf. Also cut away the small wings that appear at regular intervals at the base of the leaves. These are apt to retard the rapid development of roots and other growth.

Cuttings will root more readily if planted in clean, sharp sand. A cutting bed must be kept damp at all times, insert the base of the cutting in the sand, making it firm by pressing the sand against it. Although the sand must be kept damp, never permit water to collect in the bottom of the vessel. It is also well to cover the cuttings with newspaper to shade them. Place the cutting bed or pan in a warm, light place until after they have rooted. When the roots are about one inch long, the cutting is ready to be potted.

Some varieties start to develop roots at the end of one week. Others may take from 10 days to three weeks, depending upon the thickness of the bark. English ivy and tradescantia can be rooted in water, in which case it is well to handle the branches as little as possible. Place the receptacle in a

north window, and keep adding more water as the water evaporates.

Crotons are grown from cuttings of half ripened wood, these cuttings should be started between October and June. The cutting bed should be placed in a warm, moist atmosphere. Crotons should always be kept in a sunny location, the best colors are obtained in the foliage when the plant is exposed to full sunlight. Sansevieria can be propagated from leaf cutting inserted vertically in a sandy soil. It requires about a month for these cuttings to form roots. The cuttings of geraniums should be taken in March or early April. In order to have these plants bloom in winter they should not be permitted to develop flowers during the summer. When the plant is about Nip out the top of the shoots, and continue this process until there are at least six branches started near the base of the plant. If nipped back when five inches long, these will also put forth branches, and the result will be a beautiful specimen.

Cineraria, Cbrestmae peppers, Jerusalem cherry, and primroses are all grown from seed sown in winter or early spring. In the case of primroses never place young plants in large pots. A four inch pot will be large enough for a six months' seedling. Also remember when potting a primrose to set

the plant rather high. Let the soil around the plant slope toward the edge of the pot so that the water will run away from the crown.

Slipping a ficus (rubber plant) is a simple operation. Select a terminal branch with five young leaves. Take a sharp knife and make a diagonal incision through the stem, three-quarters of an inch in length. Then take a small piece of a broken match stick, and place this in the wound to keep the sides of the incision from adhering. Next, with soft string bind some damp moss around the incision. The bandage when completed should be the size of an apple. Keep the moss damp, and watch it. At the end of six weeks or so threadlike roots will appear on the outside of the moss. This will mean that the time has come to unbind the moss, and then remove what will then be a well-rooted young rubber plant. Pot it as soon as possible in a soil composed of good loam, sand, and moss, equal parts. The plant should immediately begin to show signs of growth. Keep the plant in a cool, shady place for a few days.

GLAD TAUGHT

I know of things—not just a few, But, oh! so many, many of them— That someone really ought to do, And I'm not doing any of them.

Turtle For Two.

The turtle was "in clover" when this picture was taken, and "in the soup" shortly after. The background study in black and white is provided by the Misses Marion Webster and Helen MacKay, of Montreal, on board the Canadian Pacific liner "Empress of Britain", in which they cruised around the world. The turtle, like many other rare and exotic delicacies consumed by four hundred passengers during their 30,000 mile cruise, only went part way.

Two Lines of Cars

Two Price Ranges

One Standard of

Quality . . .

both give you

FISHER NO-DRAFT VENTILATION

NO more drafts, chills, or foggy windshields! Both lines of new Chevrolet Sixes—the Standard and the Master—give you individually-controlled ventilation. Both give you the same high quality which has made Chevrolet Canada's largest-selling motor car. Plus savings in first cost and running costs that no other low-priced Six can match! In fact, you can own a new Chevrolet for the lowest purchase price of any full-size, closed Six on the market! Easy GMAC terms.

GAY STYLES FOR SPRING

Spring comes so gayly, bringing new life and beauty to all the earth and this year it brings fashions gay with color and charm and full of good cheer. Dame fashion is doing her best to end the depression, for her colors alone are so gay that they help to brighten every corner.

Every season brings us lovely new materials. This season there are the new knitted jerseys that look so much like tweed and feel as soft as swans-down. These are nothing like the old jerseys which had a tendency to sag and stretch. They keep their shape. Then there are some smart English tweeds more supple in texture and lovelier in color than ever before. An Angora variety, which is much used in suits, is very hairy and firmer than those shown in the past. Silks have some features that make them resemble wool. A silk crepe, with rough surface and with crinkle weave, looks more like wool than silk. Silks are showing plain colors, stripes, plaids, flowers, twin prints, and odd geometric designs. Satin is much used for separate blouses for suits. The ever popular wool crepes are shown in lovely colors and in new light weaves, which often feature slight irregularities. This material is in high favor for spring dresses and was especially featured by professional designers.

Leading Parisian designers are using cotton for suits, dresses, and evening gowns. A new process for treating cotton materials so they do not crush or muss, has recently been invented. As that has been the greatest drawback to cotton, it seems certain this will insure great popularity for cotton materials.

One could write an entire article on sleeves alone for they show such wide variety that it is hard to choose between them. Many of the skirts are continued up above the normal waist line, making them appear longer than ever. For afternoon they may be quite long but sport clothes may be twelve inches from the floor.

The ever handy ensemble is still with us and will be all summer. You may have it of wool, silk, or cotton but be sure to have at least two in your wardrobe. With several smart blouses one can have so many changes.

The double duty dress is shown in all the shops for afternoon and evening wear. It consists of a very pretty, dressy frock with short sleeves and a pretty jacket which may be worn in the daytime and left off for evening.

It has been many years since such charming and youthful styles were featured for young girls. The jumper dress is the great favorite and its possibilities are endless.

Now let us take a look at the new coats for women and girls. Many of them are three quarters length with a tendency to hang loosely from the shoulders. Full length coats that completely cover the skirt are, of course, always perfect with sport things. Then there is the very short coat that ends abruptly at the waist line, and made of leather and of suede fabrics.

Distinguishing features of 1933 coats are broad shoulders, but not padded; new high neck lines, formed by scarf collars that can be worn in several ways; sleeves with new fullness at the elbow; and lavish use of metal buttons. The suggestion of width across the shoulders is given by clever cutting, by a deft pleat or by a new way of setting the sleeves.

Materials for these coats are straight weaves, pebbly wool crepe, all kinds of tweeds, a new mixture of wool mohair sometimes called angorado, suede cloth, and flannels. The general effect of these coats is to make one look tall and willowy. Many coats have capes, most of which are detachable. This gives the wearer the appearance of having two coats instead of one, for when the cape is removed, wide revers are exposed to view and the coat looks entirely different then.

One most important feature of this season is the silk scarf, which adds such a chic note to most of the coats. Sometimes this scarf matches the lining of the coat and then again it may be entirely different from both coat and lining.

Blue is the favorite color this season and there are many different shades of it, but that good old standby, navy blue, leads them all. Then of course there are black, brown, tan and gray. We find the younger girls wearing checks and plaids of blue, brown, or black, combined with white.

Now let us take a peep at the new spring hats to wear with these coats. They have shallow crowns and small brims and still hug the head. Some crowns have an elastic woven in, which gives a perfect skull hugging effect. These hats are worn exactly parallel with the eyes and both eyes are seen once more. After a winter which would lead you to believe most women only had one eye, this certainly is a most welcome change. These hats are pulled down low on the forehead and many of them turn up at the back.—Mary B. Hartman.

A GOOD SLOGAN

"Start the day the healthful way—eat an egg!" This slogan won first prize in the slogan and essay contest sponsored last year by the National Poultry Council. The ten best essays from each state competed in the national contest.

The first prize slogan, quoted above, was written by Miss Rose Marie Collins, Connecticut. Miss Collins' essay, written to explain her slogan, was in verse form. It follows:

You can feed 'em corn or wheat
And the most delicious meat,
You can serve in style the carrot and the beet;
You can tempt their appetites
With elaborate, dainty bites,
And make their meals a series of delights;
But—tell your family—
"Start the day
The healthful way—
Eat an egg!"

Would your vitamins include
When preparing daily food?
Have it easily digested, balanced, good?
Is it protein in the diet?
Fat, or minerals?—Eggs supply it:

A protective, wholesome food.—
You'd better try it!

So—Tell your family—
"Start the day
The healthful way—
Eat an egg!"

HOUSEHOLD SUGGESTIONS

Boiled Water

Boiled water will lose that flat taste if poured back and forth from one pitcher to another or shaken in a large bottle.

An Eye for Comfort

Use low flower containers for the dining-room table. Flowers quickly lose their lovely effect if we cannot see over them to the other members of the party.

For Those Rompers

Soap dyes are invaluable to the mother who has a baby in rompers. It takes so much force to get the soil out of those rompers that frequently the color comes along with it. A soap dye will bring it right back so easily and the rompers will be fresh looking once more.

Reading Lights

There is no use in trying to interest the child in reading unless you provide a comfortable place for him to read. Every comfortable chair in the living room should be provided with a suitable light for reading. This is also a great help when it comes to studying; a comfortable light place will inspire a bit of grinding.

Turn Them Each Week

There is a certain comfort to a bed when the mattress is turned each time clean sheets are put on it. It gives an airiness to the mattress that makes sound sleep.

To the Laundry

If you send all your clothes to the laundry, you would be wise to do your mending before they are sent. The laundry will not look over things and take the care that a laundress in your home would do.

The Boy's Cap

When the youngster comes in from play, take a look at the inside of his cap and see if it is not wet with perspiration. Lift up the lining and let in air well before he starts all over again the next day. Otherwise the cap will have a sour odor.

The Neglected Things

Having company certainly does get the little odd jobs done that othetwise would be neglected, such as silver cleaning, window washing, mirror polishing, furniture polishing—and yet it is so much easier to keep ahead of these things if some part of each one is done each week. Try it and see.

LIGHT DESSERT OF GELATIN

While it is possible to purchase the packaged lemon flavored gelatin there are times when one would like to utilize other material, especially the extra lemons that are inclined to become too ripe before there is opportunity to turn them into a pipe. Then this recipe will come in handy.

Lemon Jelly

Two and one-half tablespoons granulated gelatin, 1-2 cup cold water, 1 cup sugar, 2 cups boiling water, 1-2 cup lemon juice, grated rind of half a lemon.

Soak gelatin in cold water five minutes. Add sugar to gelatin and pour the boiling water on it, stirring until dissolved. Add lemon juice and rind and mix well. Strain through cheesecloth into a mould. Chill thoroughly. Slice and serve plain or with custard sauce.

Lemon Foam

When the imagination fails to turn up anything new, try lemon foam over vanilla ice cream. Make lemon foam by mixing the yolks of two eggs, the grated rind and juice of half a lemon, and half a cup of sugar together. Cook in double boiler stirring until it thickens. Set on ice to cool and serve over liberal portion of vanilla ice cream.

Lemon Tea Biscuits

Three cups flour, 6 tablespoons shortening, 1 teaspoon salt, 4 teaspoons baking powder, half teaspoon soda, 1 teaspoon grated lemon rind, 1-4 cup lemon juice.

Roll out dough and cut. Brush with melted butter. Bake in hot oven 10 to 12 minutes. The lemon peel gives a pleasing flavor. Biscuits resemble the fluffy old-time sour milk biscuits. Makes 30 medium-sized biscuits.

Custard Sauce

One cup milk, 2 egg yolks, 2 tablespoons sugar, 1-8 teaspoon sugar, 1-8 teaspoon salt, 1-4 teaspoon vanilla.

Scald milk in double boiler or over hot water. Beat yolks, sugar and salt together until light and pour scalded milk on them. Return to boiler and cook until mixture coats spoon, stirring constantly. Chill and add vanilla. To make a fluffy sauce, reserve one egg white, beat stiff and add to the custard just before taking off from the fire.

COCKTAIL RECIPES THAT ARE EASILY PREPARED

So many people like to know how to make non-alcoholic cocktails that a few recipes for the hostess who wishes to include these in catering for her guests will be useful. Here are three kinds easy to prepare:

Tomato Cocktail

Take ripe tomatoes for this purpose. Squeeze over a lemon squeezer to remove juice, and to tomato juice allow equal quantity of orange juice. Serve with ice.

Fruit Cocktail

To the juice of a lemon add the juice of half an orange and three dashes of Angostura bitters. If required sweet, add a few dashes of sugar syrup.

Jersey Cocktail

To a wineglassful of cider allow two dashes Angostura bitters and three dashes of syrup, stir up well, strain into a wineglass, add a cherry and squeeze lemon peel on top.

Easter Fashions in Breakfasts

By Barbara B. Brooks

A young married woman remarked the other day she thought breakfast was the most difficult meal in the day to make interesting. At least she is due a word of praise for having given a thought to the varying of breakfasts. For many people breakfast becomes just a part of the morning's rush to get off to work. Hastily downing the daily bacon and eggs or buttered toast and coffee is as much an unchanging habit in the morning routine as brushing the teeth or combing the hair.

The world wakes up hungry and rally needs the energy of nourishing breakfasts properly to accomplish a good morning's work. Awake digestive processes with fruit or fruit juice. Furnish energy by serving cereals, of which there are many delicious varieties all ready to eat. Supply some construction food for bodily repair during the busy morning by including milk, eggs or occasionally meats or fish.

Let Easter fashions start the style of interesting and nourishing breakfasts. That day, if heralded in true Easter fashion, just has to begin with a breakfast which gives to eggs a conspicuous place. An appropriate menu might include:

Fresh fruit in orange cups, hot whole wheat biscuits with cream and sugar, egg toast—extra buttered toast. Decaffeinated coffee.

EGG TOAST

Cut bread in squares and toast. Separate eggs, keeping yolks whole. Beat whites to a stiff froth; lay beaten whites nicely around on the edge of the toast; drop a yolk in center of white ring, salt and pepper and put in hot oven for a few minutes. Pour a little melted butter over the top after taking out of the oven.

While eggs are cooking in the oven heat the whole wheat biscuit. Spread each biscuit with butter and brown sugar and put in oven until crisp and warmed through. Serve with either hot or cold milk or cream.

In many homes the first fresh strawberries of the year appear on Easter morning.

Easter breakfast is a truly festive occasion with:

Fresh strawberries with cream, corn flake omelet with tiny sausages, hot muffins—jam, decaffeinated coffee.

An omelet is one of those things that needs to be handled with care. Lack of care can often do more damage than want of knowledge.

CORN FLAKE OMELET

Beat four eggs, whites and yolks separately. To the yolks add one-half teaspoonful salt, a dash of pepper and three tablespoonfuls water. Poil yolks into whites and carefully add four cups corn flakes. Pour into a greased omelet or frying pan and cook until a golden brown. Serve immediately.

You may like a spoonful of tart jelly with the omelet instead of jam for the muffins in the above menu.

Before.—He talks and she listens.
Honeymoon.—She talks and he listens.

After.—Both talk and neighbors listen.

morning after?
How Eno wakes you up, banishes heaviness, refreshes you! Take a glass of Eno—and feel a different person.

CANADIAN PACIFIC

Queer "Currency" in Use in Country's Infancy

The product most extensively employed in the place of coined money, before this country had a coinage, was the tobacco of the southern colonies, especially of Virginia. For several years nearly all of the business of that colony, both domestic and foreign, was carried on by means of tobacco until the enormous production of the plant made restriction on its use as money necessary. Powder and bullets were also used as money throughout the colonies, in some of which the legal tender of bullets in payment was limited to a small number. In Massachusetts and among the New England colonies generally grain, fish and furs were in common use as means of exchange, and not only in the settlement of private debts but they were receivable for taxes as well. Wampum, which served the Indians in nearly all their business transactions, was early recognized in New England and valuations placed upon it from time to time by the General court.

How Sound Is Conveyed in Whispering Gallery

A whispering gallery is a gallery or dome of an elliptical or circular form, of peculiar acoustic qualities, arranged to echo faint sounds between certain points. The sounds are conveyed around the interior wall so that they may be readily heard, though they are inaudible elsewhere in the interior. This is an elliptical chamber. If a person standing in one of the foci of the ellipse speaks in a whisper, he will be heard distinctly by a person standing in the other focus, though the same sound would not be audible at the same distance under any other circumstances or at any other place in the chamber. There is a whispering gallery in the Capitol at Washington, one in St. Paul's cathedral, London, another in Gloucester cathedral, England, etc. The explanation of these and of various famous "echoes" is to be found in the laws of reflection of sound in physics.

Explained

"Yes," said the business man, in answer to a telephone message, "we did order those goods from you yesterday."

"But," came the reply, "although we have had the pleasure of dealing with your firm for a number of years, this is the first time we have received one of your letters bearing the signature 'R. J. Smith, O. B. E.'"

Thos thought for a moment, and then, deciding it must be the office boy, replied, "Yes, we have a man named Smith on our staff."

Later on, he sent for the office boy, and, after ascertaining that he had signed the letter in question, asked him why he had used the letters O. B. E.

"They were meant to explain my signature," said the youth—"Only Blighter 'Ere."—London Answers.

Clay Ineligible to Senate

It has been claimed for many years that Henry Clay was the only man in history who served in the United States senate before he was thirty years of age. He was appointed to fill the unexpired term of John Adair, who resigned. Clay entered upon his duties on November 10, 1806, and was not thirty until the April following, but he kept his mouth shut and apparently no one else thought of questioning his age. Clay was later secretary of state under John Quincy Adams and twice defeated for the Presidency—by Andrew Jackson in 1832 and by James K. Polk in 1844.

Among Sacred Crocodiles

Ten miles from Karachi, India, in the northeasterly direction, lie several hot-water sulphur springs amongst barren hills. The place is called "Maghar Pir" ("Maghar" is a Hindustani word for Crocodile, and "Pir" means a Mohammedan place of worship). In a big tank are nearly a hundred crocodiles, which have been there for several centuries. A certain sect of Hindus and Mohammedans worship these crocodiles, and offer them goat's meat. The keeper in charge of the tank, who is called "Mujawar," a Mohammedan, visits the tank without being molested by these crocodiles.

Steam Wells

Geyser Creek canyon, about seventy-five miles from San Francisco, has seven steam wells. Lardello, Italy, has several. There are, however, few localities where natural steam wells are possible. Volcanic action must have brought the heated interior of the earth's crust close to the surface, and conditions must be favorable for water to reach the heated rock masses through natural channels. Other such regions are the Valley of Ten Thousand Smokes in Alaska, a region in Japan, one in northern Chile, and one in New Zealand.

Botanical Gardens

It is very likely the Jardin des Plantes, Paris, has the largest collection of living plants. The catalogue of this institution enumerates more than 20,000 species. The Jardin was founded in 1635 by a physician to Louis XIII, and occupies about 75 acres. Kew gardens, the royal botanical gardens near London, which has its branches in every English colony, is not far behind. The largest in this country are probably the Missouri Botanical garden, St. Louis, and the New York Botanical garden, the Bronx.

COUNTY NEWS

MAXVILLE

Miss Evelyn MacGillivray, Sandown, Sunday with her parents, Mr. and Mrs. Geo. MacGillivray.

Passion Week services are being held every night this week in the United Church.

Mr. J. A. Cheff, Manager Banque Canadienne Nationale, spent Tuesday in Ottawa, on business.

The serious illness of Mrs. Duncan MacMillan is causing her family and friends much concern.

In the Hotel Dieu, Cornwall, on Tuesday, Miss Evelyn Duperron underwent a successful operation for appendicitis.

Miss Helen Campbell who was taken to the Civic Hospital, Ottawa on Wednesday last, returned home on Tuesday.

Miss Mabel White, B.A., spent the week end at her home in Spencerville, Ont.

Mr. and Mrs. Leonard MacEwen were Sunday guests of their parents, Mr. and Mrs. A. A. MacEwen and Mr. and Mrs. J. P. MacNaughton.

Miss Alma MacDonald, teacher, 16th Concession, spent the week end with her mother, Mrs. Wm. MacDonald.

Miss Gladys MacEwen had with her over the week end her friends, Misses Dobbie and Fraser of Montreal.

Miss Edna MacEwen of the Civic Hospital, Ottawa, spent Sunday with her parents, Mr. and Mrs. E. J. MacEwen.

The services in the United Church on Sunday next will be of particular interest. In the morning, the Sacrament of the Lord's Supper will be observed, while in the evening, the Pageant, "The Way of the Cross" will be presented.

MRS. DUNCAN MACLEOD

On Monday, April 10th, Jessie MacIntosh, relict of the late Duncan MacLeod passed away at the home of her daughter, Mrs. Neil M. MacLean, Batic's Corners, aged 89 years.

Funeral was held in St. Andrew's Presbyterian Church, Maxville, on Wednesday, interment being made in Maxville cemetery.

A more extended obituary will appear next week.

PETER FISHER MUNROE

The following from a Rand, Colorado paper refers to an old Maxville boy, son of the late Mr. and Mrs. Hugh Munroe, 7th Concession Kenyon, and will be read by Glengarry relatives and friends with much regret.

Peter Fisher Munroe was born in Maxville, Glengarry county, Ontario Canada, February 26, 1855, and passed away at his home near Rand, Colorado, March 9, 1933. Funeral services were held at the Munroe home Saturday afternoon, March 11, Archie G. Maine of Walden delivering the funeral oration. Burial was in the Rand cemetery. A large gathering of friends and neighbors attended the services.

Mr. Munroe spent his boyhood and youth in Canada, where he learned the blacksmith trade. In 1880 he came to the United States, locating first in Cheyenne, Wyoming, where he and his cousin, William McNaughton, operated a blacksmith shop. At the time of Mr. Munroe's arrival in Cheyenne the silver mining excitement at Teller, in North Park was attracting much attention and he joined the rush into the new district, his shop, located in the booming town of Teller, being the first commercial blacksmith shop established in the North Park country. His cousin, McNaughton, was also interested in the Teller venture, the partners taking turns in operating the Cheyenne and Teller shops. Mr. Munroe also engaged in mining and developed a silver prospect on Ruby ridge. In 1882 he filed on homestead land on the Illinois river, where he resided until the time of his death, June 5, 1894, he married Jane A. Badgero, the ceremony being performed in Laramie, Wyoming.

Besides his widow, Mr. Munroe is survived by three sisters, Mrs. Kenneth Morrison, Santa Clara, California; Mrs. William Dickson, Winchester, Ontario Canada; Mrs. Charles Woods, Vancouver, B.C.; one brother, Malcolm Munroe, Vancouver; one stepson, Archie Badgero, Fresno, California, and four step-grandchildren. Mr. Badgero had been notified by wire of his stepfather's illness and arrived at the Munroe home a few hours prior to Mr. Munroe's death.

A rather remarkable occurrence in connection with the death of Mr. Munroe was the death of Harry Hynds of Cheyenne, which occurred in San Antonio, Texas, the day Mr. Munroe was buried. Mr. Hynds was a blacksmith, and during early days in Cheyenne worked in the Munroe shop, the men becoming fast friends. Later, during the boom days at Teller Mr. Hynds frequently visited North Park and was known to many of the old timers. He was 72, four years older than Mr. Munroe.

ST. ELMO

The W.M.S. held its meeting last week at the Manse with a fair attendance of women present. The Women's Guild of the Church also held their meeting at which it was decided to hold their annual spring pantry sale of home cooking at Maxville, on Saturday, May 6th.

Mrs. W. B. MacCallum is spending a few days in Ottawa and while there will be present at the singing of the Cantata, Messiah, by the choir of St. Andrew's Presbyterian Church on Good Friday. Her daughter Ann MacCallum is a member of that choir.

McCRIMMON

Mrs. T. J. Clark visited at the home of Mr. and Mrs. J. K. McSweyn, Sunday afternoon.

Mrs. Mary McCrimmon and Miss Jessie McCuaig of Dunvegan, spent Sunday evening with Mr. and Mrs. D. W. Campbell.

Mr. and Mrs. Crawford Woods, Vankleek Hill, spent Sunday evening, guests of Miss Mora Clark.

We are sorry to report that Mr. Duncan R. McDonald has been on the sick list for a few days.

Mr. Donald R. McCrimmon of Cotton Beaver visited friends here on Sunday.

The Young People's Society of McCrimmon held their meeting in McCrimmon hall on Tuesday evening and enjoyed a taffy treat at the close of the meeting.

The meetings held in the hall on Wednesday and Thursday evenings of this week and addressed by the Revs. C. K. Mathewson and R. J. Kirkland of Kirk Hill, were well attended and very much enjoyed by all.

The members of Mons Lodge L.O. E.A. purpose holding an entertainment in the hall in the near future.

MOOSE CREEK

Mr. Ernest Deschamps, Montreal, Sunday with friends in town.

Wedding bells are still pealing—A faint tinkle is heard at the west end. Mrs. Telephore Sabourin and baby Henry of Ottawa, after spending the past week at the parental home here, returned to the Capital on Sunday.

Mr. and Mrs. Adam and daughter left the latter part of last week for Toronto where they will enjoy a four weeks' holiday. Mr. McIntyre, Ottawa, in Mr. Adam's absence, is acting manager of the Bank of Nova Scotia.

Dr. and Mrs. A. T. Munroe, Dalkeith, called at the home of Mr. and Mrs. Nelson MacRae on Monday.

MISCELLANEOUS SHOWERS A large number from town and vicinity, on Friday afternoon, attended a miscellaneous shower in honor of Miss Mary Buchanan, which was held at her home. A most pleasant time was spent by all and the bride to be has the best wishes for her future happiness of a wide circle of friends.

The same evening, Miss Margaret McPherson, Tayside, was the raison d'etre at a miscellaneous shower at the family residence, prior to her marriage and was the recipient of many gifts as well as good wishes.

MEET APRIL 20th

The regular monthly meeting of the Women's Institute will be held in Community Hall, here, on the afternoon of Thursday, 20th inst., at 2 o'clock, when Miss Annie Dyer will be hostess. Roll call, current events, and a splendidly arranged programme appropriate to the Easteride consisting of a solo by Miss Donald MacLeod, recitation Miss Verna MacRae, Community singing and a debate, "Resolved that the present depression has had a good effect on the youth of to-day" together with a demonstration by Mesdames D. A. McDermid and Doyle on coffee making will assure all attendees a pleasant and profitable afternoon. The ladies of the community are cordially invited.

BONNIE HILL

We welcome back to our midst Mr. Duncan Alex. McDonald who spent many years in the West.

Mrs. Dan McDonald, of Okatoks, Alta., and her brother, Mr. Donald A. McKinnon, arrived here on Sunday and are being cordially greeted.

Messrs. Donald Archie McDonald and Dan MacCormick have left for the mining country.

MACK'S CORNERS

Mr. Stewart Denovan, Detroit, is on an extended visit to his home here.

Miss Bell McIntosh, R.N., Lachine, recently spent several days at her parental home here.

Mr. Duncan McKinnon spent a portion of Sunday with Mr. John A. McLellan.

Mr. and Mrs. D. J. McLeod, Dalkeith, spent Sunday evening at Mr. D. A. McLellan's.

Mr. George Cameron and his sister Miss Tena Cameron were Saturday callers on Dalkeith friends.

Mr. John D. McRae, Dalkeith, is engaged with Mr. John A. McIntosh for the sugar season.

Mr. and Mrs. Neil A. McLeod recently visited his brother, Mr. D. J. McLeod, Dalkeith.

Recent visitors at Mr. Neil A. Mc-

Leod's were Mr. and Mrs. D. D. McKinnon and Mr. and Mrs. John A. McLellan.

Mrs. Harriet Campbell, Avonmore has been spending a few days with Mrs. N. A. McLeod.

Mr. Colin Campbell was a recent visitor to Alexandria.

Mr. R. A. McDougall and son Archie are engaged making sugar with Mr. Neil McIntosh of this place.

Mrs. J. D. Cameron spent the week end the guest of her daughter Miss Nora Cameron, Montreal.

Rev. R. J. and Mrs. Kirkland paid several calls this week in this neighborhood.

The services held in Dalkeith school house by the Rev. Mr. Kirkland and Rev. Mr. Mathewson, Kirk Hill, were largely attended.

McDONALD'S GROVE

Mr. Stanley Cameron Sundayed at his home here.

Mr. John D. McLennan was a guest of Ottawa friends over the week end.

Miss Inez Bouton was home for the week end.

Mrs. Ronald Campbell spent a portion of Sunday with Mrs. Alexander Cameron.

Mrs. Dan Cameron and daughter Jessie of Montreal, spent the past week with the former's brother, Mr. John A. Urquhart and Mrs. Urquhart.

Obituaries

MRS. JAMES MASTERSON

On Friday, the 31st March, after a long illness, there passed away at Chesterville, Ont., a most estimable lady, in the person of Mrs. James Masterson. Deceased was a daughter of the late Mr. and Mrs. Thomas Foley, of Finch, Ont., but for many years was a resident of Chesterville, where a wide circle of friends will mourn her passing. She was of retiring disposition, a most exemplary mother, and her numerous acts of Christian charity will not go unrewarded.

The funeral was held on Monday, 3rd inst., to St. Mary's Church, where a solemn Requiem Mass was celebrated by her brother, Rev. J. M. Foley, of St. Columban's, Cornwall, assisted by Rev. J. Keane, Chesterville, deacon and Rev. L. E. Staley, Gananoque, sub deacon and Rev. D. A. McPhee, Cornwall, master of ceremonies.

In the sanctuary were Revs. D. D. McMillan, Duncan Macdonald, R. A. Macdonald, Cornwall; A. L. Macdonald, Williamstown, C.F. Gauthier, Apple Hill, A. L. Cameron, Moose Creek, J. H. Bongie, E. Danis, Crystals, R. J. Coyle, Morrisburg.

The pallbearers were Messrs. Thos. Flynn, Maurice Servage, Wesley Hamilton, Robert Servage, E. Moran and Chas. Kearns.

Interment was made in the Upper Cemetery where the remains were laid to rest beside those of her two daughters Mary Helen and Mary Loretta who predeceased her several years ago.

That the deceased was held in high regard and that deep sympathy was entertained for the bereaved relatives was manifested by the very large and representative cortege.

She is survived by her husband, Mr. James Masterson, three sons and three daughters, Bernard, William J. and Hugh J., Chesterville, Mrs. J. J. Lynch, Finch, Ont.; Rev. Sister Mary Ignatius, Sacred Heart Convent, Arrprior, Rev. Sister M. Fergus, St. Catherine's Convent, Tweed, Ont., also twenty-two grandchildren. She also leaves four brothers and three sisters, Patrick, Thomas and Martin, of Finch, Rev. J. M. Foley, Pastor, St. Columban's Cornwall; Mrs. Catherine Barry, Los Angeles, Cal., Rev. Sister Mary Bernard, of the Vincent de Paul Hospital, Brockville and Mrs. P. Masterson, Montreal.

To the bereaved, in their irreparable loss, we extend warm sympathy.

MRS. COLIN A. MACDONALD

On the 7th April, there passed to her reward the soul of the late Mrs. Colin A. Macdonald.

Mrs. Macdonald who was in her 64th year was a daughter of the late Dougald MacMillan and Margaret MacMaster. Although the deceased had been in poor health for some time her sudden passing came as a shock to her family and friends who held her in warmest esteem for her many fine qualities.

The funeral took place from her late residence, 18-8th Lancaster on Monday, 10th inst. to St. Margaret's Church and Cemetery, Glen Nevis, Right Rev. Mgr. D. R. Macdonald celebrated the Requiem Mass, Rev. Ewen J. Macdonald being in the sanctuary.

She leaves to mourn her loss two sons, Archibald J. and John D. and three daughters, Mrs. D. H. McDougall, Mrs. Alexander Macdonald and Miss Isabel Macdonald, also one brother, John D. MacMillan of St. Albert, Alta. and one sister, Mrs. Alexander Macdonald, Glen Robertson.

The pallbearers were Messrs. A. N. Macdonald, Dan Macdonald, Dan R. Macdonald, J. A. Macdonald, R. A. MacLeod and A. A. Macdonald.

Many spiritual offerings and letters of condolence were received.

MR. D. B. MACPHERSON

(Montreal Gazette)

The funeral service for David Bellhouse Macpherson, whose death occurred on Saturday in his 77th year, was held at the chapel of Joseph Wray and Bro., Mountain street, Monday afternoon. The Rev. Canon A. P. Shatford, rector of St. James the Apostle Church, of which parish Mr. Macpherson had been for years a member, read the service, following which the interment took place in Mount Royal cemetery.

Mr. Macpherson, who was born in Montreal and educated at the Montreal High School, had been, before retirement, on the staff of the Bank of Montreal for thirty years and was known to many Montrealers when manager of the West End branch of that bank at the corner of Mansfield and St. Catherine streets. He was the first manager of that branch.

The son of the late Col. John Macpherson and Agnes Bellhouse Macpherson of Ottawa, he took an active part in the affairs of the Church of St. James the Apostle, Montreal, and was for a long period a warden of the parish.

There survive him his wife, Anne Helena Taylor; one son, Col. John D. Macpherson, M.C., and two daughters, Mrs. K. G. Budden, of Montreal; and Mrs. M. W. Huish, of London.

RUPERT CHARLES VOGAN

West Hawkesbury has lost one of its best known and highly respected citizens in the person of R. C. Vogon, who departed this life a little after midnight, March 29th. He had been a great sufferer for the past five months. Confined to his bed for six weeks, he bore his intense sufferings with Christian patience, always saying, "Thy will be done, not mine."

He passed away in the same home where he had been born seventy-two years ago last Christmas Day. The deceased was a twin, his brother twin Albert Wellesley, died at the age of 20 years. The late Mr. Vogon was one of a family of eight children; all but one predeceased him; they were named respectively, Albert Wellesley, William Henry, George Nathan, Maria (Mrs. V. Smith), Dorothy, (Mrs. Alva Durant), Alice, (Mrs. W. D. McLaurin) and the surviving brother, Thomas Edward of Vankleek Hill. He will be greatly missed as he was a man who had made many friends. He never wanted to hurt anybody by word or deed. He loved his home and family, where he will be forever missed and by his many friends, for the jovial jokes and pleasantness in meeting and when receiving them in his home.

The funeral service was conducted by Rev. Wm. Macmorine of St. John's Anglican Church of which the deceased was a member for years, also, Warden for a number of years. His favourite hymn, "In the Sweet Bye and Bye," was beautifully sung by Mrs. Gordon Anderson.

He leaves to mourn, besides his widow, (Agnes McLennan), one daughter, Mrs. G. E. Léfaivre and two sons,

W. R. Wellesley and Melvin McL. Vogan.

The casket was carried by six of his very many friends, Rory McRae, John Barton, Dr. E. Mooney, Alfred Pepper, Frank Mooney and George Barton.

The floral tributes were a beautiful wreath from wife and family, and sprays from Mr. and Mrs. A. M. Bertrand, Edmonton; Mr. and Mrs. Wade Montreal; Mr. and Mrs. R. B. Clarke, Montreal; Mr. and Mrs. Geo. Wright, Montreal, and Miss Olive Watson, Montreal.

Wanted---Milk and Cream

Our cheese factory opened on Monday, April 3rd. Milk received up to 9 o'clock.

Allow us to make a suggestion. A number of farmers make a practice of making their butter supply before starting to ship cream. Why not sell your cream now on the high market and make your butter later when the price is lower? Or better still, let us supply you with good fresh butter all summer at summer prices.

We want more cream and can assure you the very best market price. Cans loaned. Payments made promptly twice a month.

Your co-operation will be much appreciated. We are agents for the DeLaval Separators and have a few bargains on hand in used separators.

Saturday afternoon 1.30. Sabbath—10.00 a.m., Communion. 7.30 p.m., Preaching by the Pastor. 6.45 p.m.—C.Y.P.U. led by R. Jamieson.

Visitors always welcome.

Light Receipts in Livestock

Cattle receipts totalled 507 on the two Montreal Livestock Markets Monday. The cattle run was the smallest for the year to date. There was not much improvement in demand however and up to early Tuesday not enough cattle had been sold to establish market prices. Indications were that changes, if any, would be in favor of the sellers.

Calf receipts were 433. Today's receipts on calves were very light and sales were fairly active. Prices were fully 50 cents higher than last week.

Four or five picked calves made the top of \$5.50 and fair to medium quality calves were around \$4 with just medium kinds at \$4.25. Common light veals and plain drinkers brought \$3 to \$3.50.

Good and choice veal, \$5 to \$5.50; common and medium, \$2.50 to \$4.50.

Sheep receipts were 126. The lamb market was about steady. Good spring lambs brought \$6 to \$7 each, with common light kinds selling down to \$3 each. Sheep were unchanged at \$3 to \$3.50, including old rams. Ewes, \$2.50 to \$3.50; lambs, good, \$6 to \$7 each; common, \$3 to \$4.50.

Hog receipts were 2,755. Receipts included between 1,500 and 1,700 hogs held over from last week. Today's trading was slow. Some 500 of the best hogs were weighed up early at \$5.50 fed and watered. The balance of the hogs were still unsold.

Mothers' Allowance Board

The Local Board for Mothers' Allowances for Glengarry will meet in Alexandria, Tuesday, April 25th at 11 a.m. Applicants are required to be prepared with birth certificates of children, marriage and death certificates. MRS. A. H. ROBERTSON, Secy.

The strawberry weevil is a hiker. He has strong legs and can walk rapidly for long distances.

BORN

DAPRATO—At the Ottawa Civic Hospital, on Sunday, April 2, 1933, to Mr. and Mrs. Alexander Da Prato (nee Flo McKinnon), a daughter; still-born.

Rouleau—At the Hotel Dieu Hospital, Cornwall, on Sunday, April 9th, 1933, to Mr. and Mrs. Ubald Rouleau a daughter.

CAMPBELL—On Wednesday, March 29th, 1933, to Mr. and Mrs. Rod A. Campbell, Baltics' Corners, a son.

AUCTION SALE
At lot 34-5th Lancaster, on Friday, April 21st, 1933, farm stock, implements, etc. D. D. McCuaig, auctioneer; Estate of C. McRae, Mrs. Catherine McRae, Executrix.

IN MEMORIAM

STEWART—In loving memory of our dear aunt Isabel A. Stewart who passed away April 14th, 1931.

Her smiles are gone forever, Her hands we cannot touch, But just a fond remembrance Of her we love so much. Remembered by her loving nieces and nephews.

Dunvegan, Ont., April 10th, 1933. 16-1c.

CARD OF THANKS

Mr. Adelard Gagnier wishes to thank his neighbors and friends for sympathy and kindness during the illness and at the time of the death of his wife, nee Mary Larocque.

Mr. Jerry Gagnier desires to especially thank the members of the Fire Brigade and the Alexandria Lacrosse Club for sympathy tendered his family and himself by these organizations Alexandria, April 13th, 1933.

CARD OF THANKS

The family of the late Mrs. Colin A. MacDonald wish to extend their thanks to their friends and neighbors for their many acts of kindness and sympathy shown them during the illness and at the time of the death of their dearly beloved mother.

CARD OF THANKS

The family of the late Margaret MacDonell wish to return their sincere thanks and appreciation to their relatives and friends for the kindness and sympathy offered them in their recent bereavement.

Mr. and Mrs. Geo. A. MacDonald and family.
794 Greene Avenue, Montreal. 16-1c.

FOR SALE

A quantity of pressed and loose hay, clover mixed and timothy for sale—Apply to Mrs. James Hope, Glen Robertson, Ont. 14-4c.

FOR SALE

Medium size Range—wood or coal—Has been used only six months. Reasonable price. Apply Bridge Sweets, Tel. 175, Alexandria. 16-1p.

FOR SALE

300 bushels Banner Oats; 200 Silver Hull buckwheat, Government inspected, Grade No. 1. Apply to J. H. McKILLICAN, Maxville, Ont. 16-1c.

WARNING

The Kenyon Township Council hereby warn drivers or owners of heavy trucks to keep off the Kenyon Township roads until May 10th, 1933. Those who violate this rule will be prosecuted by order of the Reeve.

16-1c. D. J. McPHERSON.

WARNING

To dog owners residing in the Township of Lochiel

The Federal authorities being fully determined to subdue the recent outbreak of Rabies in our municipality, are now planning to send men through our concessions with orders to destroy any dogs running at large.

According to the provisions of a By-law enacted in 1926 by our Municipality, and same having been proclaimed, it is a breach of the law for any person to have a dog and to not have him properly leashed or confined.

GILBERT SEGUIN,
Reeve Township of Lochiel.

NOTICE

VILLAGE OF MAXVILLE
This is to advise all interested that on and after Saturday, 15th of April, 1933, any party or parties found violating traffic rules, particularly governing lights on vehicles and cars, markers, driving permits, licenses, etc., in the Corporation of the Village of Maxville, will be prosecuted according to law.

WM. HILL, Constable.
Maxville, April 6th 1933 15-2c.

NOTICE OF CONDOLENCE

ALEXANDRIA FIRE BRIGADE
Alexandria, Ont., April 11, 1933.
Moved by A. D. McDonald,
Seconded by David Lalonde.

Whereas we, the Members of the "Alexandria Fire Brigade" have learned with sincere sorrow of the great bereavement sustained recently by our brother fireman Jerry Gagnier in the loss of his beloved Mother.

Be it resolved; "that we do hereby extend to our brother fireman Jerry Gagnier and to the members of his family our most sincere and heartfelt sympathy in the irreparable loss that they have sustained in the passing of his devoted and loving mother.

Carried by a standing vote.
Respectfully submitted on behalf of the "Alexandria Fire Brigade."

M. CH. SEGER, Fire Chief.
To Jerry Gagnier and family,
McDougall Ave.,
Alexandria, Ont.

AUCTION SALE

At Elgin Street West, Alexandria, on Friday, April 28th, 1933, horses implements, etc. Davo Lalonde, auctioneer; Dr. M. Markson, proprietor.

NOTICE

Mr. Stevens Talks Tariff

(Continued from page one)

tal increase in exports of these commodities it is shocking to find that despite the fact that the increases taken together amount to approximately 80%, the actual total increase in the export of the commodities was only \$22,060. Amazing! Yes but greatness on close examination oft wears an aspect of triviality. Hercules bearing the load of the world upon his broad shoulders is a magnificent conception but no artist would ever have chisled from enduring stone the statue of Hercules if he had made the promises which Mr. Bennett made in 1930 and brought forth from that foaming tide of prediction the flotsam and jetsam of the present debacle.

THE TEST OF AVERAGES

Here is one of Mr. Stevens' statements worthy of examination.

"Let us take the average duty on goods imported from the United Kingdom, other than alcoholic liquors, for the term in which my hon. friends opposite were in office. You have an average rate of 17.9 per cent. In 1932, under the present government's increased tariffs condemned so much by my hon. friends, we have a rate of only 18.62, about 3-4 of 1 per cent increase on the average on dutiable goods imported from the United Kingdom."

This statement might mean—even if true, some 40 or 50% less than nothing, an assertion I may now proceed to demonstrate.

If it were true it would damn with eloquence which would make Demosthenes turn green with envy, every statement and every promise made by Mr. Stevens and his friends in 1930.

Do you recall Mr. Bennett's remarks to the farmers: "I will make tariffs fight for you"—how much fighting would 3-4 of 1% do for the farmers?

Do you recall Mr. Guthrie's promise to cure unemployment in a day or two with the magic touch of high tariffs—think of 3-4 of 1% doing for Canada what all the geniuses of all the statesmen from 1929 to 1933 failed to accomplish.

Have you forgotten Dr. Manion—he of the red blood—in 1930 he exclaimed: "Vote for me and end unemployment". How was he going to end it? End it by adding 3-4 of 1% to the tariff!

If the Stevens' story be true and 3-4 of 1% constitutes the only change, then the tariff is practically the same as it was under the Liberals. If Mr. Stevens and his friends knew what they were going to do when they assumed office and this represents the sum total then they sought office on false pretences.

Unfortunately that castigation will not apply.

They promised tariff peaks which would mock Mt. Everest.

They delivered exactly what they promised.

No one will assert that they failed to carry out their agreement in this regard.

But a compilation of tariff averages is not an accurate means of measuring the height of a tariff. That statement can be made quite clear.

CHANGING CONDITIONS

A tariff restricts imports. A very high tariff may exclude imports. The Bennett tariff is very high. If a tariff were made so high that all imports, save only the raw materials of manufacturers were excluded, the records show an average rate of exactly nil. This of course is taking an extreme case but it shows how a very high rate might be a factor in reducing the average, complex as that may sound.

Our tariff contains many specific rates, that is, rates levied at so much per pound, ton, etc. When prices are high the ad valorem equivalent of these specific rates is low and when prices are low the ad valorem equivalent goes up. Prices have declined lately. The result is a tendency to constantly higher rates. In other words the proportionate burden of the tariff increases with the decline in prices.

Further, in hard times the consumption of luxuries falls off and as luxuries carry a high rate of duty the decline in the imports of these commodities tends to reveal a lower ad valorem rate on total imports.

These varying factors must be taken into consideration when we study the average tariff. In the light of these facts let us turn to the statement of Mr. Stevens and see what happens so far as the average rate is concerned.

THE DIFFERING AVERAGES

Mr. Stevens gives the average rate on dutiable imports (leaving out beverages) from Great Britain under the Liberal rule as 17.9%. I think he's a bit overly generous in this regard. My own calculation for the fiscal years 1923 to 1930 inclusive, works out at 18.35%, but what matters a trifle like this between friends! Besides, there is a possibility that if I concede this point to Mr. Stevens he may be generous enough to concede to me as I follow through the years 1931, 1932 and into 1933, to show what happened when the real holders of tariffs were

at work. Remember, Mr. Stevens is computing the rate upon dutiable goods entering from Great Britain and leaving out of the picture, for very good and obvious reasons, the imports of intoxicating beverages which are, after all, quite largely a revenue tax.

Total dutiable imports from the United Kingdom (the duty paid; imports of intoxicating beverages and duties paid thereon—also the average rate of duty upon imports other than intoxicating beverages, for the fiscal years 1931-1932, both of which were under Conservative administration, are shown in the following table:

Fiscal Year	Dutiable Impts. from U.K.	Duties Paid
1931	\$108,570	\$29,264
1932	79,693	23,305

Fiscal Year	Liquor Impts	Duties Paid other than bev'gs	Av. rate on Impts
1931	\$29,515	\$13,871	19.46%
1932	21,694	10,111	22.75%

Figures in millions, add 000. We now have an average rate of duty of 19.46 for 1931 and 22.75% for 1932. The difference of 1932 from the average of 18.35% under Liberal rule is 4.4%. Mr. Stevens' 3-4 of 1% looks a bit strained but the examination is not yet complete.

In June 1931 Mr. Bennett brought in his Budget and added a 1% excise tax. There is absolutely no distinction between this excise tax and a customs tax except that it levied upon all imports. Under it the free list has disappeared, we have really no distinction between dutiable and free goods, all goods entering Canada are now dutiable, so for the fiscal year ending 1932 we must add this tax to the figure of 22.75%. This 1% however is levied upon the duty paid value, thus bringing the actual rate for that year up to 23.98%, or practically 24%.

THE PRESENT YEAR

The figures for 1933 are not yet available, but we started the year with an average of 22.75% plus 3% excise tax for the rate was changed with the Budget of 1932. We have therefore 22.75% plus 3% levied on the duty paid value, which would bring the rate up to 26.44%.

We now reach a realm in which Mr. Stevens himself is incapable of making the calculation. During this period the British pound was at a discount yet the government continued to impose the rates on a valuation of \$4.86. It acted as if the pound were at par. The duty of 26.44% therefore was applied to \$4.86, but the pound was only worth \$4.00 during this period. In order to get the actual rate we must take the duty as it works out at the rate of 26.44%, levy it upon \$4.86, recognize the fact that the actual value is only \$4.00 and divide the result by that sum. By so doing we arrive at the actual ad valorem rate of duty—approximately 32%. Thus we arrive pretty close to the rate levied by the present government during the fiscal year 1933.

This statement for 1933 may be modified slightly by the different factors, which enter into the modification of a tariff over a period of time and also by the fact that some slight reductions, and very slight at that, were made on the rates at the Imperial Conference. How all this works out we shall see within a relatively short time. But it is safe to say that the figure of 32% is not far from the actual levy upon dutiable imports from Great Britain other than intoxicating beverages, and that Mr. Stevens' suggestion that the rates have gone up only 3-4 of 1% since the present government came to power, constitutes a picturesque and exaggerated statement and one which unfortunately for Canada is some distance from the truth.

STAIRS MADE HER GASP FOR BREATH

PENALTY OR EXCESS FAT

Although she has lost but 7 lbs. of her overweight, this woman finds that 7 lbs. has made a remarkable difference to her. There can certainly be nothing wrong with a reducing treatment that brings such increased energy and vigor.

Her letter reads:—"I am 53 years old and height is 5 ft. Last year I weighed 154 lbs. For six months I have been taking a half-teaspoonful of Kruschen Salts, making no change in my diet. Now I am less round the hips, and only weigh 147 lbs. dressed. But I feel lighter and can now run upstairs, which before used to make me gasp for breath. Every one says how well and fit I look, as I am in a store and get no walking exercise at all. The results may not be startling, but the fact remains that I feel much better than of late years—not so heavy—and I now enjoy dancing."—(Miss) J. H.

Kruschen is based on scientific principle—it's an ideal blend of 6 separate minerals which help glands, nerves, blood and body organs to function properly and maintain a splendid degree of health—it builds up energy and strength all the while you're training yourself down to a point of normal weight.

Splendid Collection of Old Art in Cleveland

Among the legacies that have come down to us from that little-appreciated period of the world's history, the Middle Ages, are the enameled objects that have been preserved for the most part in the treasuries of cathedrals and in museums. Rare as these are, the Cleveland Museum of Art has had the good fortune to acquire for its collections a really distinguished group of such objects, writes I. T. Frary in the Cleveland Plain Dealer.

The art of enameling, although known in antiquity to the Egyptians and the Romans, reached its highest development during the Byzantine period, and the enameled of the eastern empire carried that influence from Constantinople to many parts of Europe, particularly to Rhenish Germany and the Meuse valley of Belgium. A splendid reliquary and a large cross, in the museum's collection, illustrate the type of enamel work most commonly used in this period.

This is known as champleve, a process which involved taking a copper plate and, after drawing on it the design to be enameled, cutting away the surface of such parts as were to receive the enamel.

Sharp Party Cleavages in the United States

From the beginning of government in the United States there have been at last two political parties or points of view. The earliest were known as the Federalist, which advocated a strong central government with a great amount of control of the states, and the Republican party, which was an equally strong advocate for the right of the states to be self-governing in all domestic affairs and to permit federal supervision or government only as far as national defense and security, as well as the integrity of the Union, required. The present Democratic party is the offspring of the former Democratic-Republican party of Thomas Jefferson's time. The Federalist party was succeeded by the Whigs, then by the National Republican, and later, in 1856, by the present Republican party.

Parasol in History

In ancient Greece and also among the Jews the canopy was carried not so much as a protection against the sun as for a sort of religious ceremonial. And it must have been fashioned with movable rods, for Aristophanes drew the delightful simile, "His ears opened and shut something like a sunshade."

Persia's satraps of the oldest dynasties were sheltered by the sovereign parasol. In India its very unfolding has always been an immutable symbol of royal majesty. But time waited upon France and Catherine de Medicis to make the parasol one of a lady's fashionable foibles. And it waited upon the Seventeenth century and that eccentric traveler, Jonas Hanway, to make the sunshade's drab counterpart, the "parapluie," an English habit.

News!

A woman called at a studio for a sitting. The photographer made two negatives and promised proofs for the following day.

The next day her husband called for the proofs, but the photographer showed him only one. The husband said: "My understanding was that there were to be two proofs."

"I did make two sittings of your wife," replied the photographer, "but in one she held her lips apart and showed the end of her tongue."

"My goodness," gasped the husband, "let me see that one. I didn't know there was an end to it."

Striving to Please

A general of another day was fond of confusing his men by asking them unexpectedly and often absurd questions. One bitter cold night he rode up to a sentry and demanded, "How many stars are there in the sky?" The sentry answered coolly, "Walt a little, general, and I'll tell you," and then, turning his face upward, deliberately commenced counting. "One, two, three," etc. When he had reached 100, the general, who had become half frozen, thought it high time to ride off, without waiting for the final count.—Kansas City Times.

Diamonds in Industry

The hardest diamonds and therefore the best for industrial purposes, are the black stones from Brazil, but other good stones for such use are the grays and browns from the Transvaal and the Belgian Congo. These diamonds are used in bores, as nibs serving as points for master precision gauges, in the teeth of saws which cut stone and other hard materials, in drills, and in various other tools. The cutting and piercing value of the diamond is so great that, were it not for the cost, its field would be greatly extended.

Bird's Nest Delicacy

A certain type of bird's nest regarded by the Chinese as a delicacy is the nest of the selangane or of related species of swift or swiftlet of the Malay archipelago. It has the shape and size of half a teacup, is attached to the rock in the interior of a cave, and has the appearance of fibrous gelatin or isinglass. It is composed of a mucilaginous substance secreted by special glands, and is not, as was formerly thought, made from a glutinous seaweed.

ALEXANDRIA, ONT.

Going To Glory in a Cart

BY SAMUEL EMERY

The baggage-master swung himself gracefully up the steps as the last car was slipping by him, turned to wave his hand to some one on the platform and then entered the car and shut the door.

"And that's all right. Make yourselves comfortable, gentlemen," said he to the men sitting about on trunks. Softly whistling, he took up his long book, and soon was hard at work. To him after a pause entered the conductor, and visced our tickets with due solemnity.

"Getting pretty near your place, Smitty," he remarked. "You aren't going to flag your usual ceremony are you? 'Twouldn't do to forget Boabdil."

"Just a minute," grunted Smitty, hump-shouldered over his work. "Boabdil, Boabdil!" mused the man sitting cross-legged on a trunk. "Sounds like one of these coal-tar products."

"Or a new breakfast cereal," said he of the pink skirt. "Or the chap that produces puppies out of the silk hat at Proctor's," guessed the drummer.

The baggage-master remained mute. Presently he shut his book with a slam, pitched it up on a little shelf, then opened the side door and leaned out over the chain.

Naturally we watched, too, while the axles pounded under us, and the New England landscape slid smoothly backward in the gathering dusk.

Just as the train rushed past the rear of a neat farm-house we saw a handkerchief show at one of the windows, and at the same time Smitty swung halfout of the car and waved his hand high above his head.

A horse that had been grazing near the track flung up his head and went off at a gallop. The baggage-master shut the door and turned around.

"He seems a nice horse," remarked the man sitting cross-legged. "Do you always wave to him?"

"Always," said Smitty grinning. "Smitty," said the drummer "don't trifle with us any longer. Tell us the story."

And so, standing up in the middle of the baggage-car, lurching from side to side as the train sped down to Fall River, he told it.

"In the first place," he began, "she wouldn't have me; wouldn't have me now. She just wouldn't. Every time I whistled to go ahead, she turned the red on me. She was behind the counter of one of these railroad pie and sandwich foundries, where they sell the best hand-sewed clams, and sandwiches 'direct from tannery to consumer.' I don't know why it is, but folks that deal in pie are generally haughty and stuck up, and it was so with her, or had been for some time.

"One time when I had nearly broken some of my best teeth on a pebble in my mince pie, I up and said I wished who ever made that pie would keep things separate and leave the roadbed alone.

"Anything the matter with that pie?" she asked over her shoulder.

"Well, Sue," I said "I never knew a pie so bad that gravel wouldn't make it worse. I hope this wasn't all taken from one spot, or the rail will buckle and I'll get killed. I know I'm not fit to die."

"Mr. Smith," said she, with her chin in the air, "I'd like to have you understand I made that pie."

"So I saw I was in for it, and I told her the pie was bully, and a little gravel never did anybody any hurt, and I presumed likely my gizzard needed a new stock anyway.

"Honest, Sue I didn't mean to hurt your feelings," said I. "I wouldn't for the world. Say, Sue, why can't we couple up and make a double-header of it? Get our coal and water at the same tank, and get rubbed down in the same round-house?"

"There was nobody round just then, so I went sprang down, on my drivers, an attitude of prayer, and tried to grab hold of her hand. "I couldn't

do very well at that though, because she had her hands full of pepper casters. I know it was a fool kind of tableau, but I was in dead earnest."

"Yes," observed the drummer, "there was a starting originality about it wasn't there?"

Smitty turned on him sharply with "Guess what she did next?"

"Kissed you," said the drummer "Kicked you," ventured the man sitting cross-legged.

"Gave you more pie," pronounced he of the pink skirt.

"No, sir," said Smitty triumphantly, "she sneezed; that is, she tried to. She couldn't though, at first, nor talk either. Think of Sue not being able to talk!"

Smitty rolled his eyes to heaven at the spectacle.

"The more she tried to talk the more she couldn't. She just stood and made mouths at me, and keep going 'ha-a-a, ha-a-a, ha ba,' like she was whistling for a grade crossing. All this time she was trying to talk, the tears running down her cheeks she was that mad.

"Finally she got so she just gritted her teeth, and waved that handful of pepper casters at me, and so got more pepper in her nose, and started in sneezing all over again. Mind you, at first I didn't know what was the matter with her.

"Sue," said I, dancing up and down, "for the love of Heaven tell me what ails your exhaust?"

"Lord, I didn't know how made a girl could be. She almost riled me, Susan did. I know I'm homely, that my feet aren't mates, that I don't know how to treat a girl, that I think in cinders and talk in whistle toots; but when she said I didn't know what to do in an emergency, I'll admit I didn't like it. Don't I sleep with a red flag for a pillow, and carry tor pedoes with my matches. I fired up at that.

"Sue, I love you like sixty," said I waving my fist, "but no little bit cut-shooter like you is going to say I lack nerve."

"Look here you, Smitty," she snapped back, "you pull your freight now, sudden."

"I sailed out, and then opened the door again and called:

"I dare you to go driving with me to-morrow afternoon."

"Humph," said she. "You're scared to come for me 'bout three."

"So it was a date.

"None of us Smiths were ever hung for unceit, but that didn't prevent my Uncle Peleg getting pigeon-breasted with pride when he bought a horse. Boabdil wasn't much of a prize, either; just an alumnus of some street car stable.

"Some one asked Uncle Peleg once why he named him Boabdil, and he said because he looked that way. Naturally being used to having the right of way, Boabdil never turned out for anything if he could help it, but calmly waited for the other wagon or locomotive or brick building, or whatever it was that was in front of him, to move on.

"He loved to trail in behind a slow-moving truck sometimes, and then cock one ear back to hear his driver swear; because it reminded him of old days, I suppose. Uncle Peleg used to say he couldn't start Boabdil unless he rang a bell and having no brakes on his buggy he couldn't be sure of stopping him unless he got a cop to club him over the nose.

"Sometimes if he drove where there weren't any cops he'd be gone for hours, and if he wanted to be sure of being home early he used to take his drive up and down in front of the station-house. He was always clamoring for a larger police force; was Uncle Peleg.

"So when I helped Sue into Uncle Peleg's narrow buggy the next afternoon, I kept an eye out for a handy policeman. There was none in sight, but we started just the same.

"Sue was all dressed up, and was as smiling and pleasant as if she had never heard of pie. When we got started I made out to tool old Boabdil along with one hand while I—

"Did I tell you about her hands? None of you, curled-up rose-leaves, but a big, warm, firm hand that you'd like to hold in yours as you go through life for—"

"You got a match?" interrupted the drummer.

Smitty laughed and proceeded.

"Well, the first thing I knew we got over a little rise, and Boabdil plunged down a steep hill with the traces loose and everything banging, just as if he'd that minute caught sight of the ferry-house. When he reached the bottom he didn't slow up at all, but instead went faster. He kept on jumping and galloping, but I remembered what Sue said about my not knowing what to do in an emergency,

so I never said a word. "Pretty soon I learned over and asked: 'Been reading any poetry lately, Sue?"

"She looked as if she thought I'd gone crazy. 'What?' she shouted, bolding on tight.

"'Been reading any poetry lately?' said I. 'Can't you repeat to me some of those lovely things about dicky-birds, and straddle bugs, and timothy and clover? I do love 'em so.'

"Then Boabdil snorted out loud, scraped the paint off a lamp-post, up set an ash-barrel, and put his foot through a nice new silk hat that blew in front of him.

"Sue screamed, and that made him run faster than ever.

"Don't see a policeman, do you, Sue?" I asked, peering round. "If you must yell, yell 'police!'"

"We were all right as long as the street was straight, and nobody got in our way, but just then I saw that the fools who laid out that part of the town forty years before hadn't thought of me, nor heard of Boabdil, and so had stopped the street at a dead end.

"I stood up in the buggy and dragged back on the lines, but that horse was accustomed to drawing cars by his teeth, and it never bothered him at all.

"So we kept right on—going to glory in a cart—across the street, onto the sidewalk, and plump into a bakery, all standing, and never stopped till Boabdil had his nose in the living room behind the store.

"He couldn't get more than his nose in on account of having the screen door around his neck. I'd often heard of 'horse's neckties,' but I never saw one before.

"How-de-do," says I to the woman behind the counter. "My mother sent me for a yeast cake."

"She looked, and looked, and looked. Then she got off a queer sort of dumb howl, and jerked her elbow as if there was somebody beside her.

"Wake me up, Henry," said she in a faint voice, "wake me up quick. Oh it's awful! Then she fell to pinching herself and howling inside of her.

"Wake up, ma'am," I shouted. "All out; Fall River!" But she kept right on with her interrenal song, and I don't know how her would have brought her to if Boabdil hadn't just then spied a tray of charlotte ruses and started in on them.

"That roused her all right. 'Why it's real,' she cried, and made a grab at the tray.

"But Boabdil swung his head round at her, and the screen-door that was hanging from his neck and down in front of him like a chest protector, struck her, and she sat down again. Then he licked up another charlotte, and began to foam at the mouth.

"The woman never said a word, but got a slate and pencil and started in to 'keep case.'

"Hold on," I cried. "What do those things cost?"

"Five cents each," declared the woman, making a mark on the slate as Boabdil started in on another.

"But look here," I protested, "I'm not buying them retail. Will you please quote our Mr. Smith your best price on a gross of charlottes F. O. B. this horse?"

"Just then, however, he licked up the last one and turned and looked at us mournfully. He was lathered with whipped cream clear to his ears, as if he wanted to say: 'Well, here in thunder have they hidden that blame strop this time?'"

"And Sue, after she got through being scared half to death, nearly died trying to keep her face straight, so I wouldn't know she was amused. But when that horse turned and looked at her so reproachfully, with one foot through the plug hat, the other through a 'God-bless-our-home' worsted embroidery thing that had fallen down, the screen door round his neck, and he sticking his tongue out trying to lick charlotte ruse filling out of his ears she just gave up and cried on my shoulder.

"That's the kind of a girl I like to

Folks Past 40 Should Read This

If you are troubled with a burning sensation, functional bladder weakness, frequent daisy annoyance, getting-up-nights, dull pains in back, lower abdomen and down through groins—you should try the amazing value of Dr. Southworth's "Uratabs" at once and see what a wonderful difference they make! If this grand old formula of a well known physician brings you the swift and satisfying comfort it has brought to dozens of others, you surely will be thankful and very well pleased. It does not satisfy, the druggist that supplied you with "Uratabs" is authorized to return your money on the first box purchased. This gives you a full 10 days' test of "Uratabs" without risk of cost unless pleased with results. If you would know the joys of peaceful, restful sleep and normal healthy Bladder action, start this test today. Any good druggist can supply you.

be shipwrecked with. "Of course there was a crowd around the door by this time, and pretty soon Ryan, the policeman on that beat, came up and stuck his head round the back of the buggy.

"Hitch behind," said I, picking up the whip. "Cheese it."

"None of your guff," growled Ryan, "or I'll pull you in."

"Pull us in, your grandmother," I told him. "If you really want to work you'll pull us out. If you'd been around this wouldn't have happened. A policeman is never in sight when you want one."

"He was an old beau of Sue's and he didn't like being guyed.

"Go to the devil," said he gruffly.

"After you," said I politely, so that Sue might see I was properly brought up.

"He happened to peep through the little window in the back of the buggy just then, and when he saw I had my arm around Sue, and were both eating pie, he hurried off, and I haven't seen him since."

"Well, girl," said I, holding her tight, "do you still think I don't know what to do in an emergency?"

"She looked up at me and smiled.

"This is good pie," she pronounced, taking another bite.

"Not as good as yours," I declared. "Sue, Sue never make any more pie for anybody but me, will you?"

"Nope," she promised, with her mouth full.

"And she hasn't. Pie separated us, and pie brought us together. Blessed be pie."

Whereupon Smitty executed a little jig of bewildering complexity, which he terminated by deftly toting his toe to the overhead lamp.

BATHS

The bath-tub, as we know it, is a comparatively modern invention, but the ancient Greeks and Romans were quite familiar with baths. In those days, there were public and private baths which were important social centres. Hippocrates, the father of medicine, recommended the use of cold baths.

A clean skin is desirable. A dirty skin is apt to be offensive to others. Cleanliness of the skin enables it to function better, and so contributes to the well-being of the body of which it is the outer covering.

The application of cold to any part lessens the circulation in that part, but after the effects of the cold have worn off, there is a rush of blood back into that part. The shock of cold water causes rapid, irregular breathing for a short time, and increases the force of the heart beat. Obviously, cold baths are not suited to the very young, the very old, or those with hardened arteries.

The young and healthy individual who finds that he reacts well to the brisk rub after a cold bath may enjoy this form of bathing. There is no reason to think that cold baths make for health and resistance to disease. The cold bath should be avoided by those who do not react well to it and by those who suffer from any physical disorders.

If the temperature of the bath is practically the same as the temperature of the body, very little effect is produced on the body. Raising the temperature of the water causes the blood-vessels in the skin to dilate, the blood pressure falls, the heart beats with greater rapidity, and the breathing becomes more frequent.

It appears that, for the majority of persons, a bath slightly warmer than the temperature of the body is the most desirable. Such a bath does not throw any strain upon weakened organs, or disturb the smooth running of the body.

The application of cold or heat in one form or another to the whole or to a part of the body is a recognized and valuable form of treatment. The long-continued bath at body temperature is used to overcome the restlessness and excitability of those who are suffering from certain mental diseases.

The hot bath increases perspiration and so produce a temporary loss of weight. There is nothing which can be added to baths which will bring about a real reduction in weight. Weight lost from the hot bath is regained as soon as fluids are taken.

That the use of baths is desirable from a standpoint of health, cleanliness and social relations is a reasonable conclusion.

Questions concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.

Men may have their failings, but they don't kiss when they meet on the street.

His Kidney Troubles Completely Relieved

THE CREDIT GOES TO DODD'S KIDNEY PILLS

Ontario Man Always Keeps a Box in the House

Delhi, Ont., April 13th.—(Special).

"I have used Dodd's Kidney Pills for fifteen years, and they have relieved me of my kidney trouble," writes Henry Howlett, R.R. No. 2, this place. "I don't feel any more symptoms of Sciatica or Rheumatism. Dodd's Kidney Pills did it. I always keep a box in the house and recommend them to others."

If you have seen anyone suffering with kidney trouble you will do all in your power to prevent this terrible ailment getting the upper hand with you. But don't waste time experimenting with unsuitable methods of treatment. Get Dodd's Kidney Pills from the druggist and take them regularly as directed. That is the right and proper thing to do. For Dodd's Kidney Pills contain ingredients which act directly on the kidneys, strengthening them so that they do their full work of straining the impurities out of the blood.

A Scotchman was taking a friend through a new house he had built.

"But," exclaimed the visitor, "I noticed that you've not pasted the paper on the walls but nailed it. Why is that?"

"Oh, aye," responded the Scotchman. "Ye see, we may not be livin' here always."

PLEASE!

Daily newspapers must be paid for in advance. But the question is, "How do you stand with your Home Weekly?" Look at your label. If it is not paid in advance a money order, postal note, check or cash, would be the most acceptable thing we know of.

HENRY'S SHORTHAND SCHOOL OTTAWA, ONTARIO

This institution offers a superior training and ensures thereby a more successful future. It leads all others—a fact fully established by more than 825 pupils who have left other business schools to come to it—and ranks among employers as "The School of Higher Efficiency."

It is not surprising then that business men, in advertising for stenographers, should definitely state "Graduates of Henry's School preferred." Get particulars about our course. D. E. HENRY, Director, 62 Bank St.

INSURANCE. For Insurance of all kinds, apply to JAMES KERR, ALEXANDRIA, ONT. also agent for Cheese Factory Supplies Phone No. 82.

Eastern Women First to Make Use of Fans?

The history of the fan goes way back into legendary days. The origin of the first screen fan is attributed to China, and the story goes that the daughter of a powerful mandarin accidentally originated the fan while attending the Feast of Lanterns. The room being very warm, it is said that she unloosed her mask, and while keeping it close to her face, kept moving it to and fro. From this incident, it is related, the screen fan became popular, the court beauties taking to the custom readily.

The first folding fan is said to have come from Japan. The widow of a noble in Kioto while acting as a nun in the temple of Miedl, aided in the care of an abbot who had fever, by folding a paper and using it as a fan. This was the first folding fan. We are told that to this day the priests in the temple at Kioto are skilled in the manufacture of fans and that there are many shops for the sale of the fans.

Hindu Legend of Souls in Purgatorial Flight

Two kites fly 1,500 miles each day, according to Hindu belief in south India. The two high fliers are supposed to be two old men, who lived such wicked lives in a previous existence that they have been sent back to earth as birds of prey. The kites are said to dip in the holy waters of Rameswaram, in the extreme south of the peninsula, early in the morning. They then start on their laborious journey northward. They halt for a while for a midday meal on a hillock near Madras after flying 450 miles in one hop. The priest of the local temple ceremoniously offers them a meal in the presence of a number of devotees. The kites then resume their onward journey, and the same night reach Benares, the holiest place of pilgrimage for Hindu, 1,500 miles away. They resume their return journey the next day.

Indian Children Whipped

There is a curious paragraph in Father Dablon's book "Relation" for 1673, which reads: "This year, our Hurons, having seen that, in the school at Notre Dame de Ste. Foye for French children, those who misbehaved were chastised, came to the conclusion that, in order to train their own children properly, it was necessary to chastise them for their faults, as was done with the French children. That is why the captain has formed the habit of now and again going around the village shouting at the top of his voice for the fathers and mothers to make known to Father Hechon the faults of their children so that the boys may be whipped by the French schoolmaster and the girls by a good matron."

Spanish Olive Wealth

Spain grows an immense quantity of olives. Spanish olives supply close to a quarter of a million tons of olive oil each year. That is about one-third of the olive oil produced in the world. Some of the oil from Spanish olives is used in making castile soap. This soap has the name of a large region in Spain. Many fruit trees are "old" at the age of thirty, but the olive tree at thirty has hardly started on its career. Olive trees live through the centuries, some of them being from five hundred to seven hundred years old. Olives picked green are not fit to eat until they are soaked in a liquid containing lye, washed clean, and placed in salt water.

Real Beauty

After love, that is, wise friendliness and unselfish affection, beauty is probably one of the most important things in life—beauty in all its forms. The only real beauty, like the only real truth, is that which can stand the test of time. Generally speaking, those things only deserve to be called beautiful which men of taste in all ages have regarded as lovely, and which men of taste in our time still regard as such. A very important task is therefore to preserve what is beautiful and destroy what is ugly. Heaven knows it is difficult enough in these days to do either with much effect!—Marquess of Tavistock.

In the Far North

A place that is "different" is Spitzbergen, long claimed by the Norwegians, and over which their flag has now flown for seven years. About 1,200 Norwegians live there the year round, while its three months of summer increases the population by about 300. The islands are mountainous, glacial, the haunt of whales and polar bears, and innumerable birds, which sometimes hide the rocks on which they roost. To Norway, the islands mean coal, 9,000,000,000 tons of which are waiting to be mined. It is a fine land in which to see magic nights and the aurora borealis.

Snuff in the Colonies

Snuff-taking was quite as popular in the Colonies as in England or the continent. We are told that Washington and his cabinet took snuff, nor did they have to grate their own. The first mill for the production of snuff was started in what is now Bronx park, New York, in 1760, by the George W. Helme company. In an old stone mill, still standing in the vicinity of the rose gardens. Before then, each man grated his own with what was called a rasp, or ordered it of his tobacconist, who flavored it to the taste of his customer.

SOCIAL & PERSONAL

Miss Hattie Cameron returned home on Saturday after spending the winter in Montreal. Mr. and Mrs. A. E. Myers and children who spent some days in Prescott, returned to town Monday. Dr. and Mrs. B. J. Rouleau of Cornwall, were with relatives here for the week end. Mrs. R. Gibson spent the week end the guest of Mr. and Mrs. J. A. Cameron. Mr. J. A. C. Huot was a business visitor to Montreal on Friday. Miss Rosanna Sabourin was with friends in Montreal over the week end. Mr. E. McLennan, Dunvegan, was a visitor to town on Saturday. Mrs. D. Legault was in Montreal for a short visit last week. Mr. D. H. McKenzie and Mr. A. McKenzie of Glen Sandfield, were among the newscasters on Friday. Mr. J. A. Cameron, son Henry, Mr. A. Daprato, Mrs. R. Gibson and Miss Hattie Cameron spent Sunday with Mr. and Mrs. Alex. Emberg, Moose Creek. Mr. R. F. Travers, Montreal, is spending the Easter vacation at the Bishop's House. Mrs. D. J. McDonald is in Montreal visiting her daughters, Mrs. C. Birmingham and Mrs. A. Macdonald. Miss Phyllis Gormley of Montreal, spent the week end with her parents, Mr. and Mrs. T. J. Gormley. Mr. and Mrs. Donald A. Macdonald and daughters, St. George St., are in Montreal for the Easter tide, guests of Mrs. Macdonald's parents, Colonel and Mrs. A. Roy. Rev. J. A. Brunelle spent Tuesday in Montreal. Mr. Edward Huot, accompanied by Marie and Joseph Huot, spent Saturday and Sunday in Ottawa, visiting Mrs. Huot who is undergoing treatment in a hospital in that city. Mr. and Mrs. Rosenberg of Montreal, are spending some days in town the guests of their son, Mr. B. Rosenberg and Mrs. Rosenberg, Kenyon St. East. Mr. D. A. McKinnon and his sister, Mrs. D. R. McDonald arrived from Okotoks, Alta., on Sunday to spend some time with their brother, Mr. Joseph McKinnon, Fassifern. The Misses Jean Craig and Jessie McGregor, teachers, will attend the sessions of the Ontario Educational Association, at Toronto, as delegates from the Glengarry Teachers' Institute. Mr. A. Van Every of Macdonell & Macdonald Barristers, left yesterday to enjoy Easter at his home in Toronto. Mr. E. A. MacGillivray left yesterday for Toronto, to attend the annual meeting of the O.A.L.A., representing the Cornwall District Box Lacrosse League. Messrs. D. A. McLennan and D. A. McRae of Dalkeith were business visitors here on Wednesday. Mrs. Donald MacKay spent Wednesday in Montreal. Mr. R. F. Travers spent a couple of days at the Capital this week. The Misses Jessie and Ettie Kerr were in Montreal, on Thursday. Mr. G. P. Dunlave, representing the Toronto Daily Star, was a Newscaster on Wednesday. Mr. E. O. Gardner and Miss B. Scanlan, Notre Dame de Grace, Montreal, were guests this week of Mr. and Mrs. B. Saxton. Mrs. R. D. McIntosh, Dalkeith who visited at the home of Mr. and Mrs. K. J. McCuaig, Peveril, for a couple of days returned to her home last Thursday. Messrs. A. C. McDonald and John McDonald of Glen Robertson, were in town for a short visit on Wednesday. During the latter part of last week relatives here were informed of the somewhat serious illness, of Mr. Adolphus J. Chisholm, of Detroit, Mich. That further messages will be more reassuring is the wish of his numerous Glengarry friends. Mrs. James McGregor spent the week end with Montreal relatives. The Misses Annette and Gabrielle Goulet of Ottawa, and Miss Jeanne Goulet of Moose Creek are spending their Easter holidays with their parents Mr. and Mrs. J. Goulet, Kenyon Street West. Miss Gertrude McMillan spent yesterday in Montreal. Miss J. MacGillivray is spending Good Friday in Montreal, the guest of her cousin, Mrs. John McMartin. Mr. W. Brady of Lancaster, was among the visitors to town yesterday. Mr. Bruce Irvine of St. Patrick's College, Ottawa, is with his parents, Mr. and Mrs. E. Irvine for the Easter-tide. Dr. and Mrs. D. D. McIntosh had as their guests for the week end Mr. and Mrs. McPhee of Ottawa. Mr. Harold Walsh, of Huntingdon, student Loyola College, Montreal, is holidaying with his aunt, Mrs. J. R. McMaster.

Picked At Random

Canada, at large, might cut out 75 per cent of the party stuff in politics, and thus make the best start possible in getting a lot of government on a fundamental, statesmanlike business basis. Mitchell F. Hepburn Ontario Liberal leader, Monday night denied that the Liberal party had any connection directly or indirectly with the Sandwich application for a writ to unseat Premier George S. Henry. Beer was back in the United States on April 7th and an industry almost idle for 13 years began clicking in high gear as the demand far exceeded the production. Great Britain led the world in building new ships during the first quarter of 1933 according to an announcement in Lloyd's Register of Shipping. Her new construction totalled 252,501 tons. Prosperity has come to the hop-growers of Czechoslovakia with the advent of real beer in the United States. Hops which were quoted at \$40 per \$100 kilo grams now sell at \$100, and the supply is already almost exhausted. For the first time since it was built in 1862 the famous Monte Carlo casino may be closed soon. It is thought probable that the old casino will be closed not to reopen until there will flow across the roulette tables. A Toronto despatch says that a majority of members of the Legislature favor the sale of beer and wine in hotels. A number of Conservatives, especially those from dry ridings, object to possibility of a recorded division on the question. Highly disease-resistant wheats have now been produced that are perfectly satisfactory from the standpoint of quality and agronomic behavior. It was announced at the fifth annual meeting of the Associated Committee on Field Crop Diseases. Prime Minister R. B. Bennett has forwarded to Washington his acceptance of President Roosevelt's invitation to go to Washington towards the end of the month for discussion of economic questions. He will probably go after the Easter recess so he can meet representatives of the other countries attending. The long trek of Canada's reindeer herd from Western Alaska to the MacKenzie River Delta which started in 1929, is now nearly ended. Hon. T. G. Murphy, Minister of the Interior, stated Tuesday, that the herd has arrived at the west bank of the MacKenzie River at the Delta. The seaplane speed record of 408.8 miles an hour set up by Lieut. G. H. Stainforth, of England in 1931, was broken recently when Francesco Agella a member of the Italian Schneider Cup team of 1929, sent his speed plane, "Red Bullet" over five laps of the mile for an average of 426.5 miles an hour. The Canadian National and Canadian Pacific Telegraphs are making special arrangements for the handling of Easter greeting messages by telegraph. Officials report that this form of Easter greeting is becoming very popular with Canadians and a large number of these messages is anticipated. Low rate Easter excursions are being operated by the C.N.R. from Montreal to Toronto and to Gaspe and the Maritime provinces while excursions will be operated into Montreal from Ottawa, Quebec and other points. Return portion of tickets are being made good until Sunday night trains making a long week end and the departure is on Thursday. Mr. Paul Martin of Windsor addressing the Hamilton Liberal Club, Monday, predicted success for the Liberals in the next provincial election regardless of the date of the contest. He charged that the present administration was full of corruption and held office for many years thinking it was so solidly supported it could not be ousted. A hockey team from the Maritimes has won the Allan Cup emblematic of the Canadian Amateur Championships, for the first time since that trophy has been put up for competition. The Hawks of Moncton, N.B., met and defeated the Saskatoon Quakers by the Shut-out route at Vancouver, this week, winning the games by scores of 3-0 and 2-0. A writ has been filed before the Supreme Court at Sandwich seeking to oust Premier Senry from the Legislature because he has admitted ownership of \$25,000 worth of bonds of the Ontario Power Service Corporation which has been taken over by the Province. Hon. W. H. Price, Attorney-General is of the opinion that it is an action to embarrass rather than to gain results.

One witness from each of the provinces will be heard next week before the Agriculture Committee of the Commons on the spread between producers and consumers' prices for milk. These witnesses will be representatives from co-operative producers and milk dealers associations. Plans are nearing completion where by approximately 1,000 single unemployed men of the Montreal district will be removed to Petawawa and Valcartier, where they will be engaged in the reconstruction and improvement of those two camps. The programme is being prepared by the departments of Labor and National Defence. The export of Welsh Anthracite last year amounted to 900,000 tons, a figure only made possible as a result of the preference granted by the Canadian Government, in the opinion of the Chairman of the Amalgamated Anthracite Collieries. Addressing the annual general meeting he said, "Within the Empire, Canada has proved a tower of strength and a real friend of British anthracite." If evidence on milk prices given before the Agriculture Committee of the House of Commons, by a former accountant of the Montreal Dairy Co. proves true, dairy farmers who ship their milk to that Montreal dairy have been "gypped" out of money rightfully theirs and the Company has been guilty of criminal practise according to James F. Bowman, a member of the Committee. Executives of that Company were summoned to give evidence Thursday. If present plans mature representatives of eleven of the leading nations of the world will converge on Washington towards the end of the month for informal trade talks with a view to world-wide tariff reductions. President Roosevelt has invited Great Britain, France, Germany, Italy, China, Japan, Canada, Mexico, Argentina, Brazil and Chili and most of these nations have already signified their intention of being represented. Premier Ramsay MacDonald will represent Great Britain while it is rumoured, former Premier Edouard Herriot of France will be that country's delegate. The arrest in Montreal of Harry Davis, on Monday by Royal Canadian Mounted Police has uncovered what is said to be the biggest drug smuggling plot in the history of Canada. He is charged with illicit drug dealings and of defrauding the Customs of \$500,000 due on the importation of 30,000 ounces of morphine, cocaine, heroin and opium from Paris. The ball of \$100,000 set in the case is said to be the second highest ball ever asked in any Canadian court. MRS. ADELARD GAGNIER On Sunday, April 9th, death came after a protracted illness, to Mary Larocque, beloved wife of Mr. Adelard Gagnier, at the family residence, McDougald Avenue. In her passing a life of motherly devotion has come to a close and many are her friends who unite with the members of her family in regret for her loss. The deceased who was 67 years of age was a daughter of the late Mr. and Mrs. William Larocque of the township of Kenyon. She married Mr. Gagnier, the ceremony being performed in St. Finnan's Church by Rev. Alexander Macdonell, afterwards first Bishop of the Diocese of Alexandria. Besides her husband she is survived by five sons, Joseph, of Vancouver B.C., Adelard of San Francisco, Cal., Jerry, Cyril and Leonard, of Alexandria, and three daughters, Mrs. J. E. Leroux, Montreal, Mrs. A. Charlebois and Miss Beatrice Gagnier, Alexandria. She also leaves three brothers, William Larocque, Montreal, Joseph Larocque, Chicago, Ill., Cyril Larocque, St. Paul, Minn. and two sisters, Mrs. Mary Beffrey, of Butte, Mont. and Mrs. John Larocque, Alexandria. Final tribute to the memory of the late Mrs. Gagnier was paid at the funeral tribute on Wednesday morning to the Church of the Sacred Heart, where a Solemn Requiem Mass was chanted by Rev. D. Secours with Revs. J. J. Macdonell and J. A. Brunelle as deacon and sub-deacon respectively. The cortege was a lengthy one and included present and past members of the Fire Brigade under Chief Seger and Deputy Chief Courville and Mayor Laurin and members of the Town Council. The pallbearers were Messrs. J. E. Leduc, D. M. McMillan, Antoine Proulx, Geo. R. McDonald, Wilfrid Cadieux and Allan Weir. Relatives and friends from a distance included, Mr. and Mrs. D. Boyer, Dorval; Mr. Albert Da Prato, Mr. and Mrs. Jos. Huot, Mr. Albert Jandron, Mrs. Raoul Danis, Mrs. Fred Jandron, Mrs. Layton, Mr. Denis Sabourin, Mrs. Alex. Gagnier, Montreal, Mr. and Mrs. D. Courville, Cornwall. Spiritual offerings from Mrs. J. H. Charlebois and family, Mr. Angus Kennedy, Mr. and Mrs. Damase Le-

gault and Aline Legault, Mrs. Tourangeau, Mr. and Mrs. Arthur Laporte, Alexandria Lacrosse Club, Mr. and Mrs. Z. Girard, Mr. J. H. Page and family, Miss Marguerite Dumouchelle, Mr. and Mrs. Paul Larocque, Mr. and Mrs. S. Filion and family, Mr. and Mrs. Z. Courville, George Laplante, Mr. and Mrs. Ernest Dumas, The Alexandria Fire Brigade, Mr. and Mrs. J. E. Leroux and family, Mr. and Mrs. J. LaLonde, Mr. and Mrs. Leonard Gagnier, Mr. and Mrs. Cyril Gagnier, Mr. and Mrs. Jerry Gagnier, Mr. and Mrs. A. Charlebois, Mr. and Mrs. H. Leboeuf, Mr. and Mrs. Paul Da Prato, Mr. and Mrs. J. A. C. Huot, Mr. and Mrs. Albert Da Prato, Mr. H. A. Gauthier, Mr. and Mrs. H. D. Duggan. Beautiful floral tributes were received from The family, Mr. and Mrs. Damase Boyer, Mr. and Mrs. Jerry Gagnier, Mr. and Mrs. J. Marceau, Mr. and Mrs. Cyril Gagnier, Mr. and Mrs. Leonard Gagnier. MRS. FRANK BROWN At Coteau Station on Thursday, the death occurred of Mary Jane Lapierre, beloved wife of Mr. Frank Brown, after a short illness. The deceased lady who was born in Alexandria 56 years ago, was a daughter of Mr. and Mrs. Peter Lapierre and was held in high regard by a large circle of friends here as well as in other places where she resided. Mr. Brown being an employee of the C.N.R. was transferred to Lancaster and three years ago his duties called him to Coteau Station. Left to mourn her loss are her husband, five sons and five daughters, Peter, Arthur, Albert and Raymond, Coteau Station; Adelard, in Cornwall; Mrs. Andrew Lauzon Alexandria; Mrs. Alfred Lauzon, Cornwall; Mrs. Aime Poirier, Oshawa; Mrs. Lorenzo Montreal, Valleyfield; Mrs. Horace Dumontelle, Sudbury. She also leaves two brothers, Clement Lapierre, of Vars, Ont., and Adelard Lapierre, Alexandria; and two sisters, Mrs. Joseph Seguin, of Cornwall, and Mrs. George Barniky of St. Eugene. The body was conveyed by motor from Coteau Station to the home of her daughter, Mrs. Andrew Lauzon, Alexandria, on Friday and the funeral was held on Saturday to the Church of the Sacred Heart, where Requiem Mass was chanted by Rev. D. Secours, and burial made in St. Finnan's cemetery. The pallbearers were Clement and Adelard Lapierre, Andrew Lauzon, Alfred Lauzon, Aime Poirier, and Lorenzo Montreal. MISS MARGARET MACDONELL It is with feelings of regret that we announce the death of Miss Margaret Macdonell daughter of Mr. and Mrs. George A. Macdonell, who passed away, following an attack of appendicitis, at her parents' residence, 794 Greene Avenue, Montreal, on Monday, March 27th, 1933. The funeral took place on Thursday morning, March 30th, to Alexandria, Ont., her former home, and was largely attended by relatives and friends. Rev. Ewen J. Macdonald officiated at the Requiem Mass in St. Finnan's Cathedral. The pallbearers were Messrs. Grant Kennedy, John M. Kennedy, Angus McKinnon, John McDonald, John McMenamin and Bernard McPherson. The deceased leaves to mourn, her loss her parents, four sisters and one brother, Mary, Helen and Sally of New York, Duncan and Teresa of Montreal. The late Miss Macdonell was a gra-

duate of St. Anthony's Academy, graduating with high honors, was of a bright and cheerful disposition and loved by all who knew her. Beautiful floral tributes and many spiritual offerings were received showing the high esteem in which she was held. The floral offerings included, pillow the family; spray, Mr. Michael Nesdal, Miss Minnie Ward, Miss Kathryn Henri, Mr. and Mrs. Dodge, New York; wreath, Mr. W. P. McVey; cross, Mr. and Mrs. W. Nix and family, wreath, Miss Anna Clarsley, spray, Mrs. Rohr Montreal. Spiritual offerings from the family, Messrs. Hugh and Grant Kennedy, Allen Kennedy, Greenfield; Miss Catherine Kennedy, Montreal, Mrs. P. Ahern, Miss Bella McGillis, Mrs. McGillivray and family, Miss Margaret MacDonald, Mr. D. J. MacDonald, Mr. and Mrs. John McIver, Mr. D. A. MacDonald, Mr. and Mrs. W. J. Kennedy, Mr. Donald and Miss Tessie McPhee, Miss Anna McKinnon, Miss Dorothy McKinnon, Mrs. Hoey, Mrs. Rohr, Misses Kate and Sarah MacDonald, Miss Katheline Sanderson, Miss Veronica McCaffrey, Miss Muriel Burke, D'Arcy McGee High School, Mr. J. J. McPherson, Miss Isabella McPherson, Mrs. D. J. MacDonald, Miss Betty McPherson, Mrs. G. Bethell, Montreal, Mr. Hugh Smith, New York; Miss Christia Kennedy, Alexandria; Mr. and Mrs. Ed. Du Cross, Mrs. Elizabeth MacDonald, Misses Mary and Vivian MacDonald, Mrs. Annie Morrissey, Montreal. Letters of condolence were received from friends and relatives in Reno Nevada; Bermuda, Boston, Mass.; New York, Kirkland Lake, Timmins, Maxville, Greenfield, Alexandria, Ottawa, Ont.; Atlantic City.
